

Reaching for the Summit

SWANA 2020 Canadian Symposium

April 20-23, 2020
Fairmont Banff Springs Hotel & Conference Centre
Banff, AB

Reach for the Summit with the 2020 SWANA Canadian Symposium at the Fairmont Banff Springs. This opportunity only comes around every 10 years when the SWANA Northern Lights Chapter hosts the Symposium in the majestic Canadian Rockies. As one of our valued partners, you will join over 350 delegates, 50 exhibitors, and industry leading speakers from the waste and recycling sectors to blaze trails and reach peak performance. This is where municipalities, industry, suppliers, and consultants from across Canada and the US come together.

The pristine mountain setting is sure to attract delegates to partake in training, conference sessions, tours, and networking events. Our week together is about reaching for the summit. With new skills in Safety, Disaster Debris Management, Climate Change, Landfills, Recycling, and Technology, delegates will leave equipped with the skills and information needed to climb to new peaks in their own organizations. The Symposium is paired with a tradeshow allowing clients and vendors to reconnect in a beautiful setting and see what tools are available for their expedition.

With an incredible diversity in climate, geography, and regulations the Northern Lights Chapter knows what diverse skills are needed to reach peak performance in the waste and recycling sectors. You can expect dynamic speakers from across North America who will bring experiences and updates from their sector and industry. As a sponsor you'll be leading us up new trails and building new paths for your clients, and colleagues.
