

## PRODUCT SPECIFICATION - APPLICATION & USE

PRODUCT NAME: **HYDROPOWER**

GENERAL DESCRIPTION: Yellowy brown acidic liquid.

USE FOR WHICH PRODUCT IS INTENDED: For removing heavy build up of lime, scale or cement.

SPECIAL EQUIPMENT REQUIRED: None.

METHOD AND CONDITIONS OF USE: Brush onto rusted or scaled areas for treatment. Allow to bubble. Agitate with a brush and wash off thoroughly with water to remove acid. If derusting, immediately after treatment, coat surface with oil or rust preventative to inhibit further rusting.

HYDROPOWER can be diluted with water for less severe deposits.

### NOTE:

1. DO NOT use on aluminium, painted enamel surfaces, stainless steel or decorative brass.
2. DO NOT spray except through equipment designed to handle acids.

METHOD OF CONTROL: N/A.
