Landscape design

Landscape design is the art of transforming gardens into beautiful landscapes that perfectly combine culture and nature

You want an engaging play area for children? Exciting and functional outdoors and entertainment areas?

Or a serene and shady nook for quiet garden enjoyment?

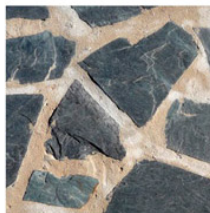

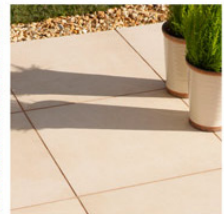

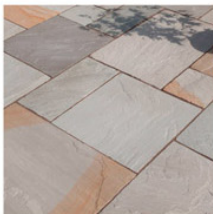

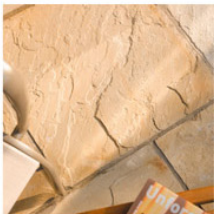

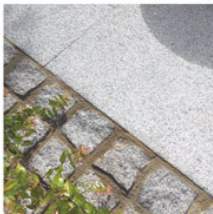

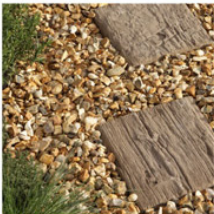

From a dull-looking garden into fairy tale scenery that blends natural beauty with manmade materials and provides comfort and tranquility. We also keep a close eye on practical considerations such as budget, site analysis, and choosing the appropriate plants.

Paving

We use a rich variety of paving slabs reminiscent of the textures and finishes of elegant, top-quality materials

Paving involves the use of components called pavers to make up the surface of driveways, walkways, pathways, patios and terraces. Our wide range of paving styles will give you an idea of how to transform your outside space.

Paving Driveways

Our professional landscapers will help you choose the best material according to the climate, the look you are going for and whether you want a decorative design or a grid of grass.

How your driveway entrance is landscaped, sets the tone for the viewer's perception of the whole garden.

The material you select for your driveway must be attractive and durable

pavers

gravel

concrete

Paving Patio

We offer the finest gardeners in London to create a perfect solution for your patio.

We can supply the materials and kits for accurate arrangement and spacing, including designing, sizing, laying the pavers and adding curves.

QUADRANGLES

WAVES

CIRCLES

BRICKS
BLOCK PAVING
TILES
COBBLES

The wide range of garden paving and slabs allow you to create a really unique, beautiful and permanent arrangement of your patio

We also offer professional and comprehensive patio cleaning service performed by experienced cleaners fully equipped with modern jet washing machines.

Garden Walkways

With a little planning and effort, they can completely turn around the aesthetic value of a garden or outdoor home passage. Our advice is to think out-of-the box and let creativity lead the way.

- giant rocks
- bricks
- wood logs
- simple stone and grass mix
- original garden walkway
- mosaic-tiled design
- stepping stones

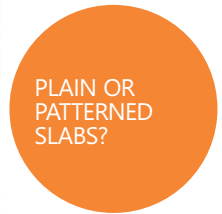

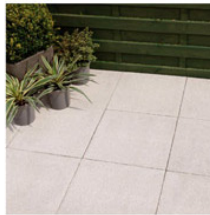

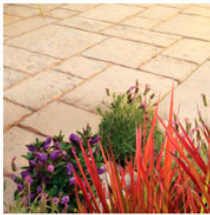

CAPABLE OF MAKING
EVEN THE PLAINEST
GARDEN LOOK
PICTURESQUE
AND MAGICAL

Paving Slabs

Whether you are looking for concrete, granite, slate, limestone or sandstone, you can be confident that we will supply the right material that meets the requirements of your project.

Our landscape designers will help you choose the best material and form according to the “wow” effect you want to go for.

Pavers

Timeless or modern pavement?

Creating beautiful landscapes is what we do. Enhance your outdoor living space with durable and attractive interlocking patio stones, driveway pavers, steps, pathway edging, retaining walls in concrete, stone and brick.

Handy Gardeners will help you decide on the best pavers to suit your requirements and tastes.

