Dear Parents and Carers

RE: Baby Room Health and Safety

To prevent cold feet or slipping whilst in the baby room, we are encouraging parents to invest in knee high-anti slip socks for their babies.

Young children will regularly remove their shoes and socks, so we recommend investing in knee-high anti-slip socks, as with knee highs they find it more difficult to pull them off. We can store these socks in the bags on their pegs.

Our staff will ensure children's normal shoes and socks are put back on at the end of the day.

We have found that Amazon sells some. Please click on the link below for inspiration;
