

# MEWP TRAINING COURSE - MOBILE ELEVATING WORK PLATFORM

Luft Training Services are an Independent forklift truck training centre. We train operators on, Counterbalance, Reach, Bendi, Side Loaders, rough terrain telescopic, electric and manual pallet truck plus many more.

**Mewp or Mobile Elevating Work Platform** is not in any way an option for companies operating Mewps on its property. Regulations require all employers to take reasonable steps to ensure the safety among their employees, but courts are always going assign liability to managers and companies who fail to ensure their workers have been correctly trained and hold the appropriate certification.

**Mewps ( Mobile Elevating Work Platforms )** courses are available to businesses and individuals across West Sussex and East Sussex to include Chichester, Bognor Regis, Littlehampton, Worthing, Lancing, Hove, Brighton and all surrounding areas. If you are not sure if we cover your area please call us or use our contact form page as member of the team are always happy to assist you.

## **MEWP TRAINING WORTHING Equipment Information**

**MEWP training** courses teach proper operation of **mobile elevating work platforms**. Successful candidates qualify to operate the platform for temporary work access to areas, normally at height, learning basic equipment mechanics, stability principles and advanced maneuvering.

**Mobile elevating work platforms** can provide features to the workman such as power supply for tools; any specific requirements can be factored into MEWP courses. Guidance to candidates on specialist personal protective equipment (PPE) such as fall arrest harnesses, instruction on the use of remote controls in case of emergency and general protocol for passengers' and operators to ensure safety to all employees. MEWPs can present a high risk of destabilising if operated incorrectly, a risk dramatically reduced by **professional training** in the use of MEWPs aka **aerial work platforms (AWP)**.

**MEWP courses** can be delivered on the majority mobile elevating work platforms. MEWP types such as the **Scissor Lift or Cherry Picker** get their name from the appearance or style of mechanism that elevates the work platform. Our work-based training programme tailors MEWP training to your equipment requirements to guarantee quality and relevance of training to your company.

Successful candidates receive a **MEWP operator licence** in the form of an *operator certificate* and *photo ID card*.
