

3. Environmental Scope and Policy Statement

JRD Rubber Mouldings specialise in the manufacture of precision rubber and rubber to metal mouldings.

The company readily acknowledges that it has both a moral and a legal responsibility to minimise its impact on the environment. In order to meet this responsibility the company is committed to operating and continually improving a business management system that meets the requirements of ISO 14001:2015. This system is designed to meet the requirements of all customers and any other current applicable legislation.

In order to meet its responsibilities the Company is committed to:

- Consider risks and seek opportunities to continually improve the operation of its Environmental Management System
- To continue to identify and use materials and or processes that will overall reduce and prevent the risk of pollution and **protect the environment**.
- To minimise waste from all aspects of our business.
- To encourage, where possible, maximum use of recycling facilities.
- To promote natural resource conservation via efficient use of energy and minimisation of raw material usage.
- To purchase, where possible, environmentally friendly materials and or services.
- To be fully compliant and satisfy all Environmental laws and legislation and other requirements to which the organisation subscribes.
- To document all procedures. Review and audit these procedures and in general monitor potential environmental impact.
- To encourage our suppliers and sub-contractors to adopt an environmental management System.
- To encourage all employees to play a full part in the implementation of our environmental policy. This, together with appropriate training (where applicable), will enable them to do so.
- To provide information to customers and other interested parties about our environmental policy.

Relevant objectives for the Environmental Management System are set to enable the effectiveness of the system to be measured. These objectives are established as part of the management review process and are reviewed monthly during the Management Meeting.

This policy statement is reviewed for suitability with the on-going operations of the company on an annual basis as part of the management review process.
