

IN-HOUSE MAINTENANCE MACHINERY PACKAGE

THE REPLAY REBRUSH

Easy to use, all-in-one brushing system to help maintain performance and appearance of synthetic sports surfaces.

DRAG BRUSHES FOLD-UP FOR EASY TRANSPORTATION AND ACCESS

DRAG BRUSHES FOLD DOWN TO ALLOW A LARGE 2M SPAN

The **REPLAY REBRUSH** package includes:

- Powerful 24hp Engine Drive Unit
- Integral foldable Drag Brush
- Rubber Drag Mat
- Delivery and Training

Reasons to use **REPLAY REBRUSH**

- A compact but powerful **24HP** Kawasaki petrol engine Drive Unit with integral Brush system
- The Brush provides a 2m working width, maximising performance reducing time
- The pressure on the Brush within the carpet pile can be adjusted to assist with **decompacting** and **redressing** the infill
- The Brush can be raised clear of the surface for easy transportation and reduced wear on the bristles
- The Brushes fold up to allow for access through smaller (90cm) gates and easy storage
- Storage dimensions: 1200mm wide, 1800mm long, 1250mm high
- Digital Operators display unit shows the hours of usage and engine rpm when in use
