Your Wellness, Naturally

Gaia is the ancient goddess of nature “Mother Earth”. Mother Gaia is a healing Goddess, we believe that true wellness requires us to return to the cradle of mother nature and live in accordance with natural laws.

Our treatments have been created to meet the varied needs of modern individuals, combining effective natural ingredients with skilled therapeutic techniques using our own award-winning GAIA Skincare range.

*“Every so often a range comes along out of the blue (or in this case, with its eco-credentials, perhaps ‘out of the green’) which knocks our socks off – and the range created for Devon’s Gaia Spa at Boringdon Hall’s done just that.”*

*- Jo Fairley, The Beauty Bible*

At Gaia Spa we focus on your wellness, naturally.

## Flagship Spa

Gaia Spa is set within the grounds of Boringdon Hall, Devon – a Grade I listed 16th century country manor house hotel, on the edge of Dartmoor.

Named Hotel Spa of the Year in Western Europe & Scandinavia at the World Spa & Wellness Awards 2019, Condé Nast Johansen's Best Destination Spa in the UK & Ireland 2018 and 2020.

## Relaxation Inspired

---

Gaia or Mother Nature is the inspiration for our spa. We believe that it is increasingly difficult for people in modern society to live as nature intended. We have created a special place that will give our guests the time and the space they need to enhance their natural wellbeing.

# Facilities

The healing power of water flowing through our spa cleanses your external self and renews your inner being.

## Swimming experiences

The calming indoor swimming pool offers guests a peaceful and relaxing swimming experience whilst the hydrotherapy pool features an outdoor swim through with countryside views.

## Experience showers

Varying in intensity, temperature and sensory effects to start your journey before the other heat experiences Gaia has to offer.

## Crystal salt steam room

The steam room differs from the sauna with a softer heat of 48°C - 50°C and virtually 100% humidity. Infused with salt and essential oils, inhaling the salty air (known as halotherapy) has health benefits particularly for the respiratory system and skin. The room features a quartz centre piece which helps increase energy (chi) whilst bringing more balance and harmony to your life.

## Laconium

The Romans invented the Laconium as a room to start the spa journey and is heated at 30°C - 35°C (this will not necessarily induce perspiration), raising the body temperature this tricks your body into thinking you are starting to get a fever, this in turn helps improve your immune system. The room temperature is achieved by heating the walls and benches allowing you to get great deep warmth penetration through your body when you relax on the benches with your feet on the foot stools. The experience is further enhanced with the injection of relaxing aromas along with the latest light colour changing system

## Aromatherapy steam room

The benefits of steam rooms or showers have been known for thousands of years. The 40° - 45° C heat opens the pores to aid detoxification. The heat and humidity may bring health benefits ranging from aiding stress relief, to body cleansing, to soothing aching muscles or arthritis with the added benefit of essential oils to influence your mood.

## Herbal sauna

Heated between 65°C - 70°C blended with natural herbal and plant oils such as Eucalyptus and Lemongrass which can be inhaled or absorbed by the skin giving medical benefits as well as making you feel revived.

## Finnish sauna

Enjoy the soothing experience of the traditional Finnish sauna at a room temperature of 80°C - 95°C - the combination of heat and humidity provides highly stimulating immunological, dermatological, circulatory and respiratory effects.

## Tempidarium style loungers

Two heated curved ceramic poolside loungers to relax on whilst a gentle heat permeates up through your body.

## Patio Hot Tubs

Sit back and relax while in the serene setting of our outside patio. Perfect on a late summer's evening.

## Gaia Treatments

Our treatments have been created with natural ingredients and highly skilled therapeutic techniques, using GAIA Skincare products.

# Gaia Rituals

Gaia rituals are designed to identify three levels of an individual's wellbeing, recognising the holistic benefits of treatments across mental, physical and spiritual domains.

Rituals connect to history and tradition, designed to be meaningful bringing a person to a state of well being. This is more than the absence of illness, the state of being mentally, physically and socially well.
