- High Performance Steel and Glass Systems
- Complete and Guaranteed

SPECIALIST
FABRICATIONS

Company Overview

Wrightstyle design, test and supply a range of high specification, high quality, specialist steel and glass systems.

Our systems are designed as a cost effective solution for special applications, and are backed up by an extensive testing and development programme.

For all projects our aim is to assist the glazing sub-contractor and architect through our range of services.

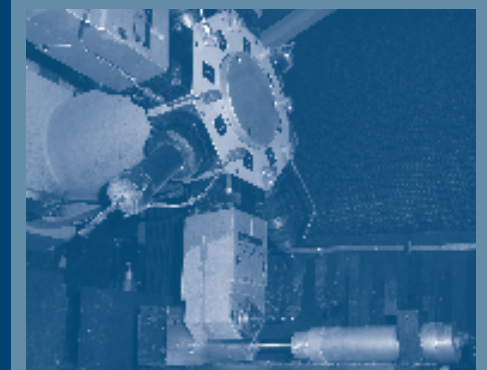

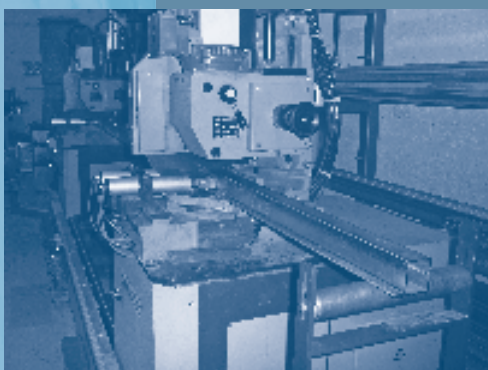

Our Vision

To continually develop and supply innovative products to make our customer's lives easier.

Fabrication Service

As a major systems supplier for steel curtain walling, doors, screens & windows, we also offer an in-house fabrication service. We have, justifiably, built up a reputation for the supply of high quality, fully finished products to the construction industry.

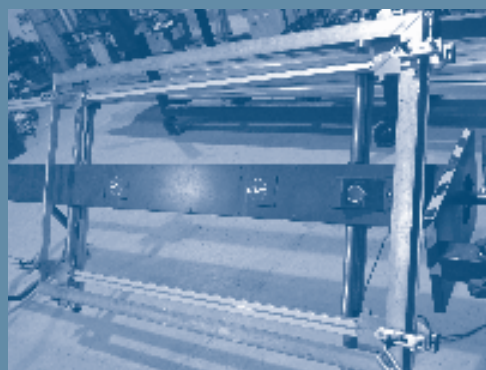

With a major investment in production facilities, we are using the very latest in automated machinery, backed up by stringent QA procedures; helping us to ensure the quality of the finished product is second to none.

Product Range

Using our own in-house steel glazing systems, we offer a fabrication service for the following products:

- Curtain Walling: Steel or Stainless Steel, Large Span, Structurally Glazed, Fire Resistant, Ballistic Resistant and Blast Resistant
- Roof Glazing: Steel or Stainless Steel, Large Span, Structurally Glazed, Fire Resistant, Ballistic Resistant and Blast Resistant
- Doors: Single & Pairs, Fire Resistant, Ballistic Resistant
- Windows: Side & Top Hung, Fire Resistant, Ballistic Resistant
- Screens: Fire Resistant, Ballistic Resistant, Blast Resistant
- Our own range of Fire Resistant Glass: Integrity Only, Integrity & Insulation

Specifications

The Wrightstyle steel systems are constantly being developed and tested. The benefits of this clearly show in the high range of specifications that we can manufacture to:

- Fire resistance from 30 minutes to 120 minutes for both integrity or integrity and insulation
- Ballistic resistance from 9mm to 7.62 calibres
- Blast resistance to car bomb and lorry bomb specifications
- Doors up to 3m x 3m in pairs, and 1.5m x 3m in singles
- Curtain walling up to 12m spans

With full international certification for all our products, we supply to a growing global market stretching from America to South Africa, Hong Kong to Ireland, The Middle East to Australia and all points in-between.

Customer Support

We work closely with our customers to provide standard or bespoke solutions, using our versatile range of systems. We remain committed to continuous research and development, meeting the ever changing and demanding specifications throughout the international community. Our aim is to assist customers through our range of support services:

- Specification advice and assistance
- Efficient estimating service
- Design drawings and CAD services
- Design calculations
- Full technical support and advice
- Full supporting test data

