# 01. How to install theme FIFTH

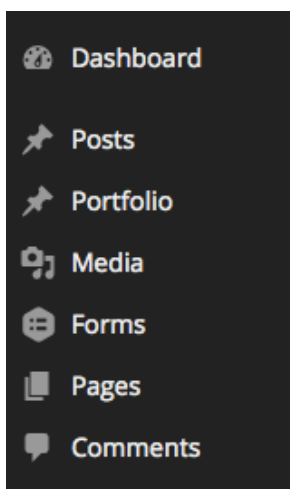

After purchasing theme FIFTH, your download contains a zip-file with the file name "Fifth – unzip me please".

## Installing theme FIFTH.

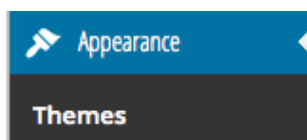

You can install FIFTH using several methods. We use the easiest and fastest approach via your Wordpress dashboard.

1. Access your Wordpress account, and login.

Once you've logged in, you'll be directed to the dashboard.

2. Go to **Appearance** and click **Themes**.

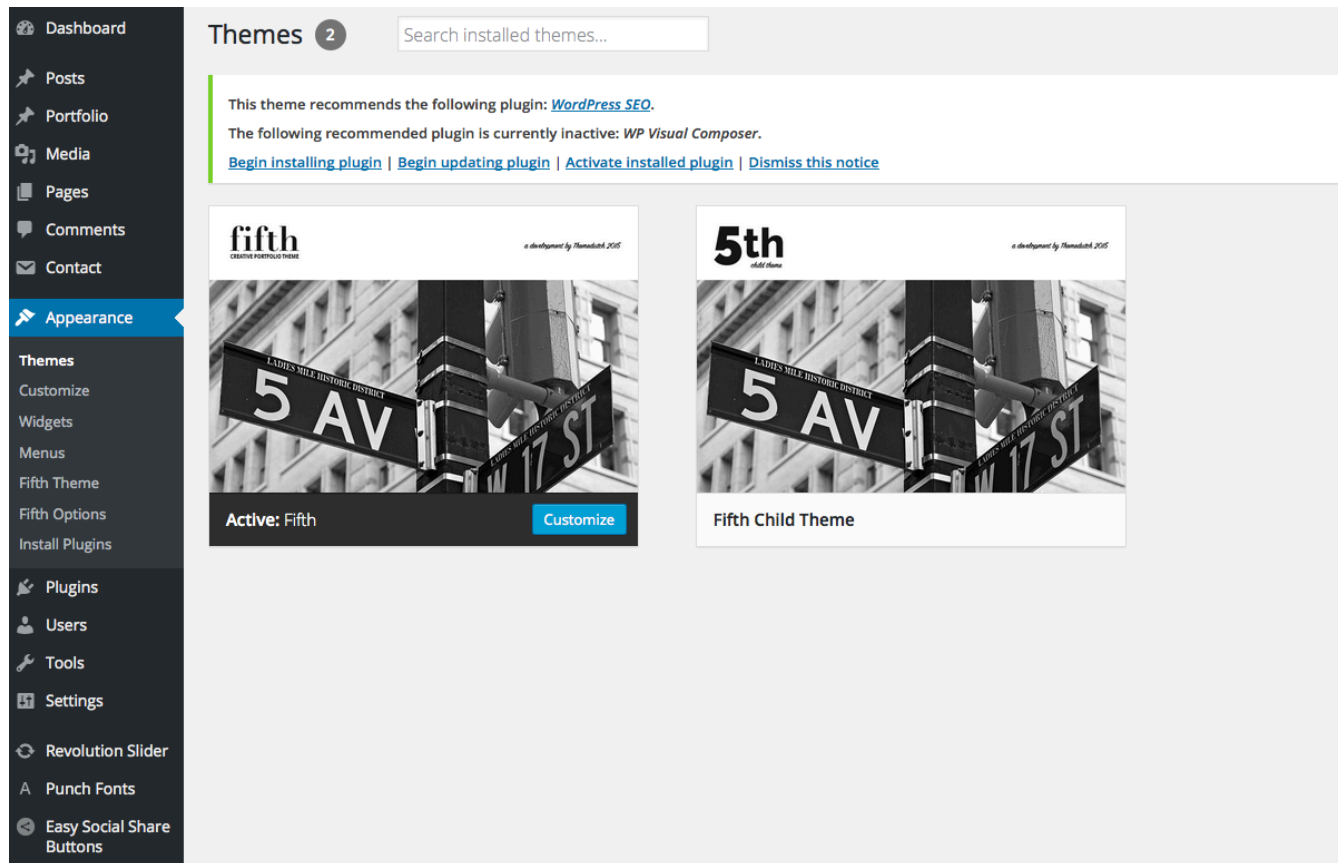

3. Click the **Add New** tab.
4. Next, hit **Upload**.
5. Still remember the FIFTH folder you unzipped earlier? **Click the Browse button, locate the said Fifth unzipped folder and then select it.**
6. Click **Install Now**.
7. Wait for the installation to finish and then hit **Activate** link. Then you'll see this screen.

## NOTE:

## Theme FIFTH is now activated.

Read messages, which appear on your dashboard carefully, because they provide important info about “required and recommended plugins” for theme FIFTH.

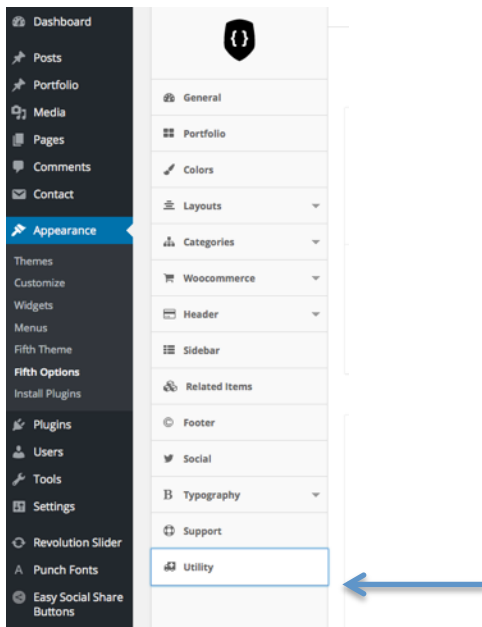

The Revolution Slider WP plugin is built-in, and only needs to be activated.

The screenshot shows the WordPress dashboard's 'Themes' section. On the left is a dark sidebar menu with options: Dashboard, Posts, Portfolio, Media, Pages, Comments, Contact, Appearance (highlighted), Themes, Customize, Widgets, Menus, Fifth Theme, Fifth Options, Install Plugins, Plugins, Users, Tools, Settings, Revolution Slider, Punch Fonts, and Easy Social Share Buttons. The main content area is titled 'Themes 2' and has a search bar for installed themes. A notification banner at the top states: 'This theme recommends the following plugin: [WordPress SEO](#). The following recommended plugin is currently inactive: [WP Visual Composer](#). [Begin installing plugin](#) | [Begin updating plugin](#) | [Activate installed plugin](#) | [Dismiss this notice](#)'. Below this, two theme cards are displayed. The first card, 'fifth CREATIVE PORTFOLIO THEME', is marked as 'Active: Fifth' and has a 'Customize' button. The second card, '5th Child Theme', is inactive. Both cards feature a background image of street signs for '5 AV' and '17 ST' in the 'LADIES MILE HISTORIC DISTRICT'.

## 02. How to in stall dummy content.

The tab “**Utility**” within **Fifth Options** is created for importing Dummy Content, and/or export your FIFTH theme options from file, text or URL.

Import Dummy content.

Hit the button ‘Install Dummy Content’ if you would like to install the official FIFTH preview website’s content.

### NOTE:

**Importing dummy content ‘may take a few minutes’.**

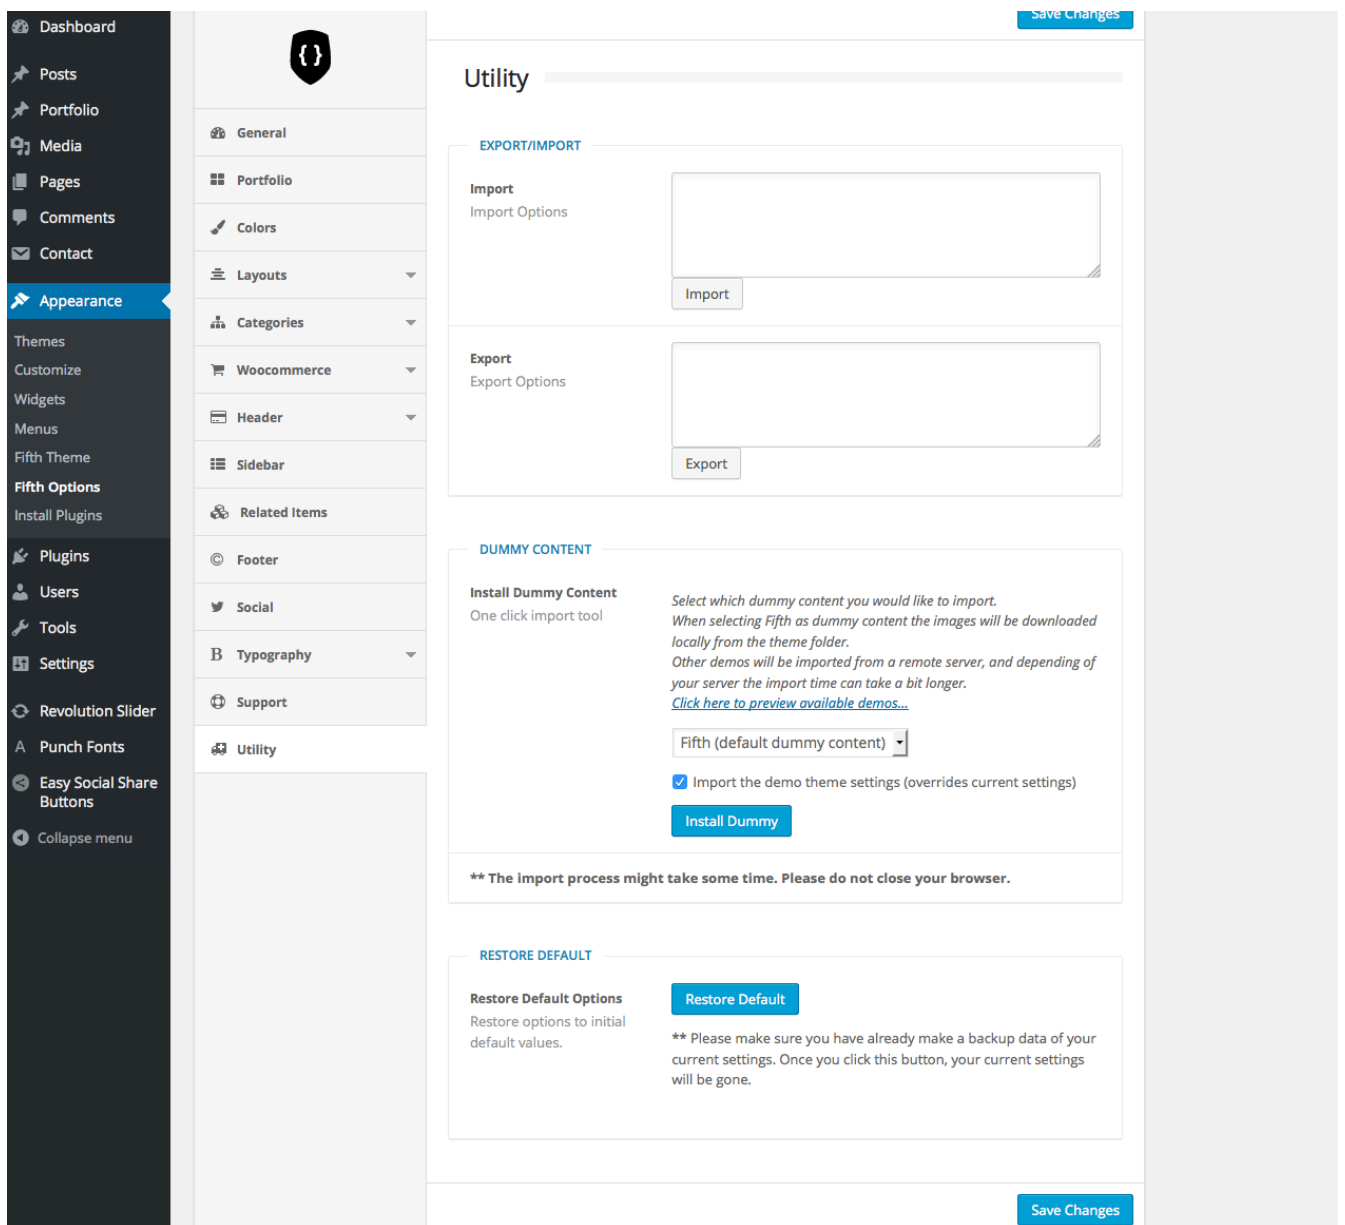

You’re **not** able to install dummy content twice. If you want to install dummy content again, you’ll have to reset this section first.

Installing dummy content will not cause problems:

- If you have “good quality hosting”. In some cases the dummy content will not work, for example If you really have bad hosting.
- Another reason can be that you need to increase MaxRequestLen value to import dummy content.

If installing dummy content worked ok, the button changes into “green” and says: dummy content already imported.