We offer a wide array of colours, sizes and technical specifications.

Decking

Decking is a great landscaping option for outdoor spaces of any size. We will help you find, plan and install the right decking for your space, whether it is large or medium-sized garden, balcony or terrace. Choose from extensive range of decking materials coming with guarantee for reliability and durability:

- hardwood or softwood decking
- composite or timber decking
- grassdeck or walksure laying decking tiles
- installing decking handrails

Decking is a great
landscaping option
for outdoor spaces

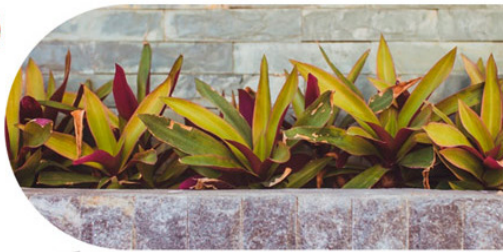

Garden Walling

When carefully engineered, garden retaining walls become a beautiful and practical element in the landscape. Art and creativity are key words when it comes to building a retaining wall! Classic materials for walls:

bricks

stone

concrete

wood

Amongst the hardscaping services we provide, we are pleased to offer building of retaining walls as well, so sit back and relax and let us do the hard work for you: from the project to the building of your dream wall, we do it all and beyond.

MODERN IDEA:
GABION BASKETS
FILLED WITH
RIVER ROCK
COBBLESTONE

Fencing

Fences are largely used in many English homes and gardens. Garden fence installation creates a haven for many homeowners.

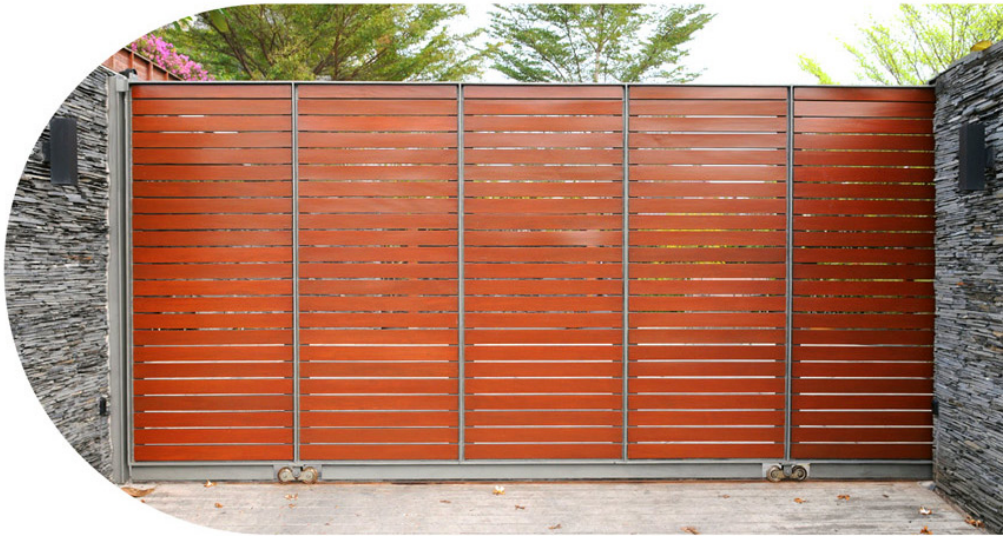

Traditional

We work with a great range of fencing materials:

- classical fencing panels
- decorative fencing panels
- garden gates
- garden trellis and screens
- hedging fences
- fence posts

Contemporary

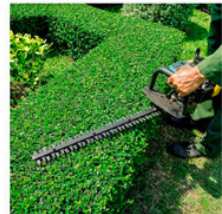

The most commonly used materials to build fences are wood, bricks, metal, aluminum and vinyl. Wooden garden fences enhance the look and feel of your property. They could be made of:

- picket fence panel
- closeboard fence panel
- lap fence panel
- pressure treated super panel
- featheredge fence panel
- paloma fence panels
- composite fence panels
- trellis and screens

Fence Types

BRICK FENCES ARE ALSO A STABLE AND ENDURABLE CHOICE

Wouldn't you love enjoying a lovely lush, velvety green lawn, all year round?

