Vol 1

Issued: 2007-04-17

Revised:

SURVEILLANCE DOCUMENT  
(TYPE L)

RESTRICTED SUBSTANCES - PRODUCT CERTIFICATION  
(AARS)

Manufacturer: JUMBO WIRE & CABLE CO LTD  
(100102-883) 29/5 MOO 1  
PRARAM (RAMA) 2 RD  
BANGNUMJERD  
AMPHUR MUANG  
SAMUTSAKORN 74000 THAILAND

Applicant: SAME AS MANUFACTURER  
(100102-883)

Participant: SAME AS MANUFACTURER  
(100102-883)

This Surveillance Document authorizes the above Manufacturer to use the UL RoHS Product Mark specified by Underwriters Laboratories Inc. (UL), or any authorized licensee of UL, only on products covered by this Surveillance Document as identified in the individual Section(s) under Product Covered as being "eligible to bear the UL RoHS Product Mark", and included in the Restricted Substances Compliance Solutions database (iQ for Restricted Substances). Both products that are "eligible to bear the UL RoHS Product Mark" and products that are "not eligible to bear the UL RoHS Product Mark" are subject to the applicable RSCS Surveillance program.

This Surveillance Document describes the surveillance requirements for the above named Manufacturer participating in Underwriters Laboratories Inc.'s Restricted Substances Compliance Solution (RSCS) Program only for the product manufactured at the above manufacturing locations and covered by this Surveillance Document in accordance with the terms of the Restricted Substances Compliance Solutions Services Agreement.

The Surveillance Document contains information for the use of the above named Manufacturer and representatives of Underwriters Laboratories Inc. and is not to be used for any other purpose. It is lent to the Manufacturer with the understanding that it is not to be copied, either wholly or in part, and that it will be returned to Underwriters Laboratories Inc. (UL), or any authorized licensee of UL, upon request.

This SURVEILLANCE DOCUMENT, and any subsequent revisions, is the property of Underwriters Laboratories Inc. (UL) and the authorized licensee of UL and is not transferable.

## CERTIFICATION MARK

The use of UL's RoHS Product Mark is restricted for use only on materials/components/products that have been identified in the individual Sections of this surveillance document as eligible to bear the Mark and also appear on [ul.com/rscs](http://ul.com/rscs).

The Mark consists of the symbol below along with the word "Product", the reference "[ul.com/rscs](http://ul.com/rscs)", and the UL file No. of the Client. The Mark may appear on the product, smallest unit packaging, advertising, or literature accompanying the product. The Mark, when eligible and when used, must appear in close proximity to the model or catalog designation of the material/component/product that has been authorized in this document.

RSxxxx - Client's UL file No., the letters "RS" followed by four to six digits.

If color is used in the manufacture of separable labels or nameplates then the color of the checkmark must be PMS Green (PMS361). The other colors are PMS Black. Marks that are cast, stamped or molded will assume the color of the material to which the Mark is being applied. Minimum size of the overall Mark is not specified, as long as the Mark is legible. The minimum height of the trademark reference, "TM", shall be 3/64 of an inch when the overall Mark is less than 3/8 of an inch in any direction.

The manufacturer may reproduce the Mark or obtain it from a UL authorized supplier. The list of UL authorized label suppliers can be found on UL's online directory at <http://www.ul.com/clients/label/>. A downloadable UL RoHS symbol can be found on UL's Web site at <http://www.ul.com/mark/art.htm>.
