RESEARCH DEVELOPMENT & COMFORT

Citterio Spa, founded in the early 60s in the province of Lecco, is a dynamic industry, that looks towards the future, alive to collect market challenges, and, thanks to a steady development, a leader in the office furniture.

Citterio offers a wide range of products: blind and glazed partitions, cabinets, staff and executive systems; each of these products is used by designers to meet the needs of the customer, whose ideas are developed and integrated in a unique and personalized project. Research and innovation, production flexibility, high technology, attention to detail, qualified services able to enhance the investment of users, reliability and continuity, skill in woodworking: all of the features are inherent in the company and in its DNA.

Citterio's products and services stand for functionality, design, eco-friendly and environmentally friendly materials, high quality: essential elements for the new work environment, where more and more attention to the welfare and comfort of the people cannot ignore the aesthetic and functional requirements.

PEOPLE MATERIALS & TECHNOLOGIES

A company made of people, who get together every day, in a relaxed, friendly and creative environment, to turn ideas into products, and eventually projects.
A company where noble materials, such as wood, glass and aluminium, are shaped by expert hands that turn them into products thanks to that we create comfortable and ergonomic work environments with a simple and elegant design.
A company that is committed to welfare of its workers, and workers all over the world, where in the work environment design, elegance and transparency are used to produced the same welcoming feel of a home environment.

**MODULAR
SYSTEMS** —
*BEAUTY
EXCELLENCE*

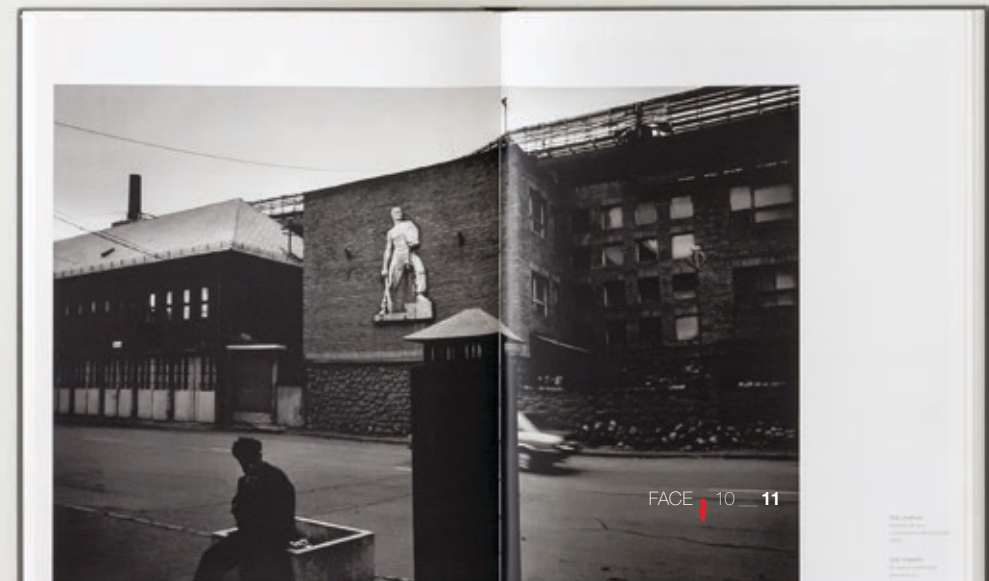

FACE 

Face is the panelling-type wall partition system thought to give your work space the appearance you want. It is characterized for maximum flexibility of application and total design freedom, for both complete spaces and individual walls, this is an easy-to-assemble panelling-type system, featuring high performance both for technical characteristics and exceptional aesthetic qualities, whose elegant presence can complete any space, making it safe and cozy. Face system combines with many other furnishing elements, including doors and a wide selection of wall-mounted storage units and shelves, to be fitted in the lines of the panelling modules.

**EVENTUALLY
EVERYTHING
CONNECTS -
PEOPLE, IDEAS,
OBJECTS. THE
QUALITY OF THE
CONNECTIONS
IS THE KEY TO
QUALITY PER SE**

ALLA FINE TUTTO
SI COLLEGA -
PERSONE, IDEE,
OGGETTI.
LA QUALITÀ
DELLE
CONNESSIONI
È LA CHIAVE DI
QUALITÀ PER SÉ

CHARLES
EAMES

Face, a boiserie that can be fitted with veneer or glass shelves and storage units which elegantly completes the environment. The system is also completed with storage units with folding doors or drawers.

Detail panels with horizontal slats. The system also provides for the possibility of vertical slats.

The doors are completely flush with the Face paneling and seem to disappear into the game of horizontal lines.

TROLLY 

Trolley is an elegant two-sided modular bookcase, thought to add a welcoming touch to any environment. Especially focusing on functionality and technological research, Trolley is a highly-flexible system, with almost endless variations. Maximum versatility in terms of size and function makes this system adaptable suit any space or environment. The final effect is marked by the sharp visual contrast between the verticality of the support structure and the horizontal lines of the shelves.

**YOU ALWAYS
TAKE THE
THINGS YOU
BELIEVE IN
REALLY; AND
THE BELIEF IN
A THING MAKES
IT POSSIBLE**

SI REALIZZANO
SEMPRE LE
COSE IN
CUI CREDI
REALMENTE;
E IL CREDERE
IN UNA COSA
LA RENDE
POSSIBILE
FRANK LLOYD
WRIGHT

REMEMBER

Trolly, horizontal and vertical lines that come together in an orthogonal game of absolute perfection.

The aluminum frame is completely free from connections with the horizontal elements, allowing a wide availability of configuration.

Drawers and inclined shelves are part of the system without losing the aesthetic coherence and clean lines.

The drawers are equipped with aluminium profiles for the positioning of the hanging folders.

PROGRAMMA 3

i.

Programma 3 is a modular storage system which is extremely flexible. Its main characteristics allow it to respond promptly to any request for allocation of space. Solid or glazed corridors, single or double doors, positive or negative angles, pillar cladding, customization of materials and finishes make it a highly versatile and modern product. Easy to assemble and disassemble, Programma 3 can be rapidly altered to meet new requirements without interfering with to the normal working practices.

In all its versions, against the wall, dividing or with soundproof panels, is the most complete of its range.

With shelves or with blind doors, the storage system is highly configurable according to the most different needs.

.Its particular attention to detail makes this cabinets extremely elegant without losing its main feature: the functionality.

Modularity, easy to equip, reconfiguration are the key features of these cabinets.

The different sizes and typologies makes makes this storage unit very functional and adaptable to every needs.

In the new workplace the cabinet is not only a tool for storage, but becomes an element to rationalize and organize the spaces.