Lawn Installation and Repair

We will assist you in creating your new lawn or maximizing your old lawn true potential by:

- Lawn planning and designing
- Lawn installation – laying sod, planting seed, hydroseeding and installing artificial turf
- Regular lawn maintenance
- Seasonal lawn care services – aeration, fertilising, and coring
- One off treatments of weeds, pests
- Lawn restoration and repair – lawn replacement, re-laying or re-seeding

HANDY GARDENERS
WILL PROVIDE YOU WITH
EVERYTHING YOU NEED
FOR HAVING AND
MAINTAINING
A HEALTHY LAWN

Lawn Turfing and Seeding

Brand new lawn laid or re-turfing of your old one?

What makes the best lawn?

- turfing - synthetic or natural
- seeding grass

Turfing by installing synthetic or natural sods is the quickest and easiest option for smaller outdoor areas.

TYPES OF TURF:

- Artificial turf is environmentally friendly, best for easy upkeep and year-round vibrancy, stands up to heavy use and requires no irrigation or trimming.
- Natural turfgrass – requires frequent watering and weeding, but it is extremely healthy and safe.

Let our turf installation specialists help you select the most efficient solution for your lawn.

Garden Re-Design

We turn landscapes into dreamscapes

IF YOU ARE LOOKING
FOR INSPIRING GARDEN
DESIGN OR RE-DESIGN
IDEAS, YOU HAVE COME
TO THE RIGHT PLACE

Following the basic landscape
design ideas:

color
form
line
scale
texture

Our experts will join efforts and
knowledge and create miracles
with your outdoor space.

Retain the essence of your present
design with simple restoration or opt
for changing a tired scheme into
a contemporary design?

- design garden layout
- mulching and soil enrichment
- create rock beds and flower beds
- sod installations
- build retaining walls
- patio, decking and fencing
installation
- garden edging
- sheds building and renovation

Commercial Landscaping

Our expert gardeners can tailor services to suit your property grounds and arrange a gardening schedule that suits you, from a single tidy up to regular ongoing maintenance.

We can make any commercial property look as aesthetically pleasing as possible:

- sports clubs
- manor estates
- courts and flats
- hotels
- student let properties
- pubs

For any property grounds we provide services that keep them looking exceptional all year round:

- comprehensive commercial landscape management
- general and seasonal commercial garden maintenance

Sheds

Whether it's garden storage, planting or simply for relaxing - nothing quite beats a shed and here at Handy Gardeners, we will combine our skills and creativity to either build a new shed or renovate your old shed.

Garden sheds can be of different design, colour and shape:

Basically, we are witnessing a shed renaissance! Our projects and ideas for shed conversions are nearly endless and we will employ our ingenuity in order to transform your old shed from an "ugly duck" to a "beautiful swan".

Sheds: Renovation or Building

We will employ our ideas and practical skills to construct or completely transform your shed and here are just a few designs you can choose from:

- Traditional, symmetric shed
- Rustic shed
- Home office shed
- Potting shed
- Storage shed
- Modern-looking shed

Whether you need garden shed remodeling or replacement of your old outbuilding, we can help expertly.

A photograph of a green garden shed with a black roof, situated in a garden. The shed has a gabled roof and a door with a black handle. It is surrounded by lush greenery, including ivy on the left and a potted plant in the foreground. The scene is brightly lit, suggesting a sunny day.

We can also add landscaped beds, decorative accents, or small patios to give it a fresh new look

Planting and Transplanting Services

Every garden can benefit from our specialists' advices for growing picture-perfect:

- perennials – plants that live for more than two years
- annuals – plants with a life cycle that lasts only one growing season

Consider the following when designing your garden:

- hardiness
- colour
- fragrance
- height
- time of blooming
- size of plants
- growing space
- soil

A garden filled with flowers will enliven any landscape

Transplanting refers to taking a pre-grown plant and replanting it into your garden. Our experts know when is the best time of the year to move your garden flowers.

