

## Controlled Processes

Besi Die Attach Management is committed to the development of products, systems and services meeting the international requirements as defined by our customers and stakeholders.

Besi DA products, systems and services shall meet or exceed international standards; they shall be designed and manufactured for safe use by intended users and for foreseeable misuse.

## Compliance

Besi DA has defined targets for quality, sustainability and reliability and continuously improves the products, systems and services provided to their customers. We follow the RBA Code of Conduct. Every employee contributes to the achievement of the company goals by knowing and observing company processes and directives. DA is committed to protecting the environment as an integral part of our business, protect natural resources wherever possible and to comply with all respective standards and obligations.

## Continuous Improvement

Besi DA management system is an effective tool for continuous improvement towards robust and environmentally optimized products and manufacturing processes to enhance sustainable performance.

## Operational Excellence

We are focused on the achievement of customer and employee satisfaction.

We handle with care, clear focus and follow the Besi Values.