(See: screenshot below)

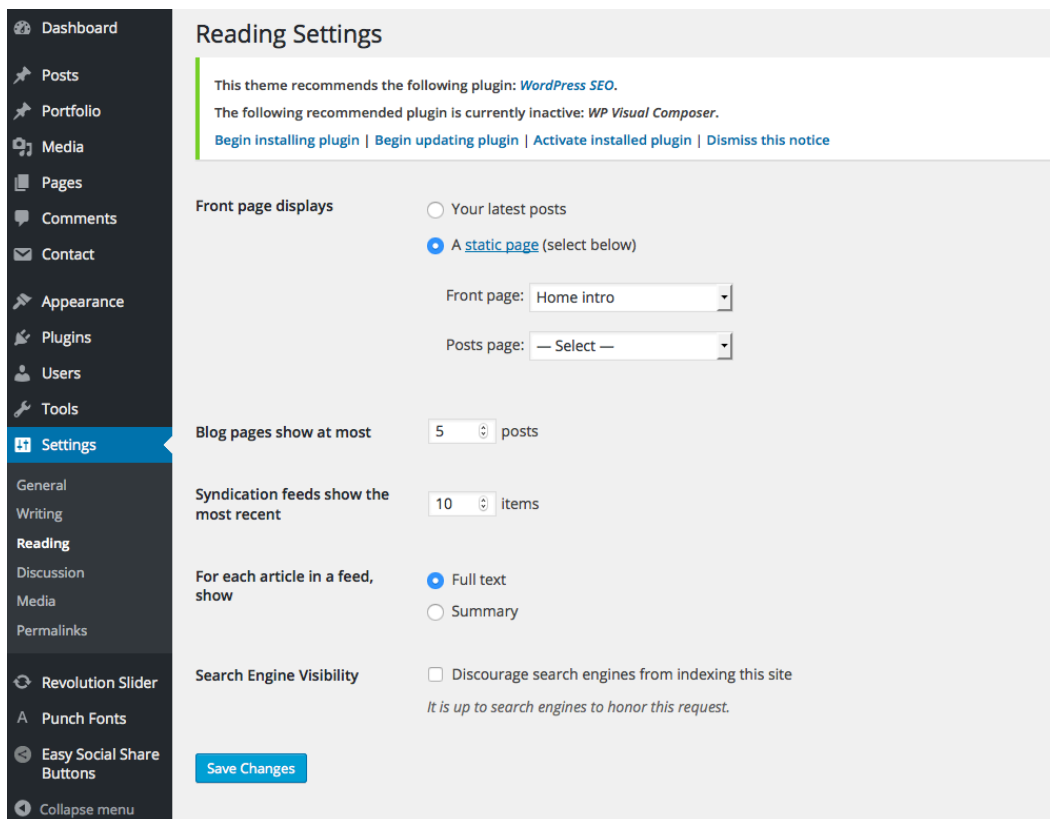

## NOTE:

### What you need to do yourself: after installing dummy content

1. You still need to set your home page: via Admin / Settings / Reading

(see screenshot below)

2. Sidebars and Widgets are not included in the dummy content. These you'll have to assign/create yourself. You can read in the manual how to create Sidebars and Widgets.

## NOTE:

For those who really don't feel comfortable with databases, we offer **Installation Packages** via our website. [www.theme-dutch.com](http://www.theme-dutch.com).

**Important! All used photo material is copyright protected.**

The images used in our preview website are intended for example purposes only. As they're copyright protected, you need to remove them from your media section, before your website goes 'live'. We thank you for your understanding.

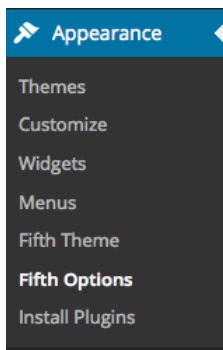

### 03. FIFTH Options – Theme Info

The Fifth Options panel is one of FIFTH’s most useful and powerful tools. Besides regular WP features, it contains almost all theme’s controls, settings, options and functionalities.

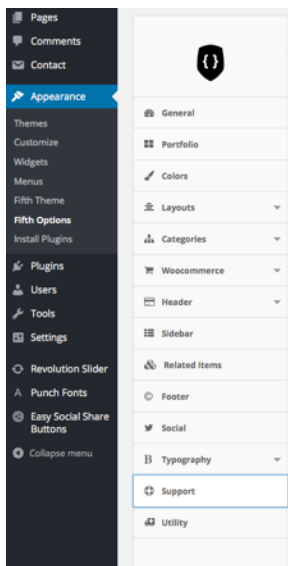

**TIP:**

if you’re using theme FIFTH for the first time, we strongly advice to focus on the Fifth Options Panel first. Open all tabs and learn all about its options and features.

To access FIFTH’s Option Panel, select **Appearance** menu and then select **Fifth Options**

FIFTH Option Panel contains ‘settings for most theme features’. In here, you can change/set FIFTH Options: General, Portfolio, Colors, Layouts, Categories, Woocommerce, Header, Sidebar, Related Items, Footer, Social, Typography, Support and Utility.

**NOTE:**

Fifth Options tool ‘Utility’ can be used for installing dummy content, importing and/or exporting your FIFTH Options from file, text or URL.

## 04. Fifth Options – General

Let's start with the **General** theme options tab. In here you can upload your Favicon and Login Logo. Via Media Settings you're able to set the height of featured boxes for portfolio and blog, and the height of your featured images that will be displayed on portfolio pages and blog.

Here you'll find options for your Media Overlay, Breadcrumbs, Page Loader, Custom CSS Code, Tracking Code, and custom JS Code.

All settings are self-explanatory.

### **NOTE:**

\*Media Overlay. This option allows you to create a "dotted overlay" on top of your images in order to **speed up the loading time of your site**. You're even able to choose a specific color for background overlay.

**However, choosing this option prevents using the "swipe-effect" on mobile and tablets.**

Don't forget to read/follow the additional suggestions and info, and hit the button '**Save changes**' when you're ready.

**Just look at the screenshot on the next page.**

## General

**Favicon**  
This image is displayed in the browser window's title and in browser favourites.

 [Choose File](#) [x](#)

**Login logo**  
The logo displayed in the the user login page.

 [Choose File](#) [x](#)

**MEDIA SETTINGS**

**Disable Right Click on the Images**

**Featured Boxes (Portfolio and Blog)**  328  
Here you can set the height of the Boxes that will be displayed on Portfolio and blog pages.

**Featured Image (Header Images)**  647  
Here you can set the height of the Featured images that will be displayed on portfolio, pages and post.

⚠ After you changed the width and the height of the featured media, Please save the settings and DO regenerate the thumbnails.

**MEDIA OVERLAY**

**Background Overlay**

**Dotted Overlay Size**  [x](#)

**BREADCRUMBS** ?

**Display breadcrumbs**

**Show on frontpage?**   
Toggles the display of the breadcrumb on the home/frontpage.

**PAGE LOADER** ?

**Page Loader**

**CSS Code**  
Place your custom css styles here. If the CSS code is invalid, other CSS styles will not work as expected.

```
.your-class{
  margin: 0 auto;
}.drop-shadow {
  box-shadow: 0 0 1.5625rem -0.3125rem rgba(0, 0, 0, 0.0);
  transition: all 200ms ease 0s;
}
```

**Tracking Code**  
Place your Google Analytics code snippet here and it will be included in every page.

**JS Code**  
Place your custom javascripts here. If the JS code is invalid, other javascript libraries will not work as expected.

```
jQuery(document).ready(function(){
});
```

## 05. Fifth Options – Portfolio

Via the tab Portfolio you can create settings for your portfolio pages. All settings are self-explanatory, and here we also show a few examples how it looks at the front-end of Fifth.

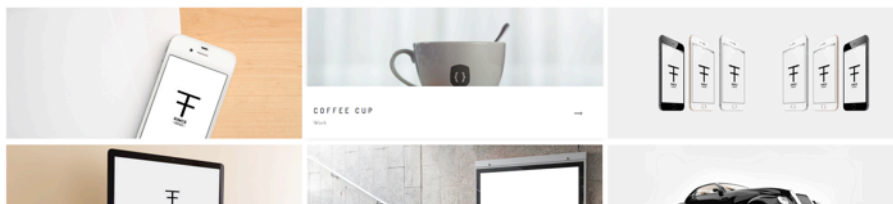

The screenshot displays the WordPress admin interface for the 'Portfolio' settings. The left sidebar shows the 'Appearance' menu expanded, with 'Fifth Options' selected. The main content area is titled 'Portfolio' and features a 'Save Changes' button in the top right corner. The settings are organized into several sections:

- SIDEBAR**: Includes a 'Default Sidebar' dropdown menu.
- CUSTOM CONTENT**: Contains a text area for custom content and a description: 'This section will appear just below the featured image on the single portfolio page.'
- LIGHTBOX SETTINGS**: Features a slider for 'Content Lines' (set to 6) and a description: 'Maximum number of text lines to display on the lightbox page.' A blue arrow points to the 'Content Lines' input field.
- LIGHTBOX COLORS**: Includes color pickers for 'Background Color' (rgba(255,255,255,1)), 'Text Color' (#2e3138), 'Button Text Color' (ffffff), 'Button Text Hover' (ffffff), 'Button Background Color' (#2e3138), and 'Button Background Hover' (#2e3138).

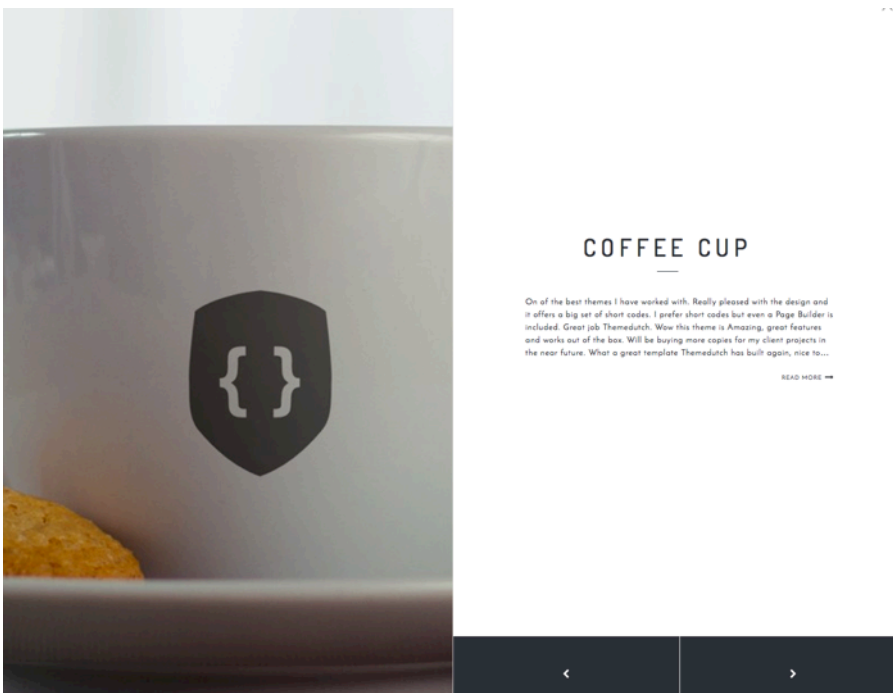

A 'Save Changes' button is located at the bottom right of the settings area.

### Example Lightbox settings at Front-end.

This image shows where you can hit to open the Light Box by clicking the arrow.

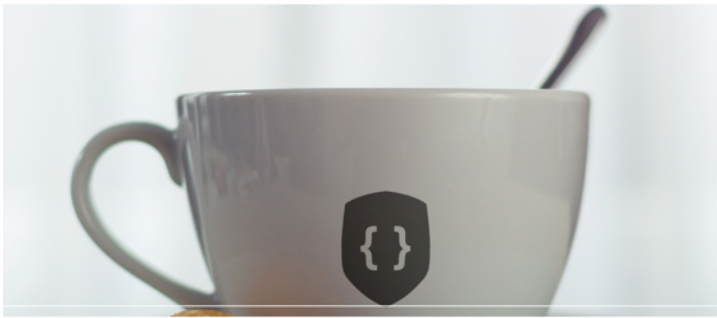

This image shows the Light Box including the 6 lines of content that we selected at the LIGHTBOX SETTINGS. Content lines set to 6.

## NOTE:

**You can add custom text here (an Exerpt) via an option on your actual portfolio pages (beneath: Portfolio Post Settings and Easy Share Buttons Advanced)  
This (EXERPT) text can be different from the 'main' content block on the actual page.**

**PROJECT**

The one likely to focus on the text, disregarding the layout and its elements.

1. CONCEPT

2. DESIGN

3. DEVELOPMENT

**DETAILS**

Client: Fifth  
Date: July 1, 2015  
Product: App design

1. In a professional context it often happens that private or corporate clients order a publication to be made and presented.
2. The one likely to focus on the text, disregarding the layout and its elements. Besides, random text risks to be unacceptably humorous or offensive, an unacceptable risk in corporate environments.
3. Lorem ipsum and its many variants have been employed since the early 1960s, and quite likely since the sixteenth century. The one likely to focus on the text, the layout and its elements. Besides, random text risks to be unacceptably humorous or offensive, an unacceptable risk in corporate environments.

## PORTFOLIO PAGE

### 1. Easy Social Share buttons

This is an example of Easy Social share buttons on a portfolio page.

Cum sociis natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus. Donec quam felis, ultricies nec, pellentesque euismod. Donec eu nibh interdum lacinia molestie dui. Praesent rutrum aliquet turpis, hendrerit lacinia diam. Donec sit amet nunc. Donec eu nibh interdum lacinia molestie dui. Praesent rutrum aliquet turpis, hendrerit lacinia diam.

by Mike

This author has yet to write their bio. Meanwhile lets just say that we are proud Mike contributed in whopping 30 entries.

## NOTE: Easy Social Share buttons are generated via Easy Social Share Buttons for WordPress.

This is how it looks at the back-end of actual portfolio pages. You have an option to turn off these buttons on and off on every portfolio page you want.

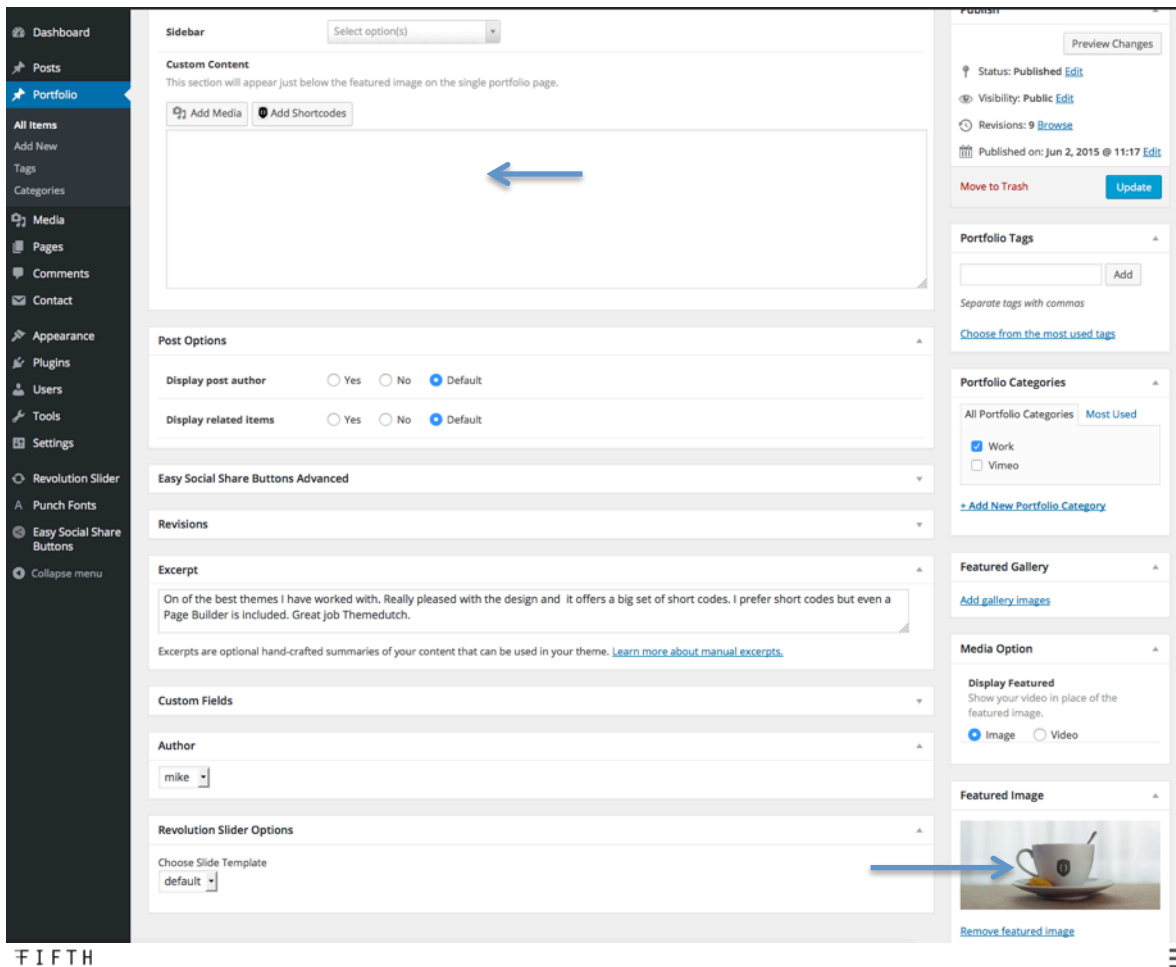

The screenshot shows the WordPress admin interface for editing a portfolio page titled "COFFEE CUP". The main content area displays HTML code for the page. On the right sidebar, the "Easy Social Share Buttons" widget is active. A blue arrow points to the "Turn off for current post:" dropdown menu, which is currently set to "No". Other options in the sidebar include "Advanced Options", "Publish", "Portfolio Tags", "Portfolio Categories", and "Featured Gallery".

