

Guide Roll Tape

Guide Rollers, Compensator Rollers for Web, Business Forms and other Roll Fed Press

Applications

Guide Roll Tape has a very coarse grit surface that has an aluminium flake top coating which helps reduce wear and extends life when compared to other grip type tapes. Guide Roll Tape is durable and helps provide traction on Guide and Compensator

Rollers eliminating marking, wrinkling and tracking issues as well as reducing cleaning time. Guide Roll Tape has a pressure sensitive backing allowing for easy installation and removal.

Features:

Coarse Grit Surface

- Aluminium flake top coating reduces wear and extends life

Easy to Clean

- Clean with a soft wire brush or similar and not dislodge the grit surface

Easy Installation and Removal

- The pressure sensitive backing allows easy installation and easy removal

Applications:

Commercial Web & Newspaper Presses

- Idler Bars, Compensator Rollers

Business Forms Presses

- Guide Rollers
