

THE COMPLETE BUILDING MAINTENANCE PACKAGE

THE COMPLETE BUILDING MAINTENANCE PACKAGE

With a highly trained, multi-skilled and motivated workforce, Stonesby provides the complete Planned & Reactive service our customers demand.

All jobs are dealt with promptly and efficiently by staff with corporate workwear and photographic ID. We take pride in providing quality in house training for all staff on an ongoing basis.

All field staff are CSCS / CRB registered.

Organisation & Efficiency

So what is it that sets us apart from the rest of the industry?

Well, a good, fast service should be taken as read, but our core strength and the key to our success is organisation and efficiency. We have been established since 2009 and our back office staff expertise is second to none, ensuring the right operative is matched to each job.

Operatives are fully briefed on all elements of the job in hand, are properly equipped and trained to ensure a successful outcome. Getting it right first time, every time is our aim, leaving your premises clean and tidy after each job.

Furthermore we strive to continuously improve our service. We encourage and welcome constructive feedback from clients and suppliers and take action to make our service better. If anything does go wrong, we do everything in our power to put it right, without delay, without fuss.

Each customer has different expectations and requirements, so our job is to listen, interpret and work with you to find optimum solutions. Our business ethic is to build strong working relationships with customers over a long period of time.

Telephone 0116 2867127

office@stonesbyservices.co.uk

We are experts in all the main building trades, providing clients with all types of property services: everything from total re-fits to on-going repairs.

Instead of dealing with multiple contractors who each deliver an individual trade - at Stonesby we have all the trades under one roof and can not only deliver the full scope of property services, but also manage entire projects.

This means a single point of contact, minimal disruption and reduced costs for you

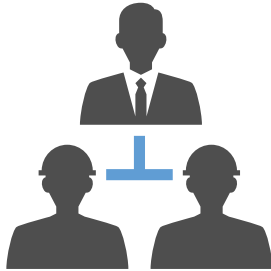

Health and safety

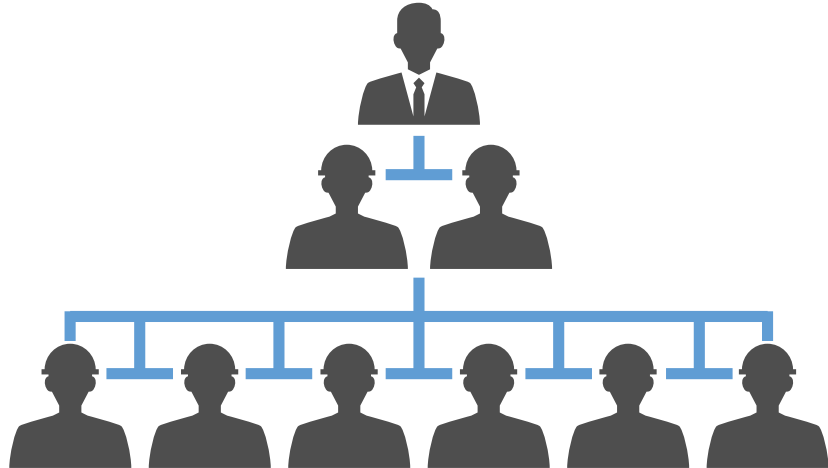

Health and safety is number one priority at Stonesby.

We have a Health and Safety partner who monitor our health and safety procedures and work hard to constantly improve them. We have a health and safety record to be proud of and all the required systems and processes in place to enable us to plan, monitor, communicate and review our management of health and safety.

How we can help you...

All jobs need completing
but can your maintenance
team complete all the jobs?