The screenshot shows the "Easy Social Share Buttons for WordPress" settings page. The "Main Settings" tab is selected, showing various configuration options. A blue arrow points to the "Need help?" link in the top right corner of the settings area. The page includes sections for "Get Started", "More Actions", "Support", and "Main Settings".

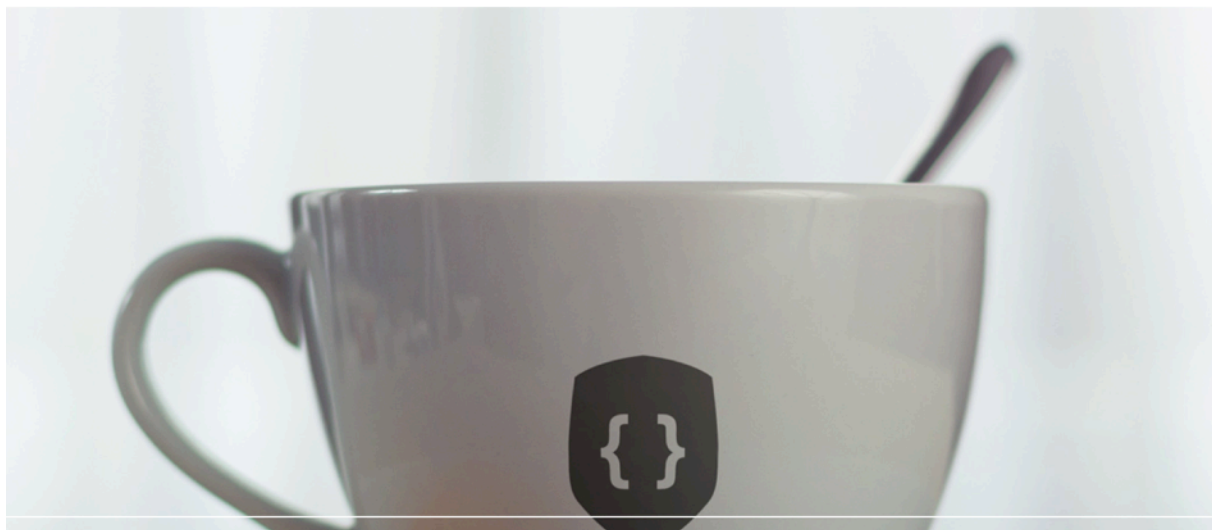

## NOTE:

For support and info about Easy Social Share buttons please visit:  
[http://support.creoworx.com/knowledgebase/4376/?utm\\_source=essb\\_settings&utm\\_medium=needhelp&utm\\_campaign=button](http://support.creoworx.com/knowledgebase/4376/?utm_source=essb_settings&utm_medium=needhelp&utm_campaign=button)

Beneath the tab Social Share Buttons you have an option to add custom content. Your content will appear on your featured image/gallery when a featured image/gallery is set

FIFTH

featured image without custom content.

## 06. Fifth Options – Colors

In this Module, you can change / set the theme's colors. (general, main content, sidebar, buttons, and heading titles. All settings are self-explanatory.

Don't forget to hit: save changes once you're done

The screenshot displays the 'Colors' settings page in a WordPress admin dashboard. The left sidebar is dark with white text, listing various site management options. The main content area is light gray and titled 'Colors'. It is organized into four distinct sections, each with a blue header:

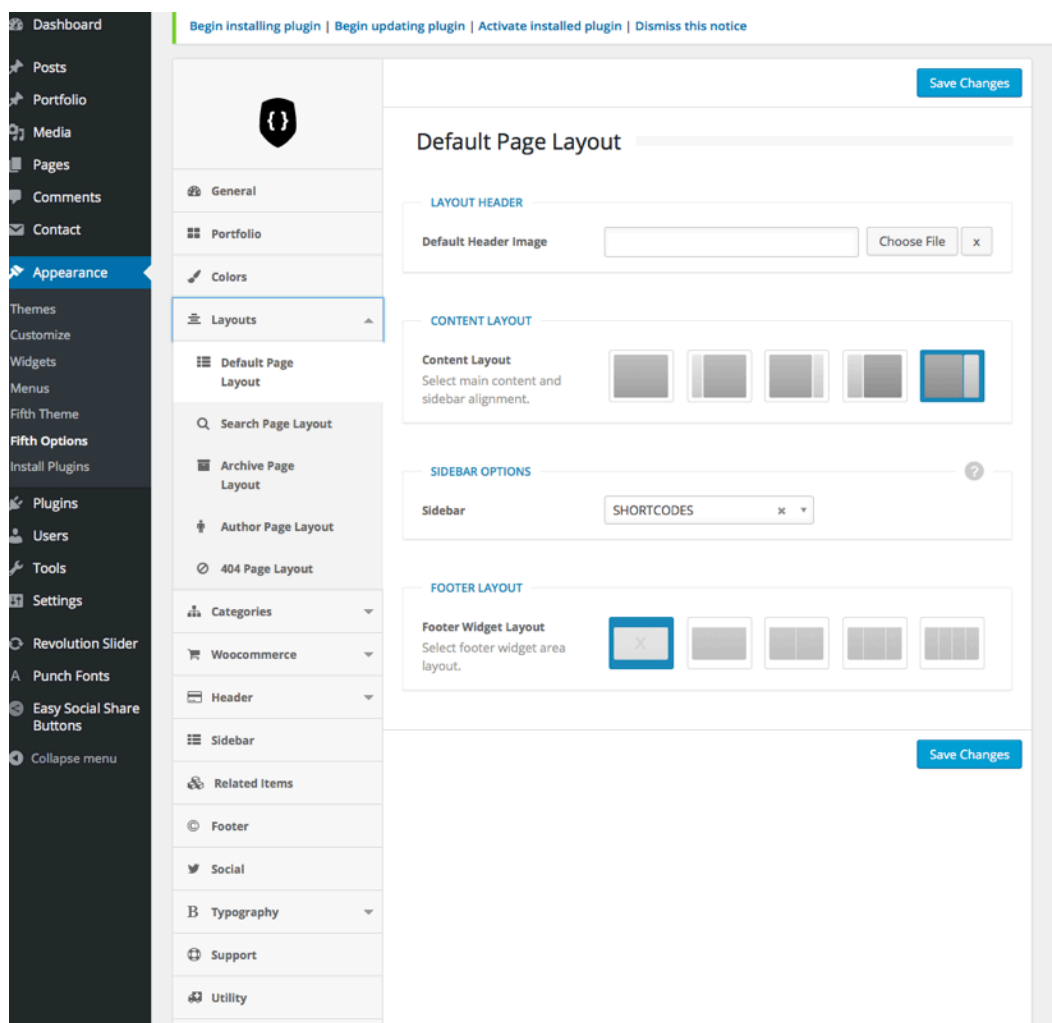

- GENERAL**:
  - Background Color: #ffffff
  - Text Color: #7a7a7a
- BREADCRUMBS**:
  - Text Color: #2e3138
  - Link Color: #2e3138
  - Link Hover: #333333
- MAIN CONTENT**:
  - Background Color: #ffffff
  - Text Color: #8a8a8a
  - Link Color: #2e3138
  - Link Hover: #ccc500
- SIDEBAR**:
  - Background Color: #fafafa
  - Text Color: #d1d1d1
  - Link Color: #7a7a7a
  - Link Hover: #ccc500

## 7. Fifth Options – Layouts pages

All settings are self-explanatory.

Fifth Options tool 'Layouts' provides ultimate freedom in designing your page layouts.

Here you're able to set a "default Header Image" and a default page layout including layouts for other pages, like: Search Page Layout, Archive Page Layout, Author Page Layout and 404 Page Layout. All settings are self-explanatory. Additional info is provided within the boxes.

## ABOUT FIFTH

She packed her seven versalia, put her initial into the belt and made herself on the way. When she reached the first hills of the Italic Mountains, she had a last view back on the skyline of her hometown Bookmarksgrove, the headline of Alphabet Village and the subline of her own road, the Line Lane. Pityful a rethoric question ran over her cheek.

### WHY FIFTH YOU SAY?

Curebitur eu adipiscing lacus, a iaculis diam. Nullam placerat blandit auctor. Nulla accumsan ipsum et nibh rhoncus, eget tempus sapien ultricies. Donec mollis lorem vehicula.

#### WE'RE EXPERIENCED

The new common language will be simple and regular than the existing European languages. It will be as simple as Occidental in fact.

#### WE LOVE COFFEE

To achieve this, it would be necessary to have uniform grammar, pronunciation and more common words than ever before. Come and in.

#### WE'RE CREATIVE

Far far away, behind the word mountains, far from the countries Vokalia and Consonantia, there is a company Themedutch.

## HI AKO IKALIMA

Fifth is a Responsive Google friendly premium wordpress theme and made for newbies and pro's. Give Fifth a try you will love the simplicity of this Beautiful theme creation.

#### EASILY CUSTOMIZABLE

The Big Osmox advised her not to do so, because there were thousands of bad Cammas, wild Question Marks and devious Semikoli, but the Little Blind Text didn't listen.

#### MOBILE FRIENDLY

The Big Osmox advised her not to do so, because there were thousands of bad Cammas, wild Question Marks and devious Semikoli, but the Little Blind Text didn't listen.

#### USEFUL SHORTCODES

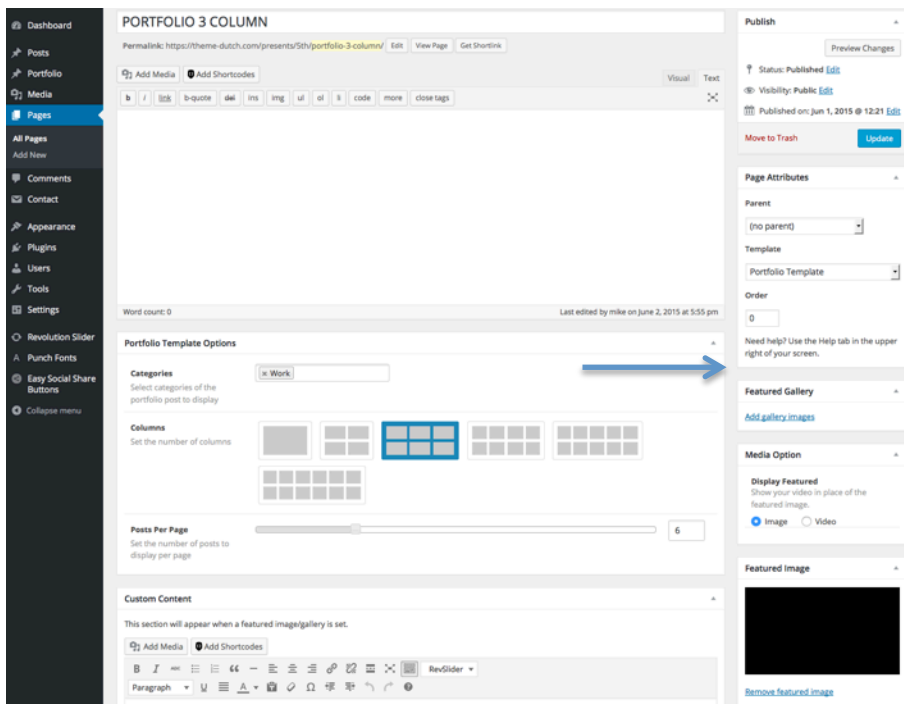

The Big Osmox advised her not to do so, because there were thousands of bad Cammas, wild Question Marks and devious Semikoli, but the Little Blind Text didn't listen.

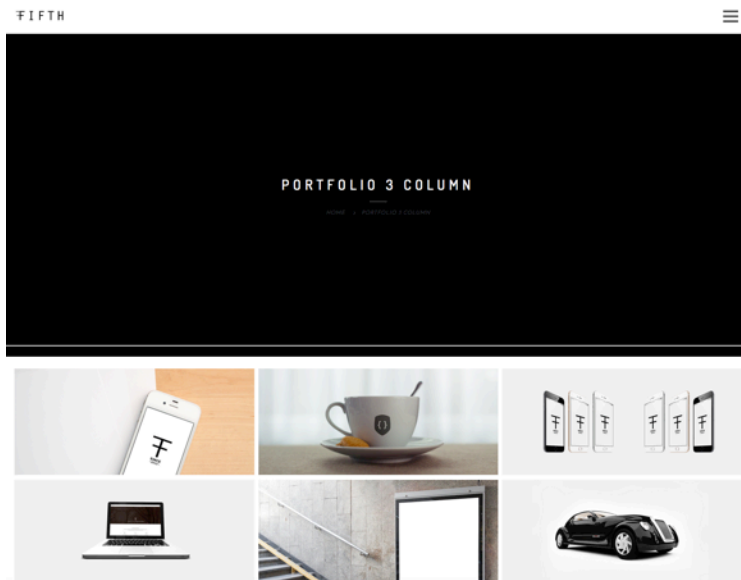

## FEATURES PAGES: PORTFOLIO TEMPLATE OPTIONS

If you select a Portfolio Template for your page via Page Attributes your portfolio

template will appear. This is how it looks at the back-end.

