Pet Therapy and Goodbye to Harvey

Every month Pet Pals visit Ashridge and bring along different types of animals for residents to see and handle.

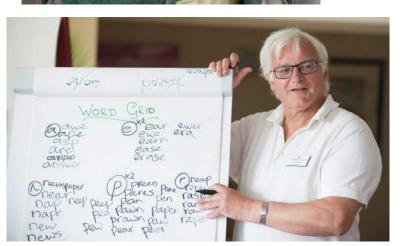

On one of their recent visits they brought some adorable kittens, which are probably one of the most popular animals to visit the home. There were four kittens, two ginger, one black and one tabby and they proved to be a great success as they made the residents laugh with their mischievous antics. They were also quite happy to be handled by the residents which was lovely to see.

The very popular Pet Therapy Dog Beau and his owner Christine Maundrell visited the home. Beau spent time with the residents in the lounge and afterwards went to see some of the residents who are confined to their rooms, which they really enjoyed.

Over the past six years the PAT (Pets As Therapy) dog Harvey and his owner Simon Lawrence have been coming to Ashridge. Sadly, this will probably be the last visit from Harvey as Simon is moving to the Yorkshire Dales at the end of the year. They will be greatly missed and we wish them all the best for their new life in North Yorkshire.

Some adorable kittens proved to be a great success with the residents

Stuart really gets the residents thinking

Word Games

Residents always enjoy the word game activities with Stuart the Activities Organiser.

There is plenty of variation and Robert really gets the residents thinking and they come up withsome great answers. The different games include: Themed Words where residents have to find as many words, of three or more letters, as they can from a grid of letters given to them. There was also an A-Z listing game where residents work through the alphabet. For each letter residents had to think of items connected to our theme of the week, in this case 'space'. These were then called out by the residents and listed on the flipchart.

Fitness with YMCA

The Eastbourne YMCA provide a fitness scheme for older people.

Residents really benefit from this exercise

It consists of a selection of gentle exercises suitable for being carried out from a seated position, which makes this form of activity accessible for as many residents as possible. The YMCA provide all the equipment and a trained instructor to lead the session. Our residents enjoy themselves and they all really benefit from this exercise, which improves both their flexibility and stamina.

Music for Health

Keeping active is very important to our residents' health and wellbeing.

We organise regular visits from Music for Health, a music therapy activity session led by Keith Osborne. Residents join in an enjoyable selection of activities including singing, keeping rhythm using percussion instruments, listening to music and they even took part in a music-based guiz.

Residents enjoy keeping time using percussion instruments

Hoopla Fun

Residents enjoyed playing the hoopla game.

Residents threw inflatable hoops over inflatable spikes on the floor to score points.

This game may look very easy, but it requires good hand-to-eye coordination. Residents had great fun playing this and there was lots of giggles and laughter, even though it was quite competitive at times.

Halloween Celebrations

There was plenty going on at Ashridge to celebrate this years' Halloween.

Residents made pumpkin and ghost decorations, which were used to decorate the lounge and dining room. They also took part in a special version of our quoits throwing game where the targets were ghosts. Later, we read ghost stories and listened to an account of the infamous Marie Celeste - one of the most famous maritime mysteries of all time. Activities Coordinator Lizzie carved real pumpkin lanterns, which were added to the seasonal decorations. A fantastically ghostly time was had by all!

Residents enjoy getting creative during the arts & crafts session

Arts and Crafts

The regular arts and crafts sessions at Ashridge are a serious (but fun) business.

Staff and residents are rightly proud of the standard of work they produce. Conventional drawing and painting is complemented by more

adventurous activities like collages, montages and sculptures and all this wonderful artwork can be found displayed all around the home.

Sing Along Time

Residents took part in a rousing sing along session.

It consisted of a wide selection of popular songs led by Dee Rivers, who accompanied them on the keyboard. The home also played host to 'Recollections', a show from Ashford-based singer Scott Jenner. His informal style and great rapport with the residents always proves very popular.

We were also visited by singer Carol George, who always delivers a popular selection of songs from a wide range of eras and genres. This provided plenty of opportunity for our residents to sing along and join in with the fun.

Union Jacks fly at Bexhill-on-Sea

Out and About

Residents always enjoy regular trips out and about in the home's minibus to enjoy the local scenery and to catch up on some shopping.

We recently enjoyed a lovely day out with a minibus trip along the coast from Pevensey to Bexhill-on-Sea. The sun was shining, the weather was glorious and it gave the residents a chance to enjoy the trees in all their beautiful autumnal colours.