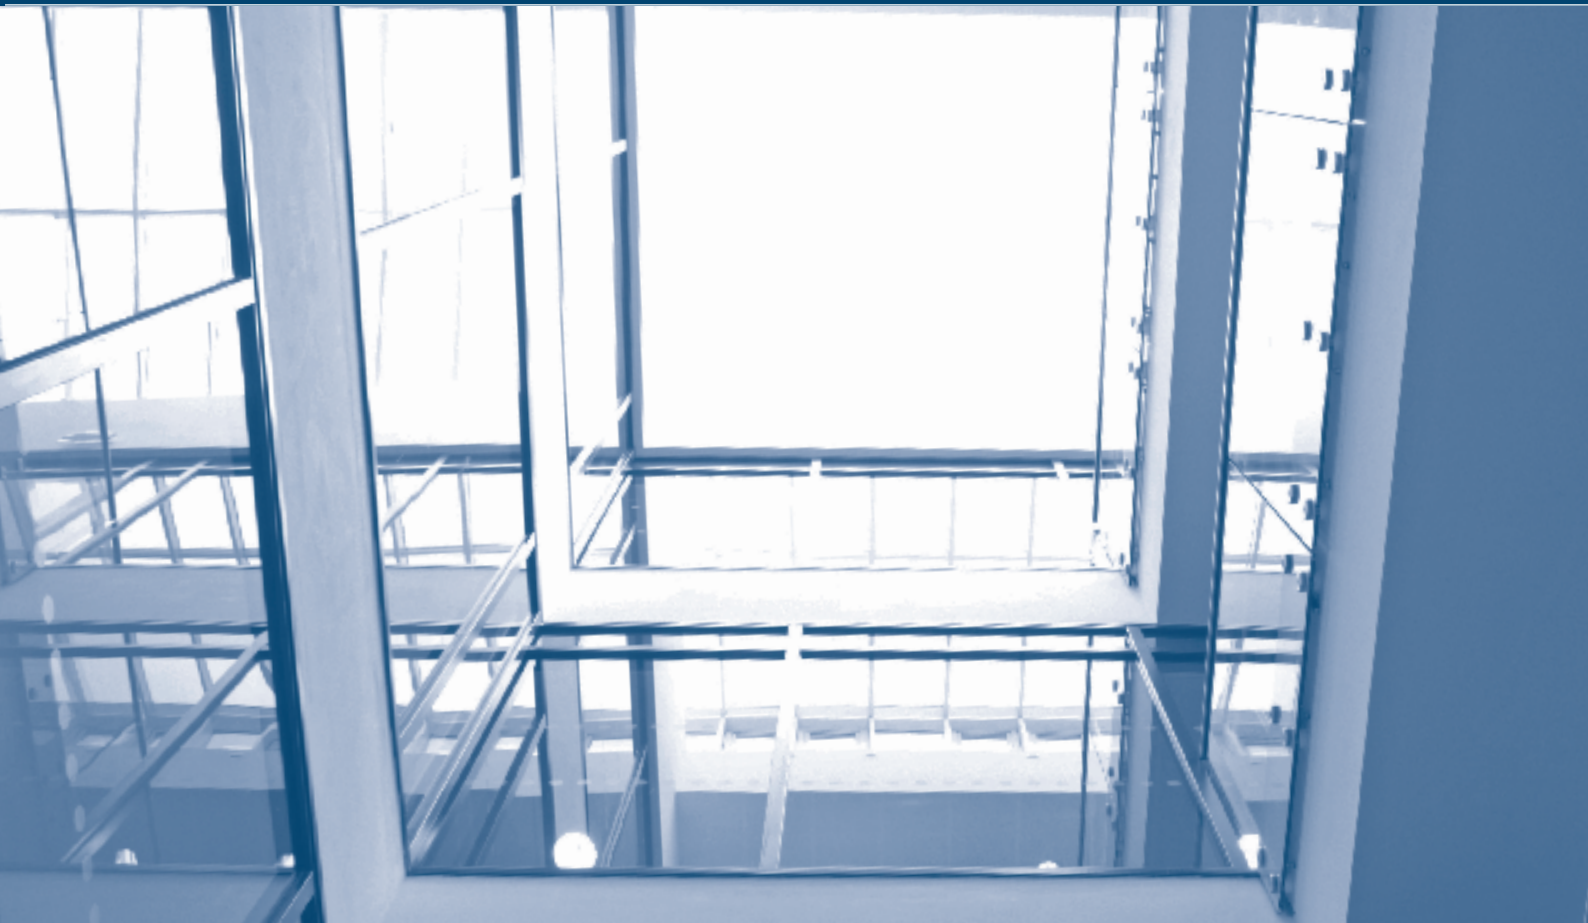

The Advantages

Wrightstyle Fabrications offer considerable advantages to customers. There is the added value of our own range of fire resistant glass, which has been tested and approved with the Wrightstyle Systems. This puts us in a unique position of being able to offer the glass complete with the framing system, as a single package. See our Glass Products Overview brochure for full details.

As Wrightstyle is a major supplier of the steel glazing systems our customers have the added advantage of:

- Major price savings due to the reduction of mark up chains
- All materials are in-house ex-stock
- Reliable & accurate CNC prep
- Fast fabrications turn around
- Glass products on 3-4 weeks delivery
- Single source supply.
