

Plastics/Brazing Operator

We have immediate open positions available in our Plastics/Brazing department.

Requirements of the job include:

- Moderate periods of sitting
- Walking/standing throughout the day
- Repetitive use of hands/fingers, including the use of x-acto knives and trimming tools
- Inspect parts for quality
- Able to work in the heat for long periods of time due to multiple brazing furnaces
- Assemble parts, put on trays to load brazing furnaces

We are looking for candidates who are quality conscious and willing to work in a team atmosphere. A very good attendance record and being able to work overtime is required. The ability to work on your own and take the initiative to complete the required tasks in a timely and organized manner. Reliable transportation is important.

We offer a competitive wage, benefits package including health insurance, dental, vision, group life, short and long-term disability, paid vacation and 401K, air-conditioned plant and clean working environment.
