Anti-Dye Migration Heat Transfers

(Product Reference: ADM 1)

ITL's anti-dye migration heat transfers are produced with eco-friendly, water-based inks with high opacity and superior stretch characteristics.

These heat transfers include a dye blocking layer to prevent staining from disperse dyed and sublimation printed polyester fabrics.

Product attributes

- Available in warm and cold peel cut singles.
- A soft hand for against the skin applications.
- Excellent opacity on dark fabrics.
- Oeko - Tex Standard 100 product class 1 certified.
- Available in standard colours or custom shades.
- Suitable for polyester or polyester blend fabrics with limited dye migration.
- Durable to match the life of the garment and maintain brand integrity.
- Good stretch and recovery for active wear performance fabrics.

End uses

- Intimates and lingerie.
- Safe for infant wear.
- General apparel, men and women.
- Active wear, sportswear.
- Homeware embellishment.
