A SPECTACULAR NEW DIMENSION TO  
YOUR HOME THAT WILL BE THE ENVY OF ALL!

# Exquisite Orangeries

**TRANSFORM YOUR LIVING SPACE AND ASPIRE TO THE GRANDEUR OF SOMETHING COMPLETELY UNIQUE.**

Historically, Orangeries were luxury out buildings or extensions used for growing oranges, exotic fruits and trees in winter. Today an Orangery provides a stunningly attractive and seamless extension to your home, that can be used as a kitchen extension, dining room, home office or extra living space for relaxation or entertainment.

The most traditional style of Orangery, and the most expensive, uses traditional materials such as brick or stone pillars between large windows to support the atrium style roof, which is still available. However, using modern design and cutting edge technology, it is now possible to create this unique styling using PVC-U and aluminium. The exclusively designed and innovative Consort Load Bearing Corner Posts, make it possible to create a beautiful Orangery with a traditional brick base. With the atrium style roof and concealed lighting adding dramatic impact and a quality feel, an Orangery is the perfect option to bring light, warmth and an immense feeling of space to this and adjoining rooms.

All the benefits of a conservatory plus much more.

# Consort *fs* Multilock

Added Security  
Positive Action

A police preferred product and manufactured in the UK, the **Consort *fs* Multilock** is a new concept in window security and is fitted as standard on all **Consort *fs*** windows.

Visually attractive, with an easy, smooth, positive action, this unique design uses a multipoint locking system which is tested to twice the strength of the required BS7950 security standard.

Manufactured to marine specification, with anti-salt corrosion protection as standard, the **Consort *fs* Multilock** gives that added confidence of extra security to the elegant new sculptured appearance of the **Consort *fs*** system.
