

B-Series - Plain Galvanised Steel Range

Product Specification Sheet

Our plain galvanised steel range is typically used for lighting applications, underfloor heating and other high temperature applications where continuous flexing is required. B-Series has been designed for both commercial and industrial users.

The conduit is manufactured from a formed strip of electro-galvanised steel which is helically wound to produce a square-lock construction.

Technical Details

Temperature Range: -50°C to +300°C

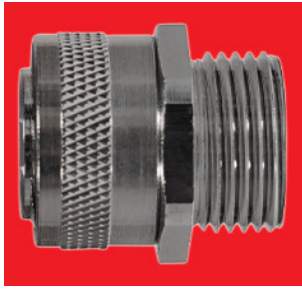

Material: Galvanised Steel

Colour: Self Coloured

Ingress Protection: IP40

Other Information: Low Fire Hazard, High Mechanical Strength, Manufactured to BS EN 61386
