#### Manufacturer

Contact: Arctic Hayes Ltd
Phone: 0113 271 5245
Fax: 0113 271 5779
Web: www.arctic-hayes.com

Product Name: Sanding screen Revision Date: 2016-6-2

Version: 1

MSDS Number: NT1501

Product Use: Abrasive Product
Emergency Phone: 0113 271 5245

#### 2

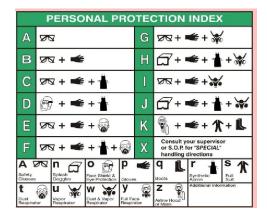

#### HAZARDS IDENTIFICATION

## NFPA: HMIS III:

Health = 1, Fire = 0, Reactivity = 0 H\*1/F0/PH0

## GHS Signal Word: □WARNING

## **GHS Classifications:**

☐ Health, Serious Eye Damage/Eye Irritation, 2 B

## GHS Phrases:

□H320 - Causes eye irritation

## **GHS** Precautionary Statements:

- □P261 Avoid breathing dust produced while using this product.
- □P264 Wash face, hands and any exposed skin thoroughly after handling.
- □P271 Use only outdoors or in a well-ventilated area.

## Silicon Carbide - Sanding Screen

Revision Date: 2015-6-2

MSDS Number: NT1501

Page 2 of 8

- □P280 Wear protective gloves/protective clothing/eye protection/face protection.
- □ P285 In case of inadequate ventilation wear respiratory protection.
- ☐P304+341 IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.
- □P305+351+338 IF IN EYES: Do NOT rub. Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.
  - □P337+313 If eye irritation persists: Get medical advice/attention.
  - □P342 If experiencing respiratory symptoms: Get medical advice/attention.
  - □P402 Store in a dry place.

#### 3

## **COMPOSITION/INFORMATION ON INGREDIENTS**

#### Ingredients:

_	Cas #   Percenta	ge 	Chemical Name	
	409-21-2   0-50%		Silicon carbide	
	9003-35-4   5-30%		Cured Resin, Phenol-Formaldehyde polymer	
	9011-05-6   10-30%		Cured Resin, Urea-Formaldehyde polymer	
	1317-65-3   0-25%		Limestone	
	1332-58-7   0-15%		Kaolin Clay	
	N/A   0-30%		Cotton or Polyester Cloth, Mesh or Paper Backing	

#### FIRST AID MEASURES

Inhalation: Blow nose to remove substance from nasal passages. Give oxygen or artificial respiration if needed. If

symptoms develop, move victim to fresh air. If symptoms persist, obtain medical attention.

**Skin Contact:** No need for first aid is anticipated for non-abrasive exposure to product. If reddening develops and/or

persists, obtain medical attention.

Eye Contact: Do NOT rub eyes. Flush with large amounts of water for at least 15 minutes, lifting upper and lower lids

occasionally. If irritation persists, obtain medical attention.

**Ingestion:** No need for first aid is anticipated. If symptoms develop, obtain medical attention.

## Most important symptoms and effects, both acute and delayed:

The most important known symptoms and effects are described in the labelling (see Section 2) and/or Section 11.

### Indication of any immediate medical attention and special treatment needed:

No data available.

## 5 FIRE FIGHTING MEASURES

Flammability: Not classified

Flash Point: DNA Flash Point Method: DNA

Burning Rate: No data available
Autoignition Temp: No data available

LEL: DNA UEL: DNA

Product is flammable when exposed to direct flame. During proper, recommended use of this product, no flammability hazard exists.

## Silicon Carbide - Sanding Screen

Revision Date: 2015-6-2

MSDS Number: NT1501

Page 3 of 8

### **Extinguishing Media:**

Water Spray Carbon Dioxide Alcohol-Resistant Foam Dry Chemical

## **Special Hazards Arising From the Substance or Mixture:**

Aluminum Oxides Calcium Oxides Carbon Oxides Nitrogen Oxides (NOx) Silicon Oxides

### **Advice for Firefighters:**

Firefighters should wear full-face, positive-pressure respirators.

### **Further Information:**

If incinerated, may release toxic fumes.

See Section 7 for more information on safe handling.

See Section 8 for more information on personal protection equipment.

## 6

## **ACCIDENTAL RELEASE MEASURES**

## Personal precautions, protective equipment and emergency procedures:

Use personal protective equipment, including dust respirator.

Avoid breathing dust.

Ensure adequate ventilation.

#### **Environmental precautions:**

No special environmental precautions required.

## Methods and materials for containments and cleaning up:

Pick up and arrange disposal without creating dust.

Sweep up, shovel or collect spillage and place material into suitable container for disposal.

Inspect product for torn or damaged areas. Do not use if product is torn or damaged.

Dispose of contaminated material according to Section 13.

Ensure adequate ventilation.

## Reference to other sections:

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for information on proper disposal.

## HANDLING AND STORAGE

**Handling Precautions:** Ensure adequate ventilation.

Avoid breathing of dust created while sanding, grinding or machining - use dust respirator

while using product.

Avoid contact with skin, eyes and clothing.

Damaged product can break apart during use and cause serious bodily injury, specifically to

the eyes - use safety glasses while using product.

Check product for damages such as tears or cracks prior to use. Do not use damaged

product.

Comply with RPM rating specified on this product.

Comply with ANSI B7.1-2010 Safety Requirements for the Use, Care and Protection of

Abrasive Wheels (if applicable).

Combustible dust may be formed as a result of using this product. Take care to not let

generated dust accumulate.

Accumulated dust may present an explosive hazard when dispersed in sufficient

concentration while near an ignition source.