Tree Surgery

As scary as it may sound, tree surgery is the most necessary horticultural maintenance that involves:

- felling trees
- pruning branches and shrubs
- planting
- replanting
- splitting logs
- hedge-cutting

Our tree surgeons use only professional arboricultural equipment and machinery even for the easiest and smallest jobs and thus they strive for nothing less than perfection

Our team of skilled tree surgeons have a deep understanding of how the tree works and they will strictly follow all safety procedures and will do planting, care and maintenance and tree hazard assessments to ensure a top-quality performance.

WE OFFER YOU
A YEAR ROUND TREE
SURGERY SERVICES

YOUR TREES ARE
IN SAFE HANDS!

Landscape edging - borders

Using landscape edging accentuates each garden area and defines the shape and form of the overall design. Simply choose the material you think is best for you edging:

BRICK

PLASTIC

CONCRETE

WOOD

STONE

WATTLE

And our skilled landscape specialists will set it firmly in place so that neither mowers, nor garden arts, children, or your shoes could unsettle it. If you have troubles deciding on which design to go for, you can rely again on our expertise to point you to the right direction since the wrong choice can be a distraction.

Flower borders

FOR YOUR EXISTING
BED, WE OFFER REGULAR
MAINTENANCE SERVICES,
WEEDING, PLANTING
AND ETC

Do your flower borders
make you smile when
you pass by them on the
way to your mailbox?
They should.

If they do not, then you may need some professional ideas to jazz up these areas that are so critical to the overall appearance of your yard.

Your first step to creating a beautiful border is to ask yourself the following questions:

- Is your garden sunny, shady or a bit of both?
- What is the type of your soil - is it acid, lime or neutral, sandy, loam or clay?

Irrigation services

Irrigation systems can provide substantial savings in water usage without you having to lug multiple hoses around your yard to keep grass, flowers and shrubs green.

When it comes to landscape irrigation, our best advice is to decide on which type would be best for your garden:

- Micro-irrigation
- Rotary Sprinkler
- Flood System
- Spray Irrigation System

Except for their professional advice, our experts will use their deep knowledge in this matter to both design and install your irrigation system.

Drainage system

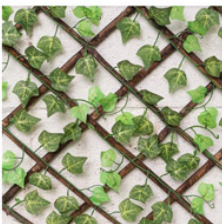

Good drainage is crucial for growing many garden plants and it is suitable for any wet soil such as the English, where there is nowhere for surplus water to go.

We know how disruptive and difficult it is to install a drainage system when the soil is wet and we will wait until the ground conditions are driest in order to achieve maximum results so you can enjoy a properly installed system.

Here is where our professional landscapers can be of the best service to you as they will offer you the best type of drainage for your garden and will install it within reasonable timeframe

Garden Decoration

Creating stylish landscapes by following garden trends and providing you with curated collection of tools and ideas for your entertaining outdoors is what we do

There are endless ways in which you can make your garden a wonderful space to enjoy.

Decorating is always fun and you simply need to employ your imagination and rely on our professional team and together, we can work miracles in your garden.

You can go for:

- outdoor lighting
- garden ornaments
- water features
- garden furnishing
- planting and design inspiration
- using colour artfully and creatively
- gazebo, arbour or garden arch
- creating a striking focal point

Landscape Maintenance

Keeping your landscape healthy, clean, safe and attractive is an art and vocation for Handy Gardeners.

Our landscape maintenance includes but is not limited to services such as:

- complete lawn care
- hedging and trimming
- weed control
- water management
- tree care
- landscaping construction, minor repairs or full replacement
- evaluations of plant health and fertilization
- landscape enhancements

We believe in providing you with exceptional landscaping services and making every outdoor space we service functional, beautiful and one-of-a-kind

WE CAN HELP YOU
CAPTURE THE TYPICAL
ENGLISH BEAUTY
WHEREVER YOU
NEED IT

Additional Landscape Services

Hence, we offer additional garden improving services that complete the overall appearance of your landscape:

- pointing and patch re-pointing
- compost application
- bark mulching and fertilization
- seasonal garden care
- pruning and cleanups
- sustainable design
- water features maintenance
- pressure washing
- seasonal colour plantings
- garden finishing touches

Our Projects: Landscaping in NW7

The customer contacted us about a landscaping project and we immediately responded. The place was a complete mess, with rubbish all over, pipes sticking out, and the whole lawn a big ruin. But it was not that big of a challenge for us.

