

Cancer Alliance attends Sheffield PLI event

On July 3 staff from the South Yorkshire, Bassetlaw and North Derbyshire Cancer Alliance attended the NHS Sheffield CCG PLI event.

The team held a stand at the event where they spoke to GPs and Practice Nurses from across Sheffield about the Cancer Alliance and its workstreams.

Fran Mead, Early Diagnosis Workstream Manager from the Cancer Alliance, said: “It was really useful for the alliance to hold a stand at this event. I attended with my colleagues and we had some really good conversations with GPs and nurses about a number of our projects including the Be Cancer Safe social movement. I was really pleased to see staff getting on board and taking resources away to use in their surgeries.”

The Cancer Alliance also had input in to the agenda for the day which included presentations and talks about Cancer of Unknown Primary (CUP), Safety Netting, the introduction of FIT and Prostate Cancer Diagnosis – all of which are priorities for the Cancer Alliance.

The Cancer Alliance would like to thank everyone who came along, especially those who came to talk to the team and take away resources. If you would like more information about Be Cancer Safe or to download posters and leaflets for your surgery, [please click here](#).
