

INDUSTRIAL WASHING MACHINES

Cabinet type weigh pan washer

The most popular models in our weigh pan washer range are the CW13 EX and the PW56. Both have been specially designed for the food industry where the highest standards of cleanliness are essential.

The CW 13 EX is a compact unit ideal for mounting in restricted mezzanine areas and operates with a double tier design and easy load trolley system.

The PW56 is a versatile, batch type weigh head pan washer. The PW56 will accommodate one wash trolley up to 800mm wide x 1800mm high x 800mm long that houses up to 56 weigh pan heads per cycle. One wash cycle is typically 10-30 minutes, depending on the level of soiling.

Benefits:

- > Hygienic design complies with all UK and EU standards, and all are CE assessed and certified
- > Cost efficient, dependable and effective washing capabilities, an effective tool in allergen control and cross contamination
- > Compact footprint where space is at a premium, even on mezzanine floors
- > Robust, streamline design with excellent access to all areas for ease of maintenance and cleaning
- > Can also be utilised for change parts