For this portfolio overview page, we choose a 3 column layout. We set the maximum to 6 portfolio items. This is how it looks like at the front-end of your site. Of course you can add featured images or sliders if you want.

On the Welcome page we selected no featured image/gallery. Here we added the Revolution Slider which we created, and added the shortcode on top of the page's content.

## 08. Fifth Options – Category Layout

This section allows you to create a special category layout. You're able to set a category header image, and select the layout for your content and footer (widget area). Set the custom category layout to ON, and select your specific category.

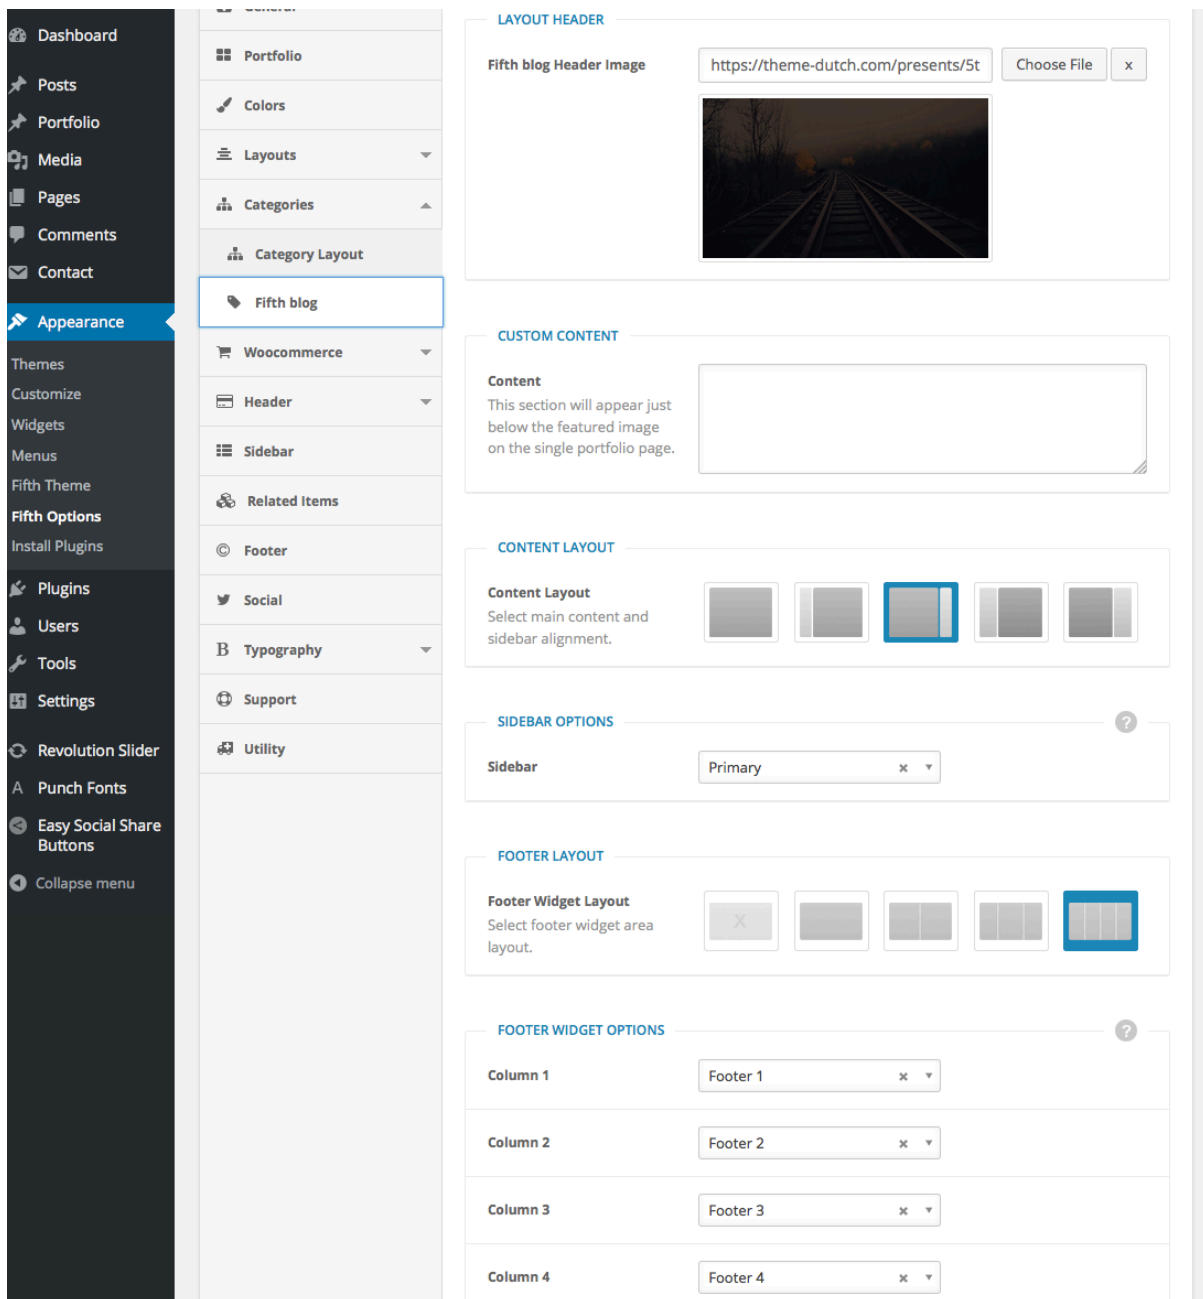

The screenshot shows the 'Category Layout' settings page. The left sidebar contains navigation options like Dashboard, Posts, Portfolio, Media, Pages, Comments, Contact, Appearance, Themes, Customize, Widgets, Menus, Fifth Theme, Fifth Options, Install Plugins, Plugins, Users, Tools, Settings, Revolution Slider, Punch Fonts, Easy Social Share Buttons, and Collapse menu. The main content area is titled 'Category Layout' and includes a 'Save Changes' button at the top right. The settings are organized into sections: 'LAYOUT HEADER' with a 'Category Header Image' field containing the URL 'https://theme-dutch.com/presents/5t' and a 'Choose File' button; 'CONTENT LAYOUT' with a 'Content Layout' section showing five grid icons, the third of which is selected; 'SIDEBAR OPTIONS' with a 'Sidebar' dropdown set to 'Primary'; 'FOOTER LAYOUT' with a 'Footer Widget Layout' section showing five grid icons, the first of which is selected; and 'CUSTOM LAYOUT' with an 'Add custom category layout' toggle set to 'ON' and a 'Select Categories' dropdown set to 'FIFTH BLOG'. A blue arrow points to the 'ON' toggle. A yellow warning box at the bottom states: 'Save the settings first and "Refresh" the page before the special category layout section will appear.' The 'Save Changes' button is also at the bottom right.

We choose a custom category layout for FIFTH's BLOG. All settings are self-explanatory.

The next image shows an example how the custom category layout for the Fifth Blog is made.

### CUSTOM CATEGORY BLOG

**NOTE:**

**Sidebars (example sidebar: blog) can be created via Fifth Hill Options - Sidebars.**

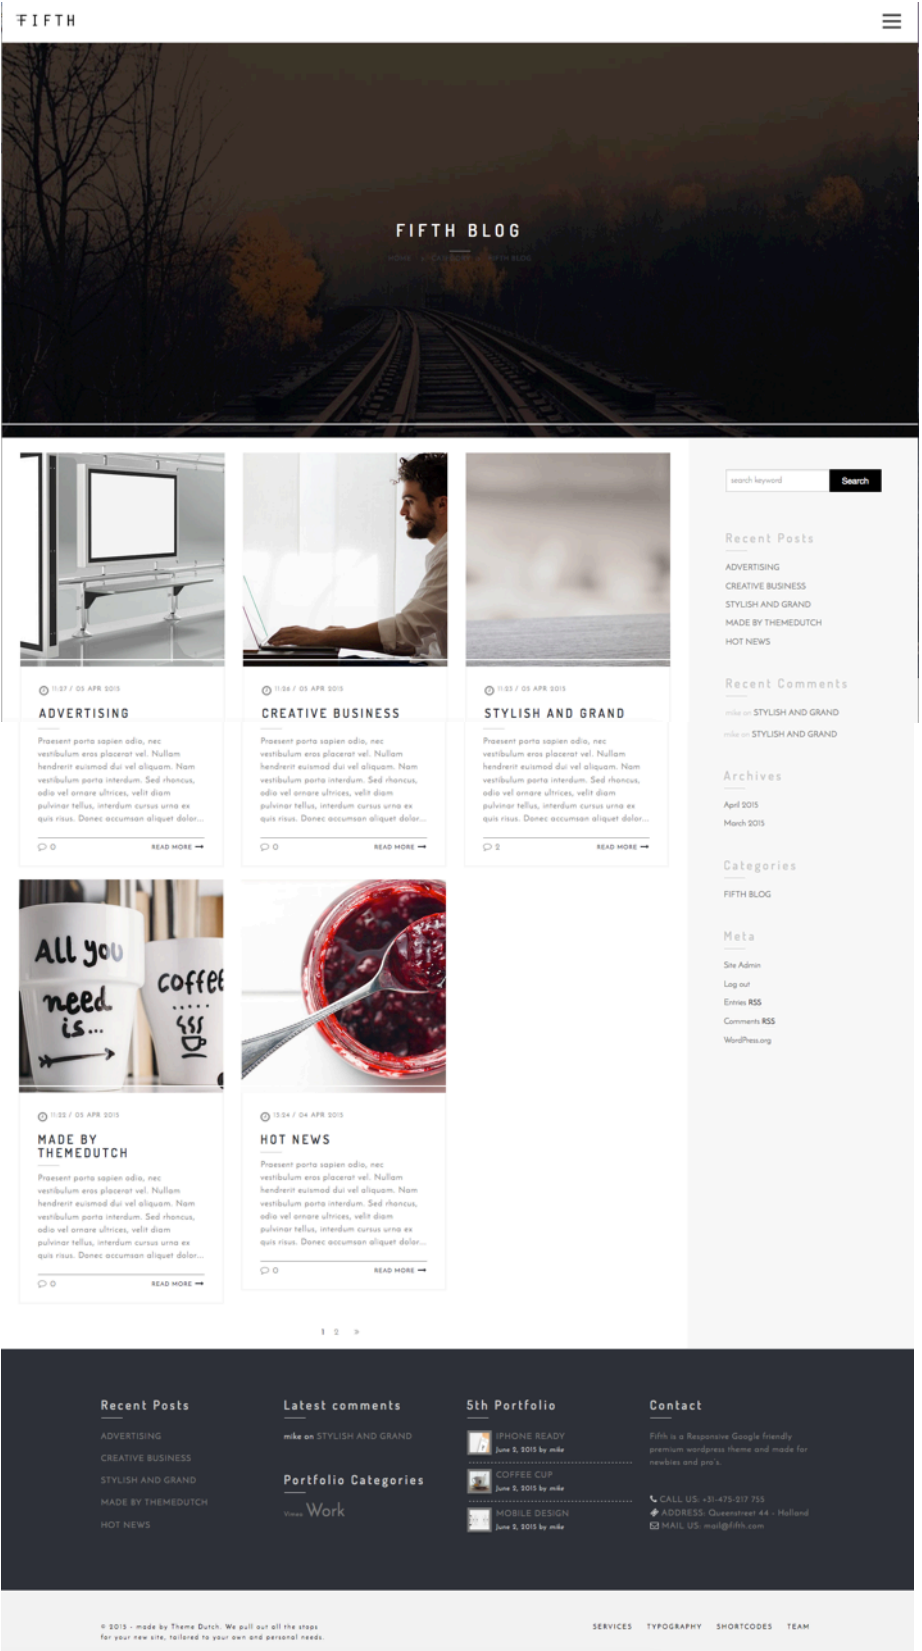

**Widgets (for sidebars en footers) can be created created via Appearance / Widgets.**

How to create sidebars and footers you can read in the Fifth manual.

This is how the Fifth BLOG CATEGORY page looks at the front-end of theme FIFTH.

## NOTE:

**Easy Social Share buttons are generated via Easy Social Share Buttons for WordPress, and we'll discuss them later on.**

This is how it looks at the back-end of actual post pages. You have an option to turn off these buttons on and off on every post you want.

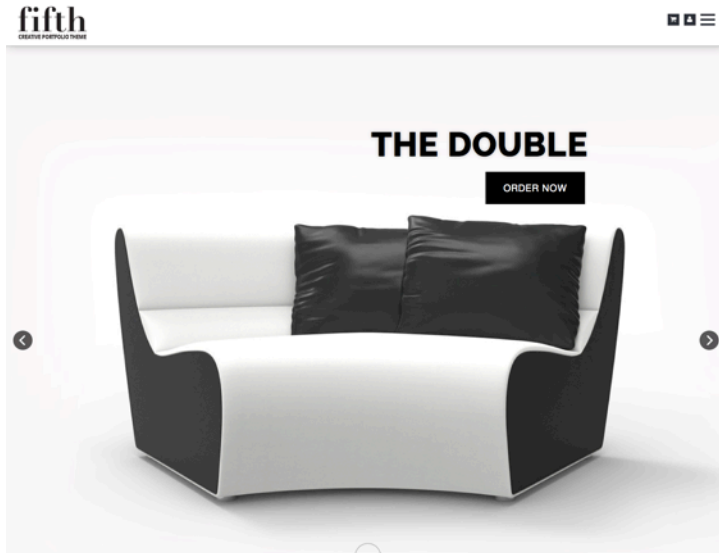

The screenshot shows the WordPress admin interface for a post titled "ADVERTISING". The left sidebar contains navigation menus for Dashboard, Posts, All Posts, Add New, Categories, Tags, Portfolio, Media, Pages, Comments, Contact, Appearance, Plugins, Users, Tools, and Settings. The main content area shows the post editor with a title "ADVERTISING" and a permalink "https://theme-dutch.com/presents/5th/blog/advertising/". The right sidebar contains several panels: "Easy Social Share Buttons" with a dropdown menu set to "No" and a blue arrow pointing to it; "Publish" with status "Published" and "Update" button; "Format" with "Standard" selected; "Categories" with "FIFTH BLOG" selected; and "Tags". The "Easy Social Share Buttons Advanced" panel is expanded, showing "Social Share Optimization" with a blue arrow pointing to it. Below this, there are sections for "OPEN GRAPH META TAGS" and "Social Share Analytics".

Beneath the tab Social Share Buttons you have an option to add custom content. Your content will appear on your featured image/gallery when a featured image/gallery is set.

