Job Title:	QA Software Tester
Reports To:	QA Lead

Summary

Due to continued expansion, we are looking for a QA Software Tester to join our highly skilled QA Team. The successful candidate will ideally be ISTQB certified and have a minimum two years experience in testing software.

Role Description:

- Execute test scripts, ensuring any new development features function correctly prior to being released (this includes documentation of user manuals and release notes).

- This will require testing the web based applications via multiple browser versions as well as testing tablet application on multiple devices.

- Working independently and collectively with the wider QA team to manage JIRA, test plans, test runs and regression testing.

- Become a product specialist and support the QA Team Leader to provide training both internally and externally to clients

- Support the QA Team Leader in maintaining training materials and documentation

- Communicate with our internal support team to identify any software application problems and educate our development team to improve our systems

- Keep up to date with current aviation news, technology and competitors

- Support end users to understand how they use the systems and provide feedback

- Work collaboratively with the Development Team to fully understand the system and any changes.

- Report significant issues or concerns to the QA Team Leader and provide recommended process improvements.
- Checking data source feeds by checking the data source providers and connecting directly to our Oracle database repositories to interrogate the data
- Undertake any duties as reasonably requested by the IT Support Manager

Experience, skills and knowledge:

- Have a strong background testing software (minimum 3 years experience)
- Have strong written and oral communication skills
- Hold an ISEB/ISTQB qualification
- Have the ability to learn technical concepts quickly
- Have enthusiasm for working in a fast paced, rapidly changing environment
- A creative problem solver, with the tenacity to go the extra mile to understand and resolve a problem
- Have strong written and oral communication skills

** although not a specific requirement of the role, due to the location of the offices the successful candidate will be a driver with access to a vehicle

Qualities:

- Self-motivated and hard worker
- Ability to receive feedback and constructive criticism positively
- Putting the customer first and using quality as a prime driver of outcomes
- Desire and willingness to learn
- A team player

Location:

Our Headquarters are situated one mile from Humberside Airport in the small quiet village of Kirmington. We are surrounded by the picturesque Lincolnshire countryside idea for a lunchtime walk. The local pub, The Marrowbone and Cleaver and St Helena's Church are just a couple of minutes away.

Staff Benefits:

- Excellent Pay (salary negotiable, depending on experience)
- 25 days annual leave plus Public Bank Holidays
- Development opportunities

- Company pension scheme

- Flexible working scheme

- Holiday purchase scheme

- Summer and Winter bonuses based on performance

- Free drinks and fruit at work

- Choice of hardware - we all use the latest technology

- Free onsite parking

- We also have a spacious building with a fully equipped kitchen area and 'chill out zone' with a games area

How to apply:

Please forward your latest CV with a covering letter to jobs@bytron.aero detailing how your experience and skills fit the requirements of this role.
