Achievement through partnerships

Learn English

ENGLISH  
LANGUAGE  
TRAINING

## Immerse yourself in the English Language

Without a doubt, the best way to learn English is to immerse yourself in the English language and find yourself surrounded with the language everywhere you turn. Here at Almond Vocational Link, we are great believers that living in the UK and taking part in organised English language courses can lead to the best results. Having the support from our qualified tutors whilst you explore in your spare time will boost your confidence and help you fully understand and embrace the richness of both the English language and culture.

English language training can be provided for all those undertaking a work experience placement, visiting for a KA1 staff training project or coming to the UK to take part in one of our cultural programmes.

General English lessons are of particular benefit before or during a work placement/internship as they provide a good foundation in the type of language encountered in a work situation. We would also recommend these lessons if your language skills are adequate, yet you feel your confidence would benefit from additional training. The teachers that we employ have extensive knowledge of teaching English as a second language (ESOL & EFL) and are flexible in adapting the language training to suit the requirements of the various members of the group. All of our teachers hold TESOL or CELTA diploma.

At Almond Vocational Link we feel that there are great benefits to group sessions enabling you to improve your ability to speak, listen, and extend your knowledge of vocabulary and grammar as well as your writing and reading skills. We can also offer other courses related to specific areas such as Business English, if required, and facilitate working towards qualifications in English such as Cambridge or IELTS.

I love the way Gary teaches, he is very interactive, funny and has a very interesting way of teaching"

Marcelo P

Gary is a really great teacher, he is fun and explains things really well. He doesn't only teach us English, he also English Culture to us and helps with general knowledge about England."

Rodrigo

My Language Training was very fun, useful and enjoyable. The teacher really knew how to push you to learn and the lessons were really involving. I feel more confident about my pronunciation."

Alessandro

I really liked the language training. My teacher was really kind. If there was something I didn't understand, she told me again and all the lessons were really interesting."

Federica
