

What is “Enterprise Logistics?”

TransportationInsight®
Evaluate. Innovate. Dominate.

We Can Help Each Area of Your Company

01 EXECUTIVE LEADERSHIP

Improve bottom-line profit, customize key performance indicators and provide data insights to support mergers and acquisitions, growth, new markets.

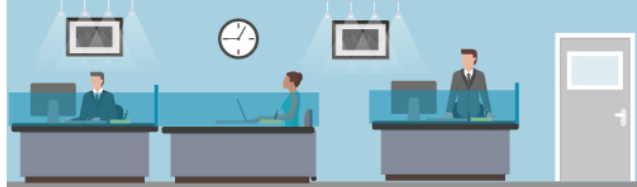

02 FINANCE ADMINISTRATION

Simplify record keeping and accounting compliance, automate complex accounting processes, advanced metrics to facilitate trend identification and financial forecasting.

03 SALES

Improve customer satisfaction with faster, more accurate price quotes and service times, plus identify sales trends.

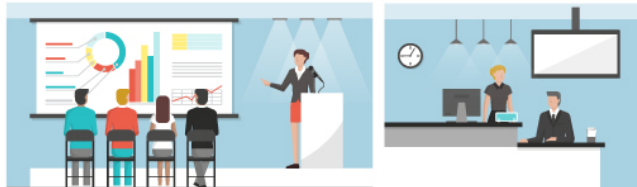

06 PURCHASING

Control inbound freight costs more closely via online carrier routing; track and recover costs from supplier misroutes.

04 SUPPLY CHAIN

Formulate key strategic decisions regarding site selection, distribution alignment and leverage warehousing, consolidate distribution, gain control and visibility of international shipments.

07 INFORMATION TECHNOLOGY

Facilitate enterprise-wide productivity improvements by integrating enterprise resource management system with logistics systems and customized online solutions.

05 LOGISTICS

Price shipments and select optimal service providers in significantly less time, communicate routing instructions and execute shipments.

Enterprise Logistics

“Whole Company”

“All Departments”
