

TTSB

MAXIMUM WIDTH 17 INCHES
MINIMUM WIDTH 4.25 INCHES
MAXIMUM DIAMETER COIL 20MM
MINIMUM DIAMETER COIL 10MM
RATED SPEED:
UP TO 750 BOOKS PER HOUR
VOLTAGE: 115 VOLTS 1 PHASE 60 HZ*
AIR CONSUMPTION 1 CFM@70 PSI
WEIGHT 125 LBS

*special voltage upon request

Specifications are subject to modifications

TTSB MAGNUM

MAXIMUM WIDTH 17 INCHES
MINIMUM WIDTH 4.25 INCHES
MAXIMUM DIAMETER COIL 50MM
MINIMUM DIAMETER COIL 20MM
RATED SPEED:
UP TO 250 BOOKS PER HOUR
VOLTAGE: 115 VOLTS 1 PHASE 60 HZ*
AIR CONSUMPTION 1 CFM@100 PSI
WEIGHT 125 LBS

*special voltage upon request

Specifications are subject to modifications

The TTSB is an automatic Plastic Coil inserter capable of producing plastic coil bound books. The books are accurately registered using the pre-punched holes. This allows oversized covers, tab pages, half pages, plastic pockets and fold out inserts to be included in the binding process. The unique three-roller system combined with stationary coil combs provides both static and dynamic control of both the pitch and position in register with the pre-punched holes in the binding edge. This positive control of the book and coil permits rapid and accurate inserting of large and small diameter coils
