Le fresate alterne create sui due lati del disco facilitano il meccanismo di autoventilazione del disco.

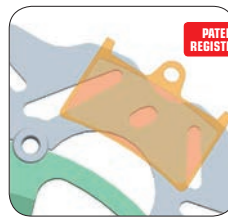

Alternative grooves are created on both surfaces of the disk creating a self-ventilation mechanism.

CARATTERISTICHE > VANTAGGI

- autoventilazione > coefficiente di frenata costante in tutte le condizioni
- pressione specifica estremizzata > capacità di frenata massima
- minor peso > migliore maneggevolezza

FEATURES > BENEFITS

- self-ventilating > constant friction coefficient at all conditions
- very high contact pressure > highest braking grip
- light weight > better handling

Il diametro interno ed esterno del disco con profilo non tondo migliora l'espansione radiale del disco in condizioni di stress termico estremo, inoltre la molteplicità di spigoli facilita il processo di ravvivamento delle pastiglie freno.

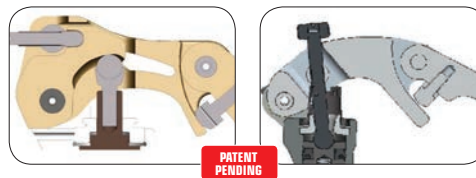

Outer and inner diameter of the disk have a non-round design to enable better radial expansion of the rotor under extreme heat conditions, moreover edges are set to grow brake pad regeneration process.

CARATTERISTICHE > VANTAGGI

- molteplicità di spigoli > migliore progressività
- pressione specifica maggiore > migliore capacità di frenata
- capacità di dissipazione calore > coefficiente di frenata costante in tutte le condizioni
- minor peso > migliore maneggevolezza

FEATURES > BENEFITS

- multiple tuned edges > progressive response
- higher contact pressure > more braking grip
- better heat dissipation > constant friction coefficient at all conditions
- less weight > better handling

Grazie all'innovativo sistema brevettato CAM CONTROL, il movimento della leva è trasmesso al pistone attraverso una superficie a camma che si traduce in una progressione non lineare, ottimale per le competizioni.

Thanks to the new patented CAM CONTROL system, the lever movement is transmitted to the piston through a cam surface, thus creating a non linear progression, perfect for competitions.

LE CARATTERISTICHE INTRODOTTE DA QUESTO SISTEMA SONO

- il braccio di leva varia in funzione del movimento della leva
- la forza esercitata sulla leva è trasmessa totalmente al pistone in direzione assiale alla camera
- la regolazione meccanica è separata dalla funzionalità idraulica
- sostituendo la camma in dotazione con una con differente profilo è possibile adattare la pompa a differenti condizioni di utilizzo (*optional in fase di sviluppo)

THE CHARACTERISTICS OF THIS SYSTEM ARE

- The lever arm changes according to the lever movement
- The force applied on the lever is completely transmitted to the piston with an axial direction towards the chamber
- The mechanical regulation is separated from the hydraulic function
- When you replace the given cam with one having a different profile, it is possible to adapt the master cylinder to different using conditions (*optional - to be developed)

EPTA ONROAD

EPTA Disc nasce dall'esperienza maturata da Braking con i migliori team impegnati nelle più importanti competizioni a livello mondiale (SBK e SS). La pista frenante garantisce una migliore distribuzione di calore, assicurando un coefficiente di attrito costante.

COME FUNZIONA: la struttura di collegamento permette un gioco radiale/assiale più controllato, con un miglior trasferimento di carico tra la pista frenante e il mozzo.

EPTA Disc comes from Braking working experience with best teams in most important competitions in the world (SBK & SS). The braking track ensures a better heat dissipation, insuring a steady friction coefficient.

HOW DOES IT WORK: the connection structure allows a more controlled radial/axial play, with a better load transfer between the braking track and the carrier.

CARATTERISTICHE TECNICHE E BENEFICI:

Design termico ottimizzato ➔ Rapporto peso/prestazioni massimizzato
 Temperatura omogenea del disco ➔ Assenza di zone calde
 Trasferimento diretto del carico tra pista e mozzo ➔ Assenza deformazione elementi di collegamento (piastrine)

