

The SPE Foundation's mission is to support the development of plastics professionals by funding and delivering quality educational programs, scholarships, and student experiences. PlastiVan® is a national outreach program focused on the chemistry, history, processing, manufacturing, applications, and sustainability of plastics and is aimed at students of all ages.

- *Thank you for considering a sponsorship of the PlastiVan® program. Your sponsorship helps change the perception of plastics one classroom at a time.*
- *Develop your future workforce by opening student minds to careers in science, engineering, and technology, as they are applied in the plastics industry.*
- *Introduce the local community to your company products, processes, and career opportunities. This increased visibility in the educational realm often garners local media coverage.*
- *We supply media talking points to highlight the positive aspects of plastics in our society.*
- *Sponsorship for PlastiVan® is \$1,750 a day. The SPE Foundation may be able to find supplemental funding support if necessary.*
- *The PlastiVan® Program may be tax deductible. Please consult your tax accountant.*

We look forward to hearing from you today!

To bring the PlastiVan® Program to your community,
