Your visions created by us.

With your ideas and our products, we at Hertford Shelving can turn your visions into reality. With the use of our extensive range of equipment and bespoke displays our experienced fitting crew can really make it work.

Make your ideas come to life.

Counters and Joinery products

All our counters are manufactured in a modern state of the art work shop by time served joiners. They are formed from 18mm board with high impact pvc sealed edges complete with a 25mm work top. You can choose from our standard range or we can quote for bespoke units for larger counters and kiosks or just to fit those awkward spaces.

For the full range visit www.hertfordshelving.co.uk

With so many types of display equipment available today all types of products can be clearly displayed. If it is not available we can make it using our network of metal and acrylic fabricators.

Accessories

We stock a whole range of accessories including hooks for peg and slatted panels, risers and dividers and wire baskets. We can price from drawings, E'mailed or sent by post or we are more than willing to visit your premises to plan and discuss your requirements. This service is free of charge and could be a benefit to your company.
