## DESCRIPTION

**Dampening additive for sheet-fed offset presses.**

**104 NEW** is an additive of the new generation for high speed presses.

**104 NEW** thanks to the dynamic surfactants in the formulation, allows to obtain an excellent print quality.

**104 NEW** behaves optimally even in UV printing.

## PRINCIPLE CHARACTERISTICS

**104 NEW** gives to the dampening solution high stability of pH and conductivity values, maintaining its efficiency in time.

**104 NEW** contains innovative raw materials that do not permit the oxide deposit on the rollers, improving the spreading of the water film on the plate.

**104 NEW** improves the ink setting increasing the safety in high pile even on elevated speeds.

**104 NEW** is formulated in a way to result with a low environmental impact, thanks to its vegetable origin components.

**104 NEW is recommended for medium waters.**

## ADVANTAGES/BENEFITS

1. Dampening solution efficient and stable in time, with consequent reduction of regeneration costs
2. Drastic reduction of start-up times
3. Sharp and brilliant printing
4. Elimination of build ups on blankets and on dampening rollers
5. Total elimination of oxide from rollers and blankets
6. **minor environmental impact**

## INSTRUCTIONS FOR USE:

Dilute **104 NEW** in percentage of 2-3% depending on original water quality, adding a percentage of 5-7% of IPA 2010.

# Fount Solution 104 new

## CHEMICAL-PHYSICAL CHARACTERISTICS

Appearance	Light green liquid
Odor	Mild characteristic
pH (as it is)	4,5 - 4,7
Boiling temperature	> 100°C
Density	1,040 -1,060 g/cm3
Water soluble	Complete
Solvent soluble	Not soluble

**Indicated data are characteristic and typical of the product and do not constitute specifics.**

## PRECAUTIONS FOR USE AND STOCKING

**Chemical product, for industrial use only, particularly irritant to eyes.**

**It is recommended to use the personal protective equipment indicated in the MSDS, while manipulating the product, especially protective glasses and gloves as well as adequate clothing.**

**In case of contact with eyes,, wash immediately with plenty of water and consult a doctor.**
