

Plastic Bottle Supplies Limited

QUALITY • VALUE • SERVICE

Product Catalogue

Plastic Bottle Supplies are a specialist UK manufacturer of HDPE Plastic Bottles, based in Wolverhampton, West Midlands, UK. Established in 1997, the company has grown rapidly to become a major supplier of HDPE bottles to a wide range of markets throughout the UK and Europe. Numerous household names are included within our customer portfolio.

- **Capacity** – Production output of more than 100 million bottles per annum.
- **Availability** – More than 300 SKU's from stock.
- **Service** – Day 1 for day 3 delivery.
- **Flexibility** – Exceptional service from our customer focused team.
- **Relationship** – 60% of customers have been with us for over 10 years...and growing.
- **Quality** – All of our bottles are food grade HDPE, our site manufactures to BRC standard.
- **Sustainability** – Our sites operate a CO2 reduction scheme.

FEATURES

Manufactured in high density polyethylene, the 20 and 25 litre Jerry Can and Drum Stackers are available in one neck option 60 mm TE.

The containers feature spacious labelling areas.

Designed for strength and durability due to reinforcing lattice features.

The containers are stackable ensuring optimum utilisation of space.

CLOSURES

Suitable for 60 mm TE caps – please contact sales for more details. Closures sold separately; some may be shown for illustration only.

COLOURS

Manufactured in additional colours, subject to minimum order quantities.

APPLICATIONS

Suitable for a variety of applications including detergents and household chemicals, lubricating oil, chemicals, garden products, pet care, DIY, toiletries, personal health care, confectionery, edible oils, vinegars, dairy, sauces & various foodstuffs.

Statement of conformance: The raw materials used in the manufacture of bottles comply with current EC Legislation for plastic materials and articles intended to come into contact with food EC 10/2011 and latest amendments. All products are free from BPA, TSE and BSE.

Traceability statement: The raw materials used within the manufacture of our product can be traced throughout the process from material intake to delivery.

BRC: Plastic Bottle Supplies Ltd are certificated to BRC Packaging Issue 5: July 2015 (High Hygiene category).

Migration Test Certificates: Migration tests carried out exposure conditions 10 days at 40°C using migration simulants as detailed in EC 10/2011.

Suitability for customer purpose statement: Testing for suitability of bottles for individual customers' application is at the customers' discretion. PBS has no details of customers' processes and applications or an on-site facility for food product testing.

HDPE recycled content/ country of origin: PBS bottles are manufactured utilising virgin general purpose and food safe HDPE grades only. Raw materials used in the manufacture of PBS bottles are sourced globally.