Collect dust and dispose of regularly.

**Storage Requirements:** Keep away from heat, sparks and flames.

Store in a dry place - keep away from moisture.

Store at temperatures between 40-90 °F at 30-80% relative humidity.

Store away from strong acids, strong oxidizing agents, pure Aluminum and Magnesium.

## 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls: All ventilation should be designed in accordance with OSHA standard (29 CFR 1910.94). Use

local exhaust at filling zones and where leakage and dust formation is probable. Use

mechanical (general) ventilation for storage areas. Use appropriate ventilation as required to

keep Exposure Limits in Air below TLV & PEL limits.

**Personal Protective Equip:** Eye/face protection:

When using material use safety glasses, gloves, and dust respirator according to HMIS PP, E. All safety equipment should be tested and approved under appropriate government standards

such as NIOSH (US) or EN 166 (EU).

Skin protection:

Handling material with gloves is not required, but strongly recommended in order to prevent accidental secondary contact with eyes. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact.

Dispose of contaminated gloves according to applicable laws and practices.

**Body Protection:** 

Safety glasses, gloves and dust respirator are recommended. Type of protective equipment should be selected based on ventilation conditions and other conditions of use of this material.

Respiratory protection:

Use a NIOSH/MSHA dust mask according to 24 CFR 1910.134. Full-face dust respirator may be required as backup to engineering controls when proper engineering controls are not in place to keep TLV and PEL limits below defined thresholds.

Control of environmental exposure:

No special requirements are necessary.

## 10 STABILITY AND REACTIVITY

**Stability:** Product is stable under normal conditions.

**Conditions to Avoid:** Incompatibilities, flames, ignition sources and moisture.

Materials to Avoid: Strong acids, strong oxidizing agents, pure Aluminum and Magnesium.

Hazardous Decomposition: Aluminum Oxides, Calcium Oxides, Carbon Oxides, Nitrogen Oxides (NOx) and Silicon

Oxides.

Hazardous Polymerization: Will not occur.

## **TOXICOLOGICAL INFORMATION**

Component(s): Silicon Carbide; Cured Resin, Phenol-Formaldehyde polymer; Cured Resin, Urea-Formaldehyde polymer;

Limestone; Kaolin Clay

CAS No(s): 409-21-2; 9003-35-4; 9011-05-6; 1317-65-3; 1332-58-7

#### **Acute Toxicity:**

LD50 Oral - Rat: > 2,000 mg/kg

LD50 Dermal - Rabbit: > 20,800 mg/kg LDLo Intraperitoneal - Rat: 300 mg/kg LCLo Inhalation - Rat: 60 mg/m³ (6 h)

**Skin Corrosion/Irritation:** The product itself does no present hazards when used correctly. Mechanical irritation (abrasion) may cause skin irritation.

**Serious Eye Damage/Eye Irritation:** The product itself does no present hazards. Dust created by grinding, sanding or machining may cause eye irritation.

**Respiratory or Skin Sensitation:** Skin allergy was observed in humans and guinea pigs following repeated exposure to this material. Certain sensitive individuals may experience allergy symptoms following prolonged, repeated skin contact with this material.

Germ Cell Mutagenicity: No data available.

**Carcinogenicity:** This product is or contains a component that is classifiable as to its carcinogenicity by the IARC, ACGIH, NTP or OSHA (Kaolin Clay).

IARC: 1 - Group 1: Carcinogenic to humans (Kaolin Clay).

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

NTP: Known to be a human carcinogen (Kaolin Clay).

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

Reproductive Toxicity: No data available.

**Specific Target Organ Toxicity - Single Exposure:** Respiratory system: The product itself does no present hazards. Dust created by grinding, sanding or machining may cause respiratory irritation.

**Specific Target Organ Toxicity - Repeated Exposure:** Respiratory system: Data that exists is not sufficient for classification. Prolonged occupational exposure may be related to pneumoconiosis and/or pulmonary fibrosis.

Aspiration Hazard: No data available.

## **Additional Information:**

Component: Silicon Carbide; RTECS: VW0450000

Component: Cured Resin, Phenol-Formaldehyde polymer; RTECS: SM8542500 Component: Cured Resin, Urea-Formaldehyde polymer; RTECS: YU1610000

Component: Limestone; RTECS: FF9335000 Component: Kaolin Clay; RTECS: GF1670500

## **ECOLOGICAL INFORMATION**

Component(s): Silicon Carbide; Cured Resin, Phenol-Formaldehyde polymer; Cured Resin, Urea-Formaldehyde polymer;

Limestone; Kaolin Clay

CAS No(s): 409-21-2; 9003-35-4; 9011-05-6; 1317-65-3; 1332-58-7

#### **Toxicity:**

Toxicity to fish: No data available.

Toxicity to daphnia and other aquatic invertebrates:

No data available.

### Persistence and Degradability:

No data available.

#### Bioaccumulative potential:

No data available.

#### **Mobility in Soil:**

No data available.

## Results of PBT and vPvB assessment:

Not required/conducted.

### Other Adverse Effects:

An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

## 13

## **DISPOSAL CONSIDERATIONS**

Product: Hazardous wastes shall be managed responsibly. All entities that store, transport or handle hazardous waste shall take the necessary measures to prevent risks of pollution, release into the environment or damage to people and animals. Contact a licensed professional waste disposal service to dispose of this material. Consult all applicable authorities and regulations to ensure proper classification. Any abraded material remaining on used product (from the substrate being abraded) may need to be considered as a factor in the disposal classification, method or handling of used product.

Contaminated Packaging: Dispose of as unused product.
