

COMPANY PROFILE

THE MARKET LEADING SUPPLIER OF
SPECIALISED POWER DISTRIBUTION UNITS

DESIGNED AND
MANUFACTURED
IN THE UK

MARKET LEADING SUPPLIER OF SPECIALISED POWER DISTRIBUTION UNITS

WHO WE ARE

We are a UK based manufacturer with nearly 60 years experience. Our staff offer a unique blend of expertise as designers, manufacturers and consultants.

We believe this unique blend, our hands on experience and our knowledge of manufacturing Power Distribution Units (PDU) are the foundation for the specialised services we offer.

From inception, Olson have been innovators within the industry and now continuing to do so. We are constantly developing our offering in-line with the latest regulation changes and our ranges to enhance the customer experience.

WHAT WE DO

Olson are the market leading supplier of specialised power distribution units. As well as over 1,800 standard products we have the design and manufacturing capabilities to produce custom solutions for your individual requirements.

All our products are hand produced at our dedicated head office and manufacturing facility in Stanmore, London.

AUDIO VISUAL

ESTABLISHED SINCE 1961 IN THE UK

Originally producing components for radios, we quickly moved towards manufacturing instrument cases for the communications industry

1961

The communications industry was evolving and the 19" rack range for data cabinets was developed

1986

Opening of our head office in Stanmore, London

1998

1971

The first PDU was designed for our own use at an exhibition. This innovation received orders due to its high build quality and saw the launch of standard UK 13 A power distribution units

1990

We launched an international range to meet demand outside the UK

2001

The launch of our data centre range, incorporating cable management to 19" rack mount

We achieved TUV product approval for US exports

Enhancements to our suspended unit range saw the launch of the retractor system

2011

2018

2006

2017

2019

A range of sequential start PDUs to reduce inrush current

Investment in a state of the art automated press brake to enhance in-house capabilities

Further in-house innovation led to an updated remote monitoring PDU range incorporating remote switching and a PDU mounted display and keypad

**OVER
1,800
STANDARD
PRODUCTS**

STANDARD RANGES

Here at Olson we have a comprehensive range of power distribution units, from 19" rack mount to Sound Fantastic, hospital grade to bench units. All of our products are robustly made and reliable for any application.

If this wasn't enough, we continue to innovate our products for example enhancing our suspended units to incorporate the popular retractor system. Enabling the unit to be lowered to the required working height and not just a set height.

CUSTOM PRODUCTS

Olson are industry experts in PDU design manufacture and are happy to utilise these skills to assist customers with unique power distribution requirements for a custom one-off product or full production runs.

SITE VISIT

A meeting to discuss your power distribution needs if required

DESIGN PROPOSAL

We can tailor your needs into a custom solution

CONSULTATION

Expert advice and knowledge from nearly 60 years experience

UK MANUFACTURE

All products will be manufactured in the UK and customers are welcome to visit the factory

STOCK HOLDING

Warehouse stock to reduce manufacturing lead times

TECHNICAL SUPPORT

You are dealing direct with the manufacturer every step of the way
