

EcoRider

Eco Credentials

Made from the finest quality vegetable tanned leather produced to stringent REACH standard. The leather in this saddle contains no hazardous chemicals and is tanned over 30 days using barks such as oak, chestnut and hemlock. The result is a leather so soft, flexible and strong that is better for the environment and for better for us.

EcoRider

Changeable Gullet

1. Remove the screw under the skirt at the head of the saddle on both sides
2. Open the Velcro tab from under the panel and unscrew the gullet on both sides. Take the gullet out and gently pull the saddle away from the tree to free the gullet.
3. Screw in firmly the new gullet, fold back the Velcro flap and screw back the screws at the head of the saddle

EcoRider

Freedom Jump Saddle

This saddle aims to achieve a perfect sensation while jumping whilst maintaining the closest contact with your horse. Using the softest eco leather we have created a close contact jumping saddle that is both luxurious and practical. The knee roll is adjustable allowing the rider to adopt a number of positions and accommodating a range of leg lengths. It also comes with a flexi plastic tree with 5 different gullets allowing you to change the saddle to fit your horse. The Freedom Jump Saddle also benefits from a high density PU foam support adding to the saddle's comfort. The panel is long lasting PU foam that gives a smooth and soft feel and reduces bumps and pressure points.
