

## **Positive Looking with your Baby**

**Encourage your baby to touch your lips, wear bright lipstick and black eye liner and defined eye brows.**

**Position your baby near to your face, in good light**

**Smile and talk to your baby, use a nice light tone in your voice**

**Blow kisses and extenuate your mouth shape and make a clear 'kissing' sound**

**Go nearer and nearer to your baby as you blow kisses, have fun and enjoy your time together 😊**

**Give your baby a big smile, give your baby time to respond and praise when they gurgle or smile back at you!**

**Play with your baby using shiny baubles, keep contact with your baby and talk to them while you play**

**Use fun coloured socks, position your baby on a black background to reduce clutter and have fun, wiggle your fingers, clap your hands, sing a song 😊**

**Place a bright coloured mitt on your baby's hand and encourage them to look by showing them where their hand is, add a little bell inside the cuff of the glove to aid location**

**Position your baby facing you and talk to them, using big smiles and light tone in your voice, encourage them to smile more at you 😊**