The image shows the WordPress admin interface for the 'Easy Social Share Buttons Advanced' plugin. On the left is a dark sidebar with navigation options: Pages, Comments, Contact, Appearance, Plugins, Users, Tools, Settings, Revolution Slider, Punch Fonts, Easy Social Share Buttons, and Collapse menu. The main content area is divided into sections: 'Easy Social Share Buttons Advanced', 'Custom Content', and 'Revolution Slider Options'. The 'Custom Content' section contains a text editor with a toolbar and a text area. A blue arrow points to the text area. The 'Revolution Slider Options' section has a 'Choose Slide Template' dropdown set to 'default'. The right sidebar contains several settings: 'FIFTH BLOG' (checked), 'Uncategorized' (unchecked), '+ Add New Category', 'Tags' (with an 'Add' button), 'Separate tags with commas', 'Choose from the most used tags', 'Featured Gallery' (with '+ Add gallery images'), 'Media Option' (with 'Image' selected and 'Video' unselected), and 'Featured Image' (with a featured image and a 'Remove featured image' link). A blue arrow points to the bottom right of the sidebar area.

## 09. Fifth Options – Woocommerce

Fifth is Woocommerce ready. Via Appearance, Fifth Options you can set the layouts for your Woocommerce Shop and Product Layout.

A screenshot of the WordPress dashboard's 'Appearance' > 'Fifth Options' settings page. The 'Woocommerce' section is expanded to show 'Shop Layout' settings. The settings are organized into three main sections: 'CONTENT LAYOUT', 'SIDEBAR OPTIONS', and 'FOOTER LAYOUT'.

- CONTENT LAYOUT:** A row of five icons representing different content and sidebar alignments. The fourth icon, showing a 2:3 grid, is selected with a blue border.
- SIDEBAR OPTIONS:** A dropdown menu for 'Sidebar' is set to 'STORE SIDEBAR'.
- FOOTER LAYOUT:** A row of five icons representing different footer widget area layouts. The fourth icon, showing a 2:3 grid, is selected with a blue border.
- FOOTER WIDGET OPTIONS:** Three dropdown menus for 'Column 1', 'Column 2', and 'Column 3' are set to 'FOOTER1', 'FOOTER2', and 'FOOTER3' respectively.

Buttons for 'Save Changes' are located at the top right and bottom right of the settings panel.

## 10. Fifth Options – Header

Styles: In here you can set your header logo for light or dark backgrounds. All settings are self-explanatory.

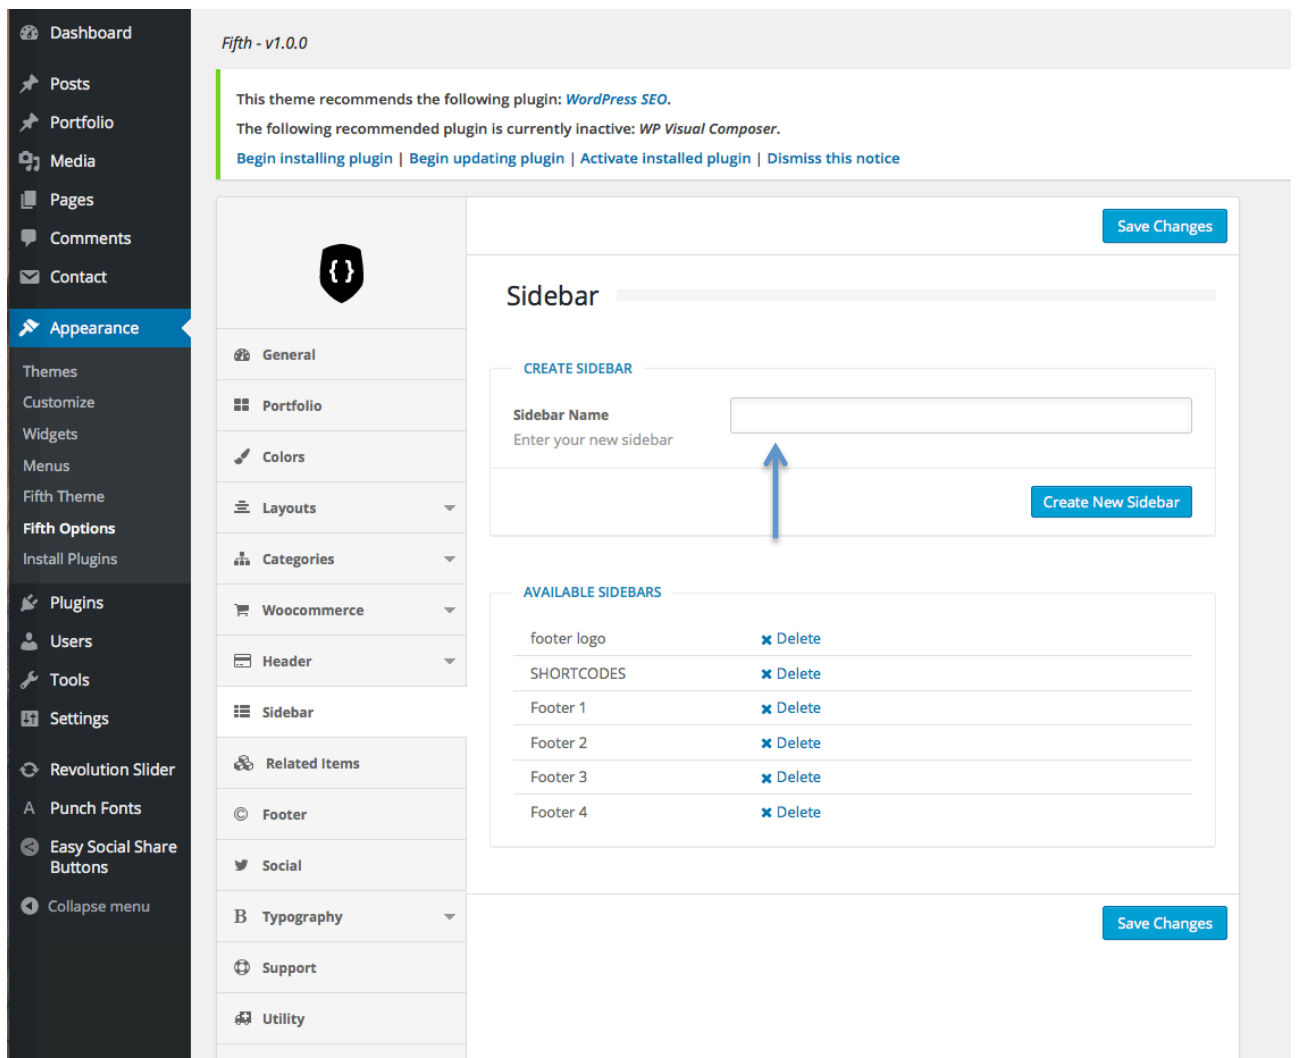

Navigation: Here you're able to set the colors of your hamburger, main menus and sub menus.

# 11. Fifth Options – Sidebar

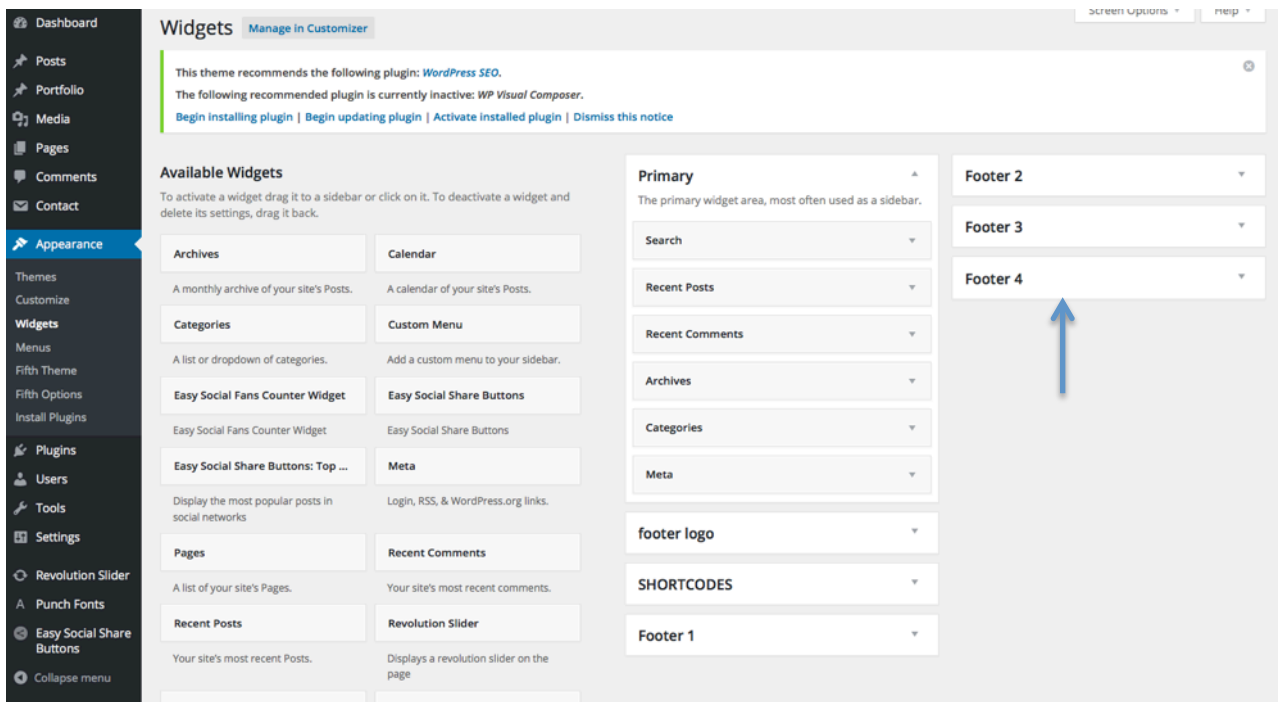

Here you're able to create your sidebar **“names”** (for usage on specific pages or sections). You can fill your sidebars with Widgets later on via Appearance / Widgets. Don't forget to hit changes once you're done.

## NOTE:

Prevent using punctuation marks when creating a sidebar's title. Don't use characters like: “, : \_ and so on in your sidebars titles. Using these characters in titles can cause issues, that are not caused by the theme, but can be caused by conflicts with MsqL and other used programs.

Assign Widgets: via Appearance.

Drag and drop the necessary widgets to your 'assigned' sidebars at the right and fill them with text or any other html content (text, images, video's).

### NOTE:

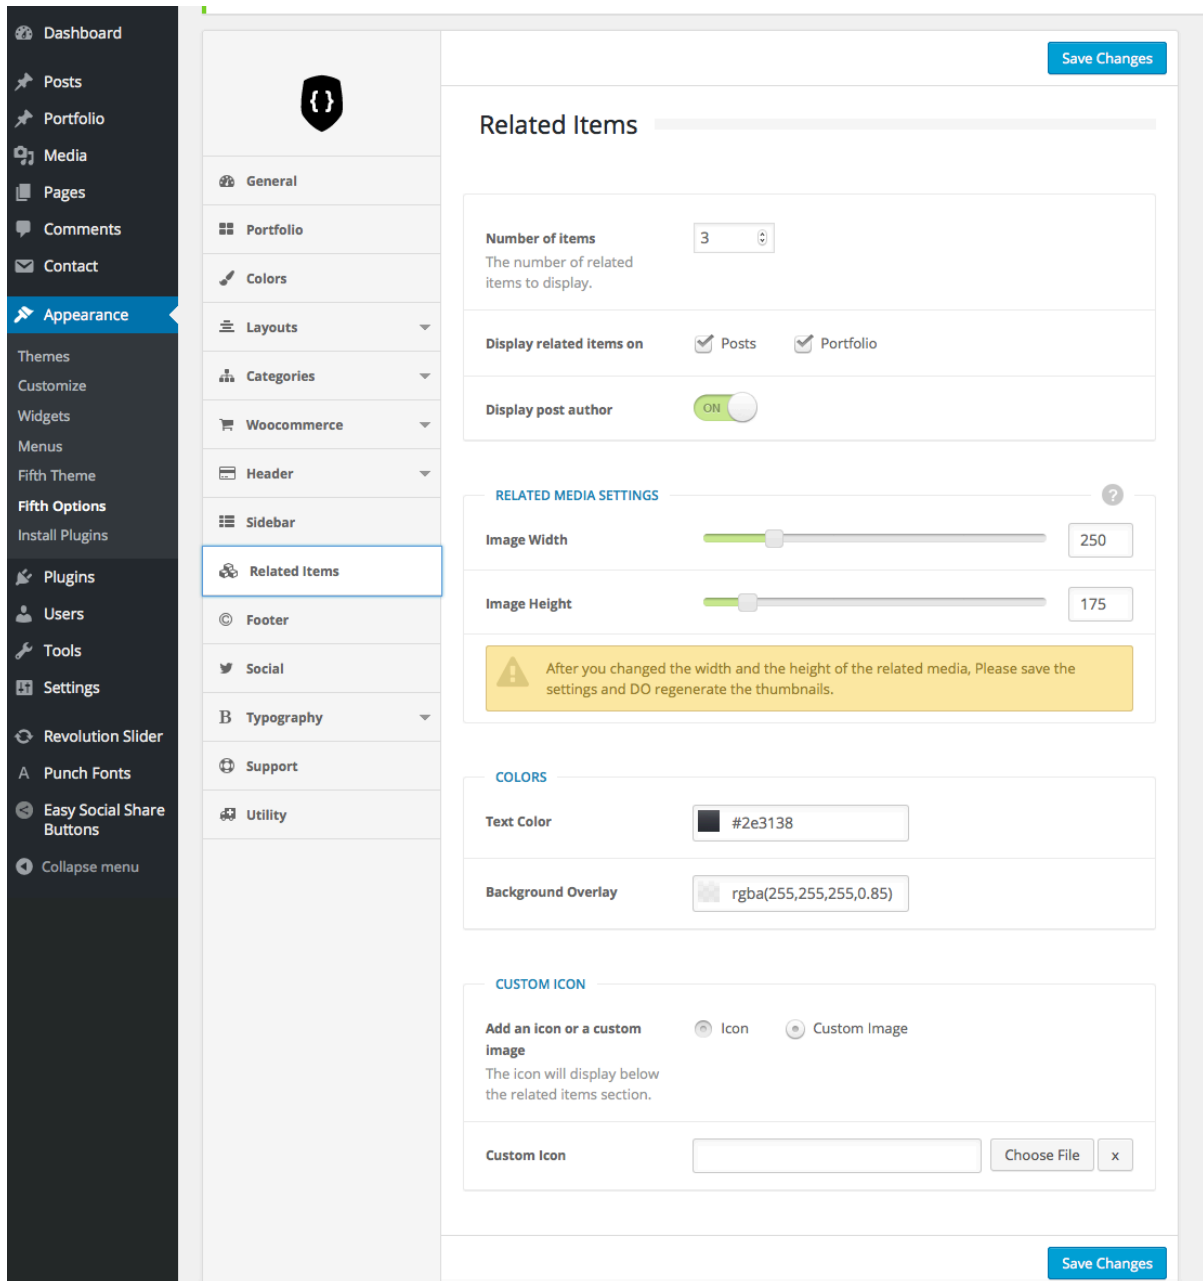

To know more about Wordpress Widgets (how to add and activate widgets, and learn about its use etc.) please read these tutorial pages:

[https://codex.wordpress.org/WordPress\\_Widgets](https://codex.wordpress.org/WordPress_Widgets)

<http://en.support.wordpress.com/widgets>

## 12. Fifth Options – Related Items

This section allows you to set related items on Posts and Portfolios. All settings are self-explanatory.