Our Projects: Landscaping in N19

THE GARDEN
IS TRANSFORMED
INTO A BEAUTIFUL
AREA

Our Projects: Landscaping in N19

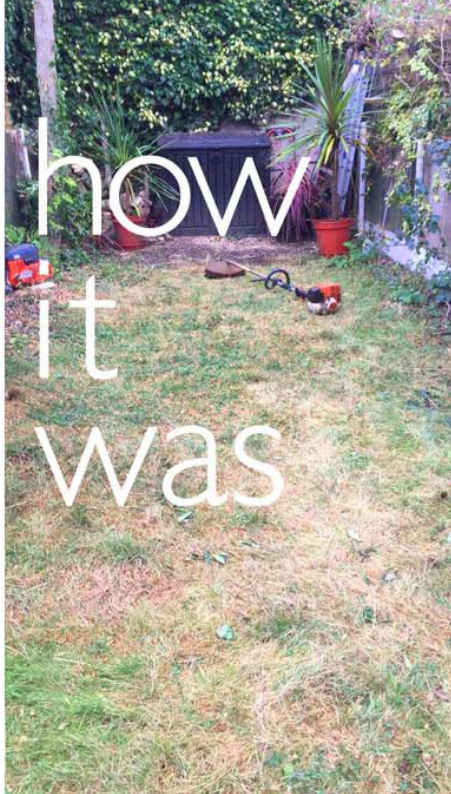

A beautifully landscaped garden is a sure way to embrace the indoor-outdoor way of life by transforming your green area into a comfortable and cozy retreat where the entire family spends quality time.

 **8** hours

 **2** gardeners

 **15** m² patio

 **20** m² lawn

Our Projects: Landscaping in SE1

1 Green waste + slabs and shed disassembling and removal

2 Leveling- creating 2 levels - sand and pebbles 46 sq meters

3 Paving the area of 46 sq meters

4 Jet wash 30 sq meters

Our Projects: Lawn Returfing in NW3

I just wanted to let you know what a fantastic job they did and how easy and accommodating they were throughout the day

Feedback of the garden owner

Our Projects: Landscaping in SE22

1

First the hard working landscapers cleared the overgrown garden back to a blank canvas in preparation for the new garden design. In addition to the excessive greenery that they dealt with there were a few stumps to be removed.

2

And then it became time to level the area before laying the new grass and make the garden up to the client's standard. They piled new soil on even rows and started raking it across.

3

Then we were ready to lay the turf. The team made sure that the ground was prepared. The client preferred to use natural turf so we turned the backyard to a small piece of green paradise.

WE ARE FOCUSING ON REFLECTING OUR CUSTOMERS' IDEAS AND MAKE THEM ALIVE

1 We started by removing some bushes and tidying up of the whole area

Our next step towards perfection was to lay out the turf **2**

Replacing the existing patio **3**

This project was performed in a day by the impeccable planning of every step **4**

Our Projects: Lawn Returfing in N4

After just 8 working hours in one day customer got a completely re-designed garden, ready for lunches and dinners with guests and family

from
£ 96 per hour

Our Projects: Landscaping in N8

1 On our way to create a beautiful front garden we had to clear the area from the excessive greenery, shrubs and old gravel.

We leveled the ground and used a membrane as a base beneath the brand new aesthetic gravel we had provided for our client.

3 We used cement borders which developed a finishing touch to the gravel area. They framed the tiled pathway in an astonishing way.

4 Our knowledgeable experts built a high quality and good-looking fence for our dear clients.
