# BARIATRIC & METABOLIC SURGERY

## Effective & Permanent Weightloss Solutions

Bariatric Surgery helps an individual to lose excess weight and avert the risk of potentially life threatening weight related health issues, such as type 2 diabetes, high blood pressure, heart ailments, sleep apnea, osteoarthritis, infertility, gastroesophageal reflux diseases and even some types of cancers.

Asian Centre for Bariatric and Metabolic Surgery performs a high volume of weight-loss surgeries with brilliant results. The treatment option is customised based on patients need, the specialists routinely treat patients through Adjustable Gastric Banding, Sleeve Gastrectomy, Roux-en-Y Gastric Bypass procedure including Revisional Bariatric Surgery if required. The clinical outcomes, state of the art technology, medical expertise and our huge success rate makes us the finest choice for Bariatric Surgery in India. We also do body-contouring procedures to remove excess skin and reshape the body to its desired proportions post-surgery.

- Sleeve Gastrectomy
- Adjustable Gastric Banding
- Roux-en-Y Gastric Bypass
- Revisional Bariatric Surgery