The screenshot shows the 'Fifth Options' settings page for 'Related Items'. The left sidebar contains a navigation menu with 'Appearance' selected. The main content area is titled 'Related Items' and includes a 'Save Changes' button in the top right corner. The settings are organized into several sections:

- General:** 'Number of items' is set to 3. 'Display related items on' is checked for both 'Posts' and 'Portfolio'. 'Display post author' is turned ON.
- RELATED MEDIA SETTINGS:** 'Image Width' is set to 250 and 'Image Height' is set to 175. A yellow warning box states: 'After you changed the width and the height of the related media, Please save the settings and DO regenerate the thumbnails.'
- COLORS:** 'Text Color' is set to #2e3138. 'Background Overlay' is set to rgba(255,255,255,0.85).
- CUSTOM ICON:** 'Add an icon or a custom image' has radio buttons for 'Icon' and 'Custom Image'. Below, there is a 'Custom Icon' input field, a 'Choose File' button, and a close button 'x'.

A second 'Save Changes' button is located at the bottom right of the settings area.

This is an example of how it can look on a blog page.

## 13. Fifth Options – Footer

Use this tab to define all your footer settings. All settings are self-explanatory.

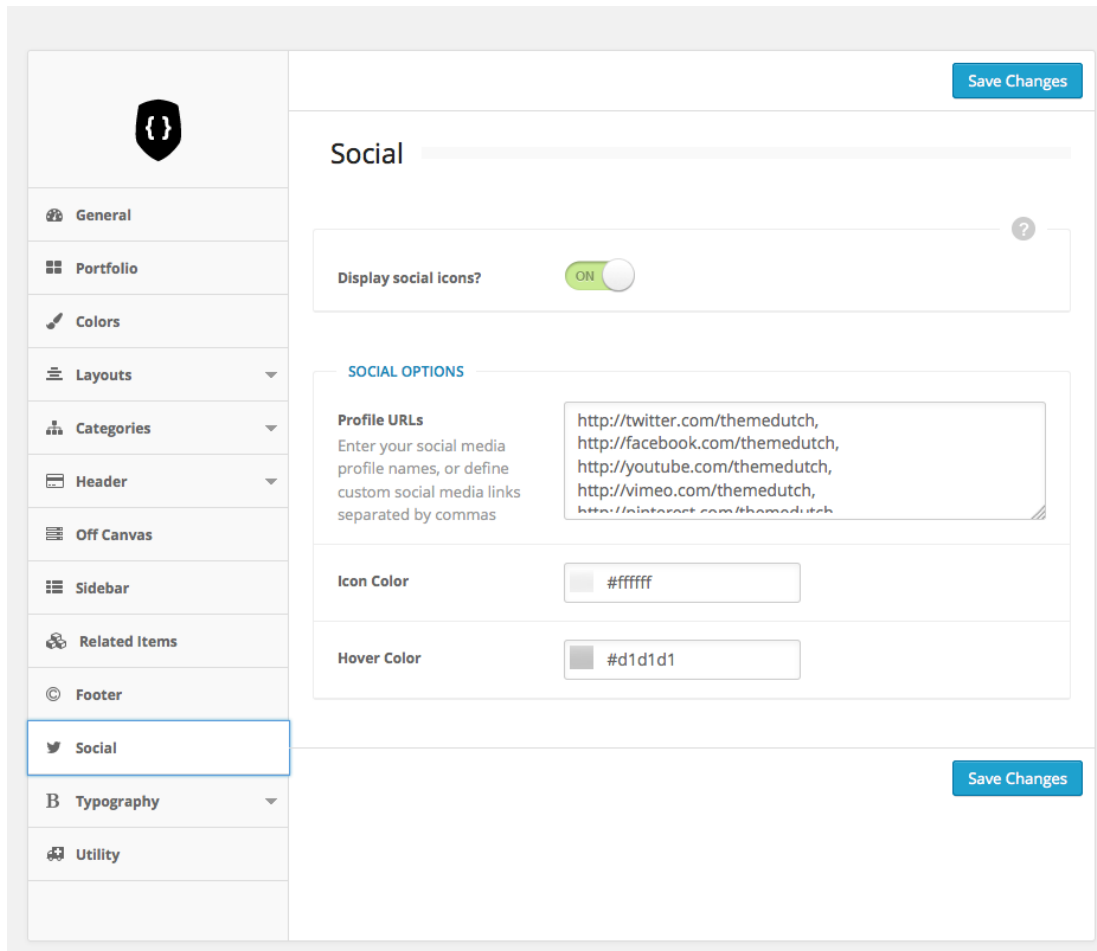

This is how it looks at the front-end of theme FIFTH.

## 14. Fifth Options - Social

In here you can make use of social options, display social icons, and set the colors. All settings are self-explanatory.

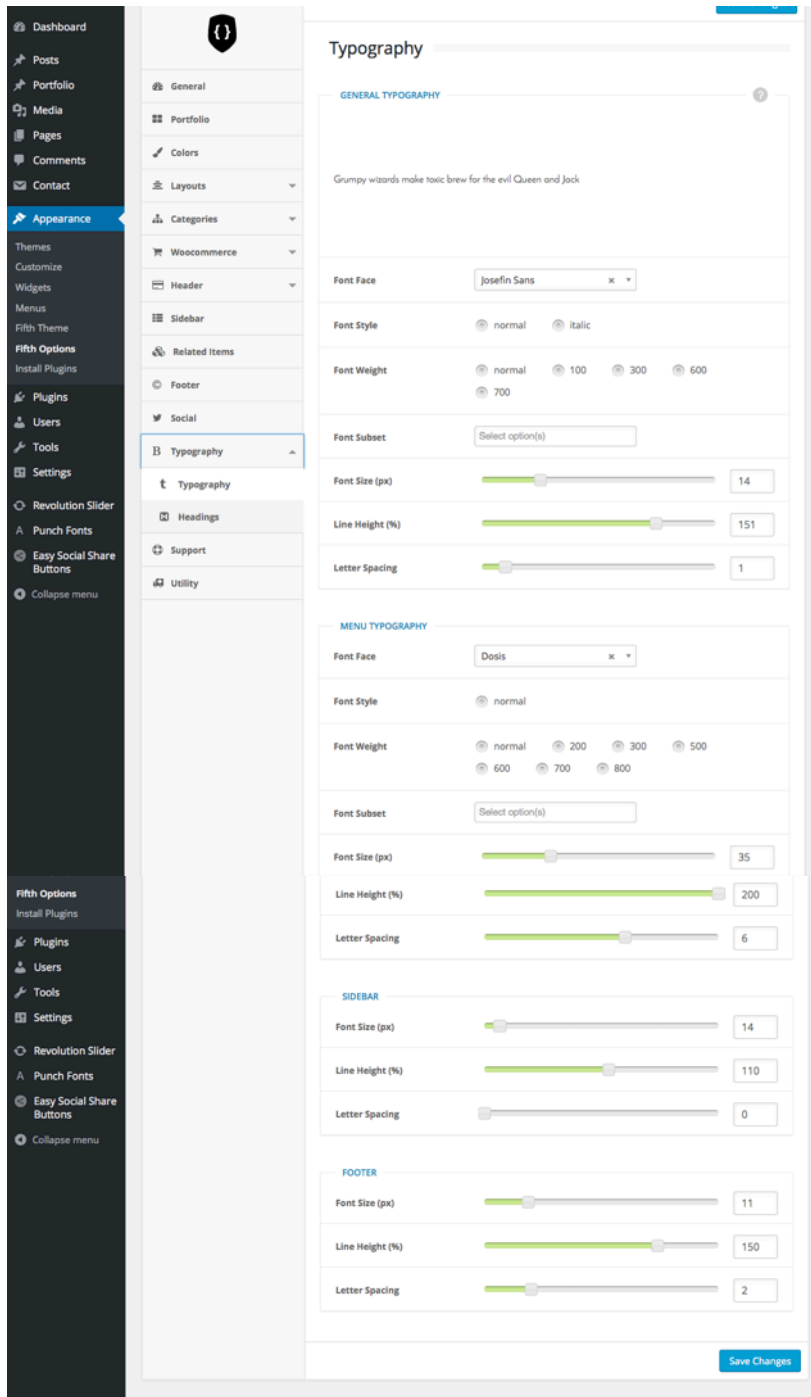

**NOTE: We did not set social icons in the theme's footer.**

This is just an example of how it could look like:

# 15. Fifth Options - Typography

In here you'll find all options for your websites' typography. All settings are self-explanatory. (Google fonts; font size in px, font height in %)

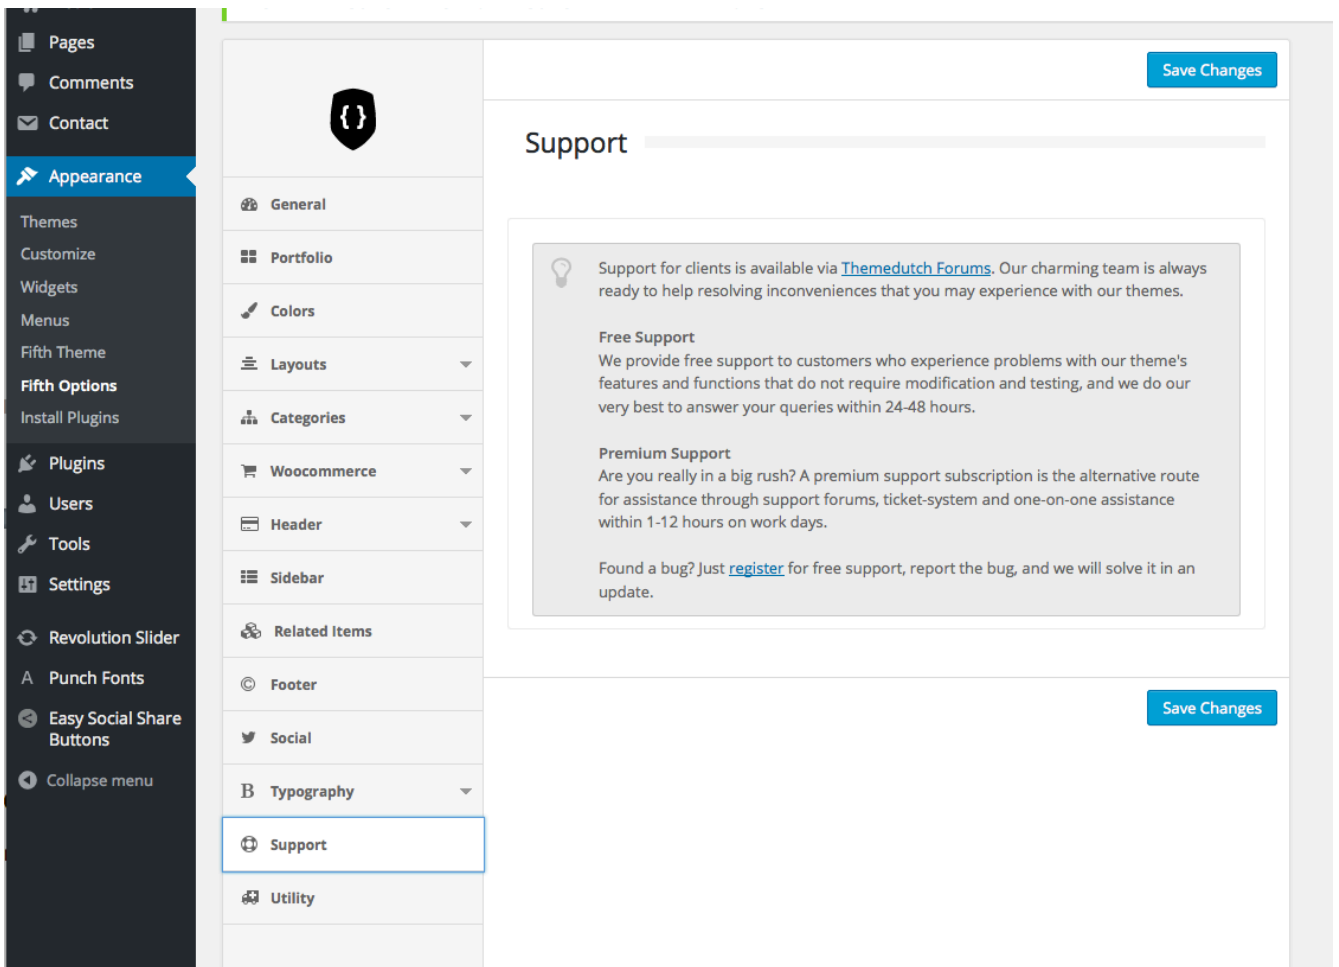

## Headings

In here you can set the font face, style, weight, size etc. for all headings. All settings are self-explanatory.

The screenshot displays the WordPress dashboard's 'Appearance' > 'Headings' settings page. The left sidebar shows the navigation menu with 'Appearance' selected. The main content area is titled 'Headings' and features a 'Save Changes' button in the top right corner. Below the title, there is a preview of the heading text: 'Grumpy wizards make toxic brew for the evil Queen and Jack'. The settings are organized into sections for each heading level (H1 through H6). Each section includes a 'Font Face' dropdown menu (set to 'Dosis'), a 'Font Style' radio button (set to 'normal'), and a 'Font Weight' radio button group (set to 'normal'). Below these are three sliders for 'Font Size (px)', 'Line Height (%)', and 'Letter Spacing', each with a numerical input field. The settings for H1 are: Font Size (40), Line Height (100), Letter Spacing (8). For H2: Font Size (28), Line Height (110), Letter Spacing (4). For H3: Font Size (20), Line Height (110), Letter Spacing (4). For H4: Font Size (18), Line Height (130), Letter Spacing (4). For H5: Font Size (16), Line Height (110), Letter Spacing (4). For H6: Font Size (12), Line Height (150), Letter Spacing (4). A 'Save Changes' button is located at the bottom right of the settings area.