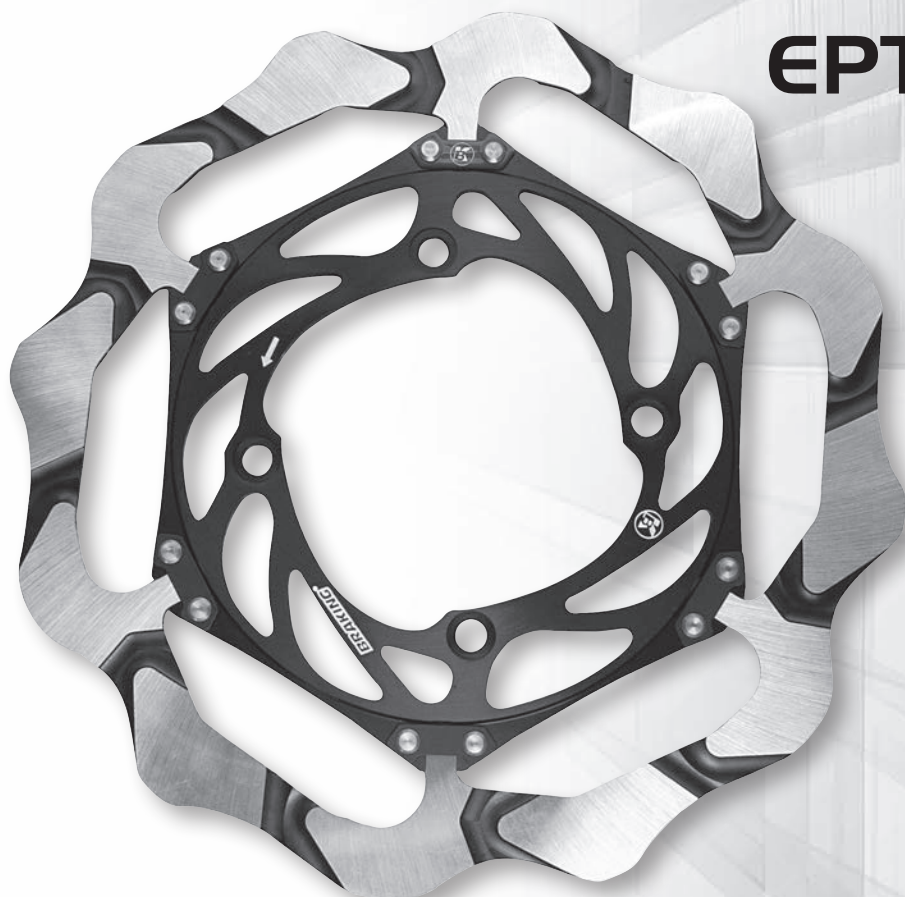

TECHNICAL FEATURES AND BENEFITS:

Thermal design optimized ➔ Maximum weight-to-performance ratio
 Consistent disc temperature ➔ Absence of heat spots
 Direct load transfer between rotor and hub ➔ No pins deformation due to applied load

GARANZIA

PREMESSA

La garanzia applicata ai prodotti è la garanzia legale definita dalla legge Italiana in vigore e applicabile. Allo stato attuale questa prevede che, nel caso un prodotto abbia un difetto di conformità il venditore (non il produttore) è responsabile per due anni dalla consegna all'utilizzatore del bene stesso. La Sunstar Engineering GmbH (produttore), al fine di fornire un miglior servizio alla rete distributiva garantisce al venditore la stessa garanzia che il venditore deve dare all'utilizzatore originario.

TERMINI

La Sunstar Engineering GmbH garantisce che il Prodotto corrisponda alle specifiche indicate dal Produttore stesso ed è privo di difetti nei materiali e nella lavorazione.

Qualora si riscontri un difetto coperto da garanzia, questo deve essere segnalato al venditore entro sessanta (60) giorni dalla sua scoperta.

La segnalazione deve essere effettuata per iscritto e tramite utilizzo dell'apposito modulo e deve essere corredata della **prova d'acquisto dell'utilizzatore originario che identifichi sia il prodotto che la data di acquisto** (sia acquistato al dettaglio che venduto da un rivenditore come parte dell'installazione del Prodotto).

La copertura della garanzia ha una durata limitata di due (2) anni dalla data di acquisto da parte del consumatore (comprovata dalla prova di acquisto).

Il Prodotto che si presume difettoso, dovrà essere restituito alla Sunstar Engineering GmbH presso il magazzino della TRAVAGLINI LUCIANO S.R.L. di Via Lavoratori Autobianchi, 1/A - DESIO (MB) - Italia, per il tramite della catena distributiva e con spese a carico del mittente.

La Sunstar Engineering GmbH provvederà, in un tempo congruo, a verificare la conformità del prodotto. Nel caso si riscontrino vizi o difettosità dovute al produttore, la Sunstar Engineering GmbH provvederà al rimborso anche delle spese di trasporto sostenute dal Cliente.

Nel caso si confermi la presenza di un difetto coperto da garanzia nel Prodotto, questo verrà, a scelta del Cliente, riparato o sostituito con un prodotto nuovo. Il Produttore si riserva la facoltà di non riparare o sostituire il prodotto difettoso ma di rimborsare il Cliente di una cifra pari a quella sostenuta per l'acquisto del bene.

Queste limitazioni di garanzia non si applicano:

- ad alcun danno al prodotto causato, in parte o in toto, da un cattivo utilizzo, incidente, incendio, corrosione chimica, uso per scopi diversi da quelli previsti, utilizzo illecito, impiego su un modello diverso da quello previsto, errata installazione, installazione contraria a quanto indicato dal Produttore, o mancata manutenzione del prodotto secondo quanto prescritto dal Produttore nelle istruzioni fornite
- ossidazione e/o corrosione dovuta agli agenti atmosferici, lavaggio improprio dell'oggetto o cattiva conservazione
- qualora INVECE il reclamo riguardi prestazioni non corrispondenti alle aspettative, rumori e vibrazioni, questo deve essere segnalato entro otto (8) giorni dalla sua scoperta ed entro sei (6) mesi dalla data di acquisto

Il prodotto è stato progettato e realizzato per il modello e l'uso specifico indicato nel catalogo BRAKING disponibile sul sito BRAKING (www.bracing.com).

Il prodotto dovrà essere utilizzato secondo le normative in vigore negli stati e/o nei paesi in cui viene utilizzato il veicolo su cui è installato il Prodotto, comprese ma senza limitarsi all'osservanza delle norme del Codice della Strada e previo ottenimento di qualsiasi autorizzazione/omologazione, permesso o patente richiesta dallo stato e/o dal paese.

In particolare, per la normativa vigente in Italia (decreto 147 del 5 agosto 2010), l'utente che installa un componente qualsiasi dell'impianto frenate diverso dall'originale, è tenuto a recarsi presso gli uffici della Motorizzazione Civile per ottenere l'aggiornamento della carta di circolazione.

Il produttore è sollevato da qualsiasi responsabilità in caso di danni e reclami qualora l'utilizzo del Prodotto non rispetti le normative e le leggi vigenti.

Queste Limitazioni di Garanzia devono essere regolate, ed interpretate ed hanno validità in base alla legge italiana.
