

Curtain Walling, Screens & Windows

The industry's best at a competitive price

The Connect a.d. range of Curtain Walling, Screens & Windows is ideal for shopfronts and commercial entrance such as retail outlets, shopping centres, offices, hospitals, hotels and residential buildings.

Our range of Curtain Walling, Screens & Windows has been designed and manufactured in-house for over 30 years to the latest best practise and fabrication techniques, using the industry's best components at a competitive price.

Better design and better made

Our traditional framed Screen comprises a non-thermally broken aluminium frame with glazing.

Where high performance energy saving efficiency is required or where sizes are greater than the limits of the non-thermally broken range, thermally broken aluminium Curtain Walling with double glazing are fitted.

Our frameless Screen option maximises the appearance of glass and comprises a perimeter aluminium frame or channel with glass-to-glass mullion joints and supporting fins (where required).

Hugh range of options

Casement Windows comprise a thermally broken aluminium frame and casement in a top, bottom or side hung or tilt-and-turn configuration. They can be fitted as a stand-alone window or into a screen or curtain walling.

Colour options include satin anodised aluminium, polyester powder coating and stainless steel.

Numerous options for single & double glazing, solid infills, louvres, ATMs, manifestation, vinyl and sandblasted graphics increase aesthetics and provide customisation.

Our Fire Rated Screen option is designed and manufactured by leading trade suppliers and is ideal for fire protection and to provide containment.

Our Screens can be combined with the [D110 Security Roller Shutter](#) from our sister company Mechdoors, also designed and built in-house.

Technical Sales & Support

Every enquiry is handled by our dedicated technical sales team who are focussed on providing the best and most cost effective solutions quickly and efficiently.

For every order we appoint a job manager who arranges all material, engineer and Health & Safety resources and scheduling required to carry out the work on time and on budget. Our in house team handle all calls and emails to ensure the smooth running of every job from first contact to completion.

A site meeting with the appointed job manager is held to review the work, confirm site details, to determine site restrictions and hazards, and plan dates for the work.

Our family of long serving and motivated site engineers provide a reliable service delivery of confidence and attention to detail.

Our in-house fabrication facility is also capable of handling all Commercial Entrance Doorset & Shopfront repairs and upgrades from any manufacturer.

Building access made easy with nationwide installation, maintenance and repair of **Commercial Entrance Doors & Shopfronts**