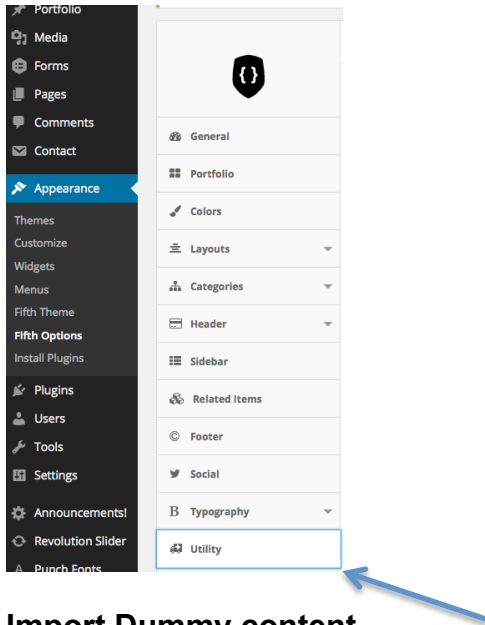

# 16. Fifth Options – Support

## Theme Dutch support options

## 17. Fifth Options – Utility (import dummy content)

The tab “**Utility**” within **Fifth Options** is created for importing Dummy Content, and/or export your FIFTH theme options from file, text or URL.

### Import Dummy content.

Hit the button ‘Install Dummy Content’ if you would like to install the official FIFTH preview website’s content.

#### NOTE:

Importing dummy content ‘may take a few minutes’.

**You’re not able to install dummy content twice. If you want to install dummy content again, you’ll have to reset this section first.**

Installing dummy content will not cause problems If you have **good quality hosting**. In some cases the dummy content will not work, for example If you really have bad hosting.

If installing dummy content worked ok, the button changes into green and says: dummy content already imported.

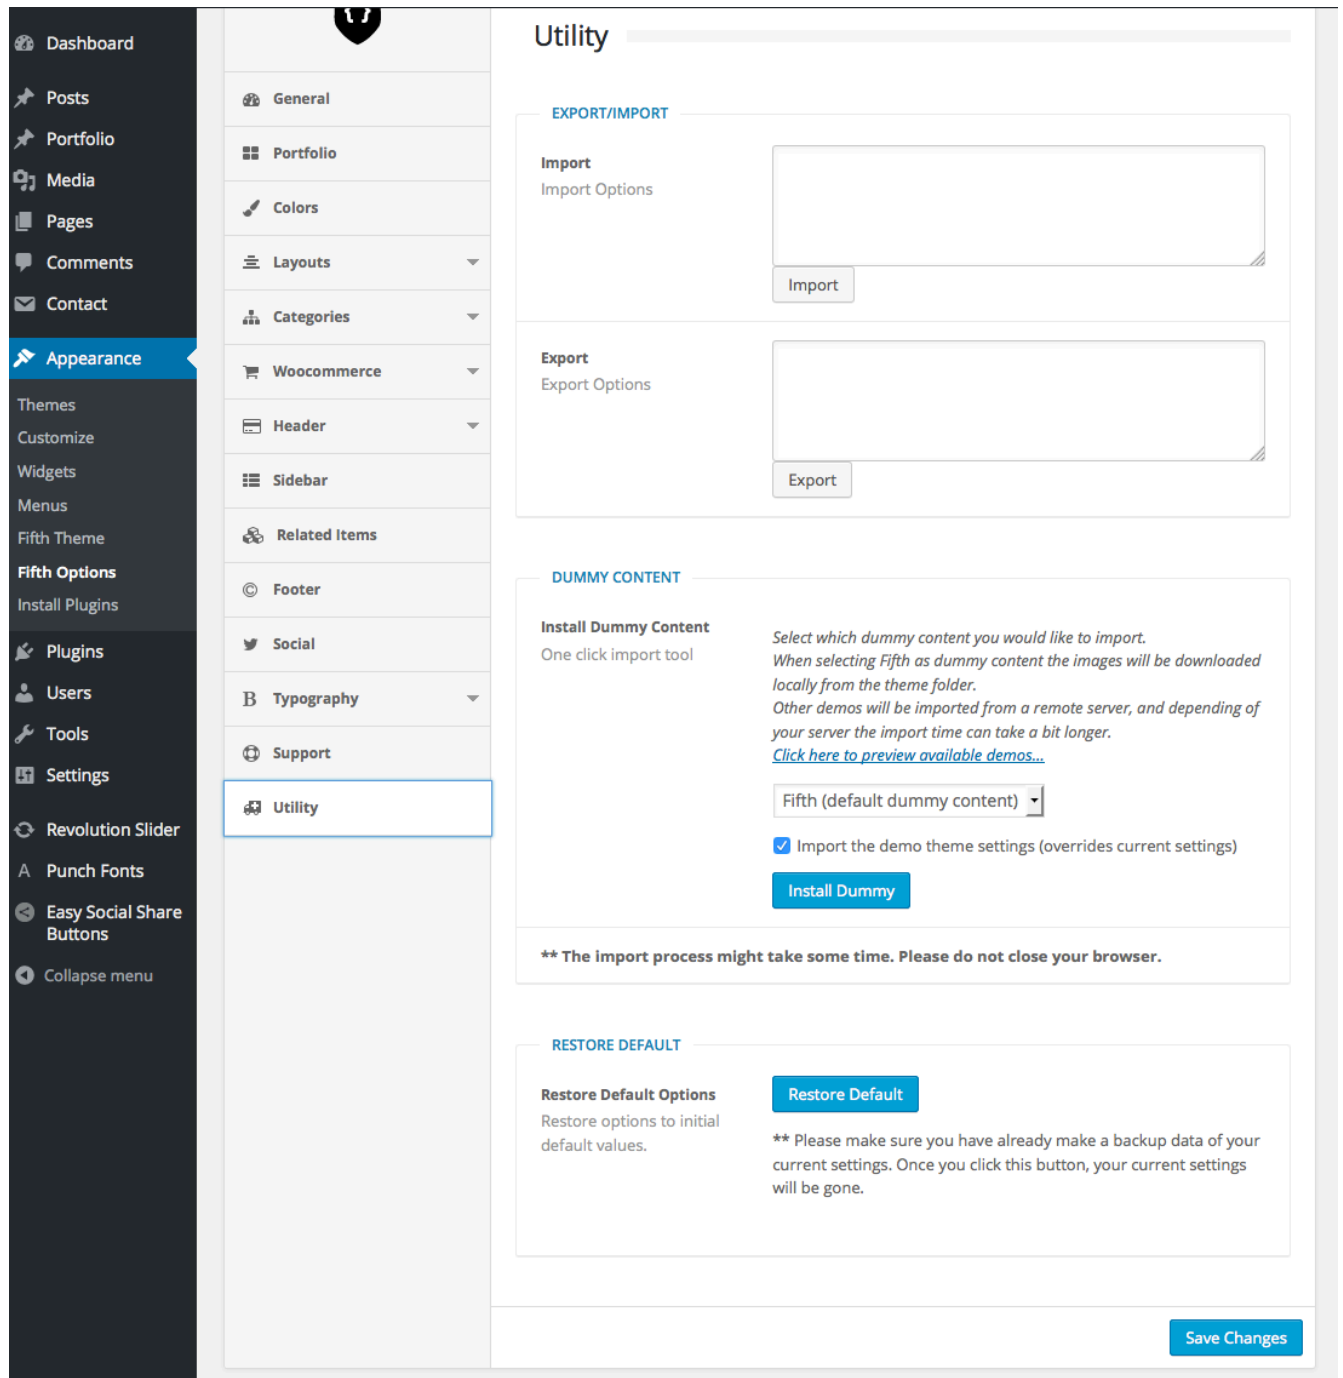

#### NOTE:

#### What you need to do yourself: after installing dummy content

1. You still need to set your home page: via Admin / Settings / Reading
2. Sidebars and Widgets are not included in the dummy content. These you’ll have to

assign/create yourself. You can read in the manual how to create Sidebars and Widgets.

(see screenshot below)

## NOTE:

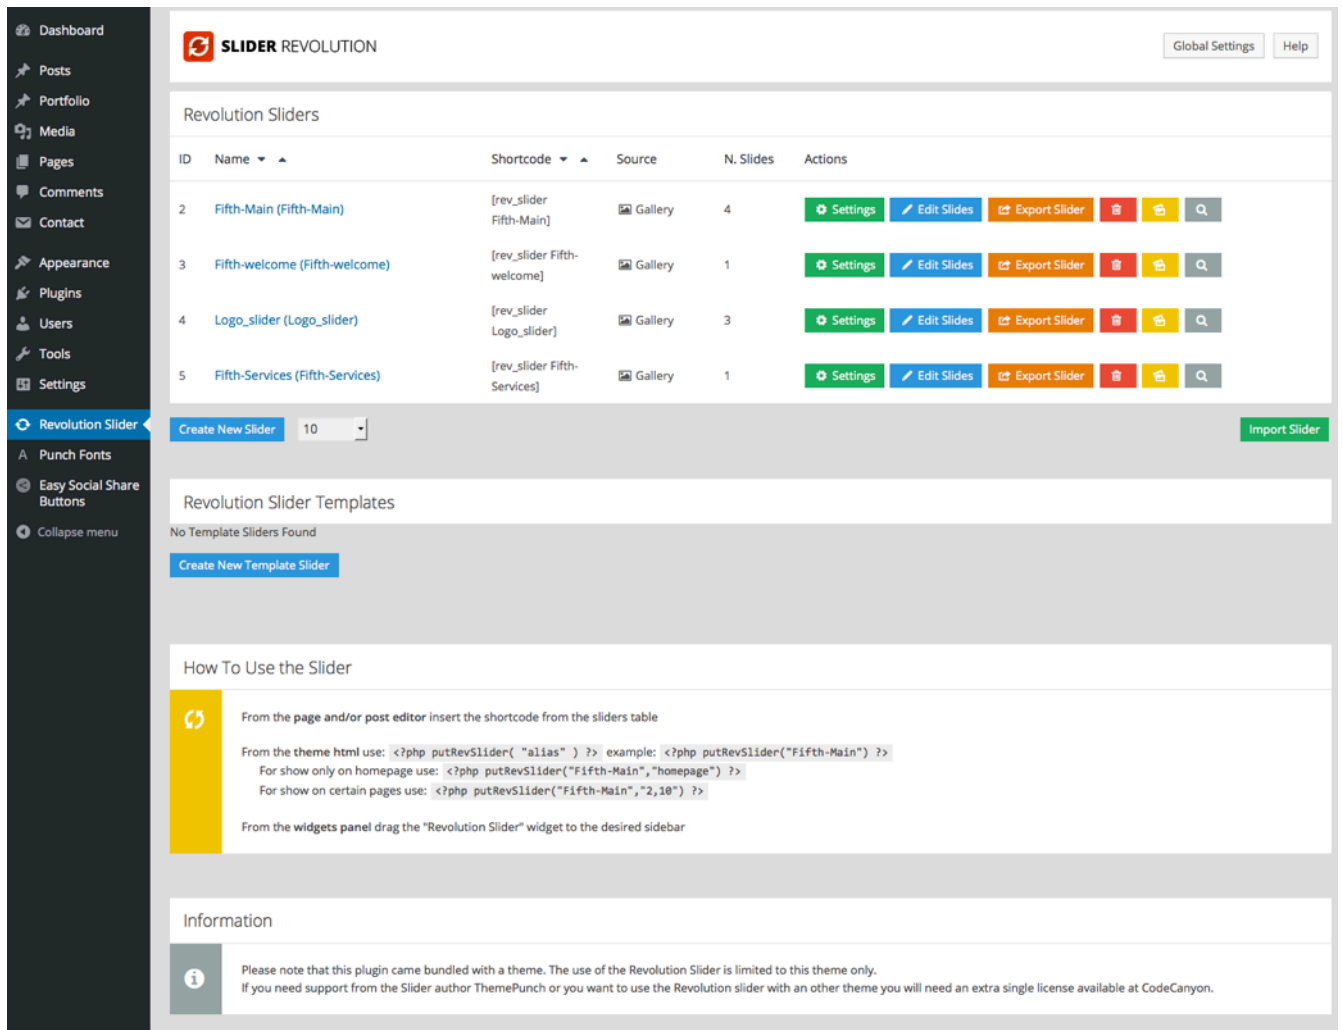

For those who don't feel comfortable with databases, we offer Installation Packages via our website. [www.theme-dutch.com](http://www.theme-dutch.com).

**Important! All used photo material is copyright protected.**

The images used in our preview website are intended for example purposes only. As they're copyright protected, you need to remove them from your media section, before your website goes online. We thank you for your understanding.

## 18. The Revolution Slider (Revolution Slider plugin)

You're able to install/activate this powerful plugin via your Dashboard.

**SLIDER REVOLUTION** Global Settings Help

### Revolution Sliders

ID	Name	Shortcode	Source	N. Slides	Actions
2	Fifth-Main (Fifth-Main)	[rev_slider Fifth-Main]	Gallery	4	Settings Edit Slides Export Slider [trash] [refresh] [search]
3	Fifth-welcome (Fifth-welcome)	[rev_slider Fifth-welcome]	Gallery	1	Settings Edit Slides Export Slider [trash] [refresh] [search]
4	Logo_slider (Logo_slider)	[rev_slider Logo_slider]	Gallery	3	Settings Edit Slides Export Slider [trash] [refresh] [search]
5	Fifth-Services (Fifth-Services)	[rev_slider Fifth-Services]	Gallery	1	Settings Edit Slides Export Slider [trash] [refresh] [search]

Create New Slider 10 Import Slider

### Revolution Slider Templates

No Template Sliders Found

Create New Template Slider

### How To Use the Slider

From the page and/or post editor insert the shortcode from the sliders table

From the theme html use: `<?php putRevSlider( "alias" ) ?>` example: `<?php putRevSlider("Fifth-Main") ?>`  
For show only on homepage use: `<?php putRevSlider("Fifth-Main", "homepage") ?>`  
For show on certain pages use: `<?php putRevSlider("Fifth-Main", "2,10") ?>`

From the widgets panel drag the "Revolution Slider" widget to the desired sidebar

### Information

Please note that this plugin came bundled with a theme. The use of the Revolution Slider is limited to this theme only. If you need support from the Slider author ThemePunch or you want to use the Revolution slider with an other theme you will need an extra single license available at CodeCanyon.

**NOTE: Within your download zip of FIFTH you'll find a 'manual' how to create sliders using the Revolution Slider, and where to receive support.**

## 19. Set up Page and Post options

FIFTH HOME PAGE EXAMPLE:

This is an example of FIFTH's Home page:

Via **page attributes** on your right hand, you're able to select your preferred template. (We chose a Blank Page Template for our home).

<https://theme-dutch.com/presents/5th/>

You're able to set a featured image or featured gallery, or select a video on top of your content. We chose a header using the Revolution Slider [rev\_slider Fifth-Main]

The screenshot displays the WordPress admin interface for editing a page titled "Home intro". The left sidebar shows the "Pages" menu selected. The main content area features a rich text editor with two tabs: "Add Media" and "Add Shortcodes". A blue arrow points to the "Add Shortcodes" tab, which is active. The editor content shows a shortcode: `[rev_slider Fifth-Main]`. Below the editor is a "Custom Content" section with a rich text editor and a "RevSlider" dropdown menu. The right sidebar contains "Page Attributes" with a "Template" dropdown menu set to "Blank Page Template". Other sections include "Publish", "Featured Gallery", "Media Option", and "Featured Image".

At the top of every page and post you'll find two tabs: **Add Media** and **Add Shortcodes**. Via Add Media you're able to insert your favorite images into your posts and pages.

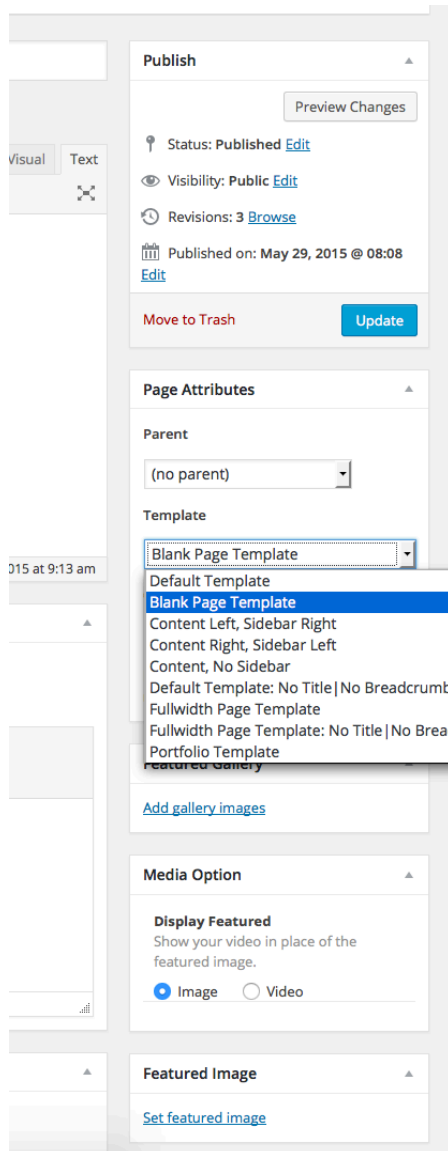

Via Add Shortcodes you're able to insert TD-shortcodes (like columns, buttons, dividers, galleries and much more), which you can use to design your layout and spice

up your pages.

**NOTE:**

How to add custom content we've already explained earlier.

On your right hand beneath Page Attributes you have options to select your desired template into: default, blank full width and more.. This option is available on pages, not on post pages though.

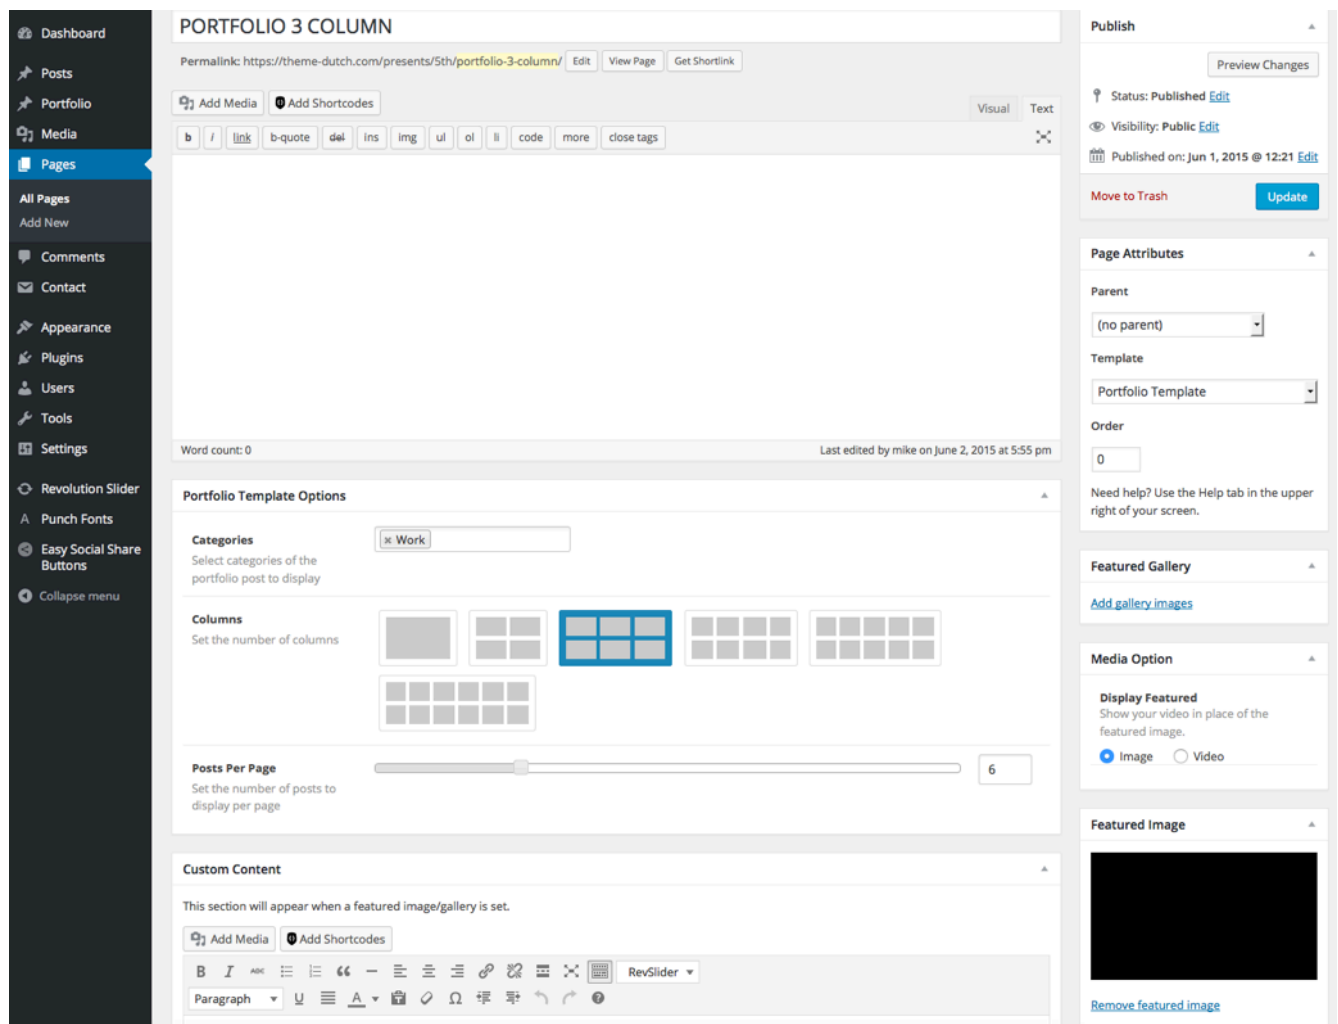

## 20. How to create a Portfolio page

Creating a Portfolio page is really easy.

Just create a page for your portfolio and select 'Portfolio template' at Page Attributes on your right hand. All settings are self-explanatory.

Just select your category (we chose Work), the number of columns and the amount of (portfolio) posts per page.

The screenshot shows the WordPress admin interface for creating a new page titled "PORTFOLIO 3 COLUMN". The left sidebar contains navigation menus for Dashboard, Posts, Portfolio, Media, Pages, Comments, Contact, Appearance, Plugins, Users, Tools, Settings, Revolution Slider, Punch Fonts, Easy Social Share Buttons, and Collapse menu. The main content area is divided into several sections:

- Page Attributes:** Shows the page title "PORTFOLIO 3 COLUMN", a permalink, and buttons for "Add Media" and "Add Shortcodes". It also includes a visual editor toolbar and tabs for "Visual" and "Text".
- Portfolio Template Options:** This section allows for customizing the portfolio layout. It includes:
  - Categories:** A dropdown menu with "Work" selected.
  - Columns:** A grid of icons representing different column layouts (1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 12 columns). The 3-column layout is highlighted with a blue border.
  - Posts Per Page:** A slider and input field set to "6".
- Custom Content:** A section for adding custom content, featuring a rich text editor with various formatting options and a "RevSlider" dropdown.

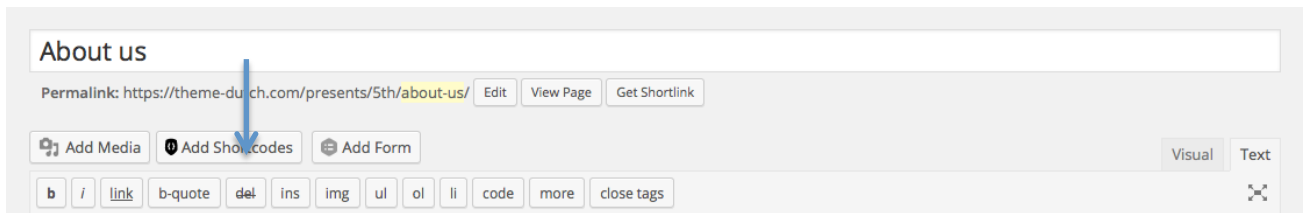

On the right side of the interface, there are several panels:

- Publish:** Shows the page status as "Published", visibility as "Public", and a published date of "Jun 1, 2015 @ 12:21". It includes buttons for "Move to Trash" and "Update".
- Page Attributes:** Shows the parent page as "(no parent)", the template as "Portfolio Template", and the order as "0".
- Featured Gallery:** A section for adding a featured gallery, with a button for "Add gallery images".
- Media Option:** A section for displaying featured content, with radio buttons for "Image" (selected) and "Video".
- Featured Image:** A section for adding a featured image, with a "Remove featured image" button.

This is how it looks like at the front-end of Fifth. We added a Featured Gallery on top of the portfolio.

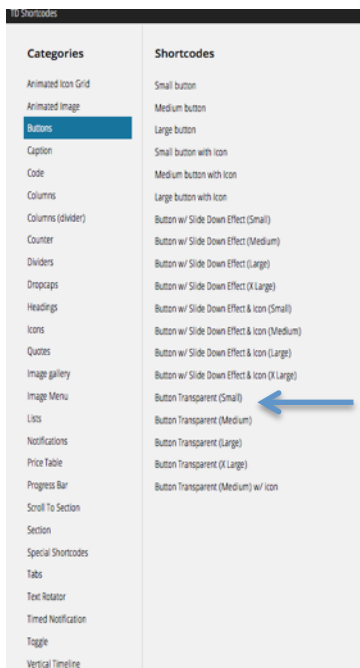

This is how it looks like at the front-end of our demo:  
<https://theme-dutch.com/presents/5th/portfolio-3-column/>

## 21. How to use TD-shortcodes (plugin)

On the icon bar above the content block of every page or post, you'll find the TD short code manager. (**Regulated via the TD-shortcode Plugin**) The TD-shortcode manager provides lots of categories and options to make us of shortcodes to spice up your pages and posts.

### Example Buttons:

### NOTE:

Basically all TD-shortcodes work the same, and 'Live examples' of lots of short codes you'll find on FIFTH's Preview website.

### TIP:

Install 'dummy content' to see how most TD-Shortcodes are used at the backend.

Live examples of TD-shortcodes you' <http://theme-dutch.com/presents/5th>.

# 22. How to make your website multilingual

FIFTH is WPML-ready. Upload, install and activate the (WPML plugin).

Then follow the instructions via your Wordpress admin.

**Need support to set up your own WPML site? Visit:**  
<http://wpml.org/documentation/> and <http://wpml.org/forums/forum/english-support/>

Support

Install the [WooThemes Update plugin](#) to get updates for your WooThemes plugins.

Technical support for clients available via [WPML forum](#).

For advanced access or to completely uninstall WPML and remove all language information, see the [troubleshooting page](#).

## 23. How to translate your website

### Translation Ready

English, Dutch, French, German or Spanish? Whatever your language is, we've got you covered. That's because we thought about the smallest details when we created FIFTH. This theme's content can be translated to any major language you want.

We understand our theme will be sold worldwide. You can translate by using the pot file. Just follow the following steps:

- 1) Download Poedit from <http://www.poedit.net/>
- 2) Install poedit on your computer
- 3) Open poedit
- 4) Choose file > new catalogue from POT-file
- 5) Search your theme folder of FIFTH > go to languages > fifth.pot
- 6) Press ok
- 7) Poedit will ask you where to save the .po and .mo files. Choose the same folder. Name the files your language zone (example: nl-NL for the Netherlands)
- 8) Translate all the options (not all needed)
- 9) Upload the .mo and .po file to the languages folder on your website.
- 10) Change you wp-config-file with your language-code

## 24. Theme Dutch Support

If you need support, have suggestions, concerns or you just want to ask a question, please go <http://theme-dutch.com/> and register your account. Don't forget to fill out the purchase code or Transaction ID of your Theme Dutch product, which you've received via our marketplace partner after buying our theme. **(We will verify your purchase before we provide support)**. After registering you'll receive an e-mail notification with username and password. Use these to login to your account and to be able posting your queries via <http://theme-dutch.com>.

**IMPORTANT NOTICE:** PLEASE READ OUR BASIC FORUM RULES FIRST  
Login in, and then you're able to access our FREE support forum for FIFTH.

**We DO NOT provide support via e-mail – only through our 'free' support forum and/or 'premium support forum including ticket system'.**

If you have 'sales related' questions about customization jobs, installation programs or otherwise, you're welcome to send an email to [sales@theme-dutch.com](mailto:sales@theme-dutch.com).

**Our support team's goal is to handle every request voluntarily, quickly and correctly.** During office hours we will try to answer your queries immediately. However, most of the time, questions are answered within 24-48 hours on Monday to Friday.

## 25. Services

Our team of web designers and web developers are standby if you want to make

adjustments to your website. Check our website for WordPress **Installation plans** and **Customization jobs**. If you need additional info you also can contact us via the contact form on our website.

#### **Wordpress installation plans:**

For more detailed information please visit: <http://theme-dutch.com>

#### **Customization plans:**

For more detailed information please visit: <http://theme-dutch.com>

## **26. Warranty**

Upon purchase of the theme, FIFTH will be given to you as a download file. We guarantee a fully functional FIFTH theme if you follow our advice, guidelines and installation instructions.

Updates for FIFTH we announce via twitter and [www.facebook/themedutch](http://www.facebook/themedutch). You also can opt for receiving messages regarding updates via your marketplace profile page though.

## **27. Contacting Theme Dutch**

Theme Dutch Limited is based in the Netherlands. Our office address is:

Theme Dutch Ltd.  
Koningin Regentesselaan 44  
6043 CM Roermond  
The Netherlands
