

## The Eastbourne Modular CP Toilet

This hassle free, modular Changing Places toilet not only creates inclusion for those who need it most, but also provides you the tool to capitalise on the 'Purple Pound'.

The Eastbourne provides over 12sqm of internal floorspace, a minimum internal ceiling height of 2.4m and premium equipment throughout. The safe, hygienic environment exceeds BS 8300 compliance and includes unique extras such as a bespoke feature wall. Aesthetics can be tailored both inside and out. The external shell can be clad in materials to compliment your existing buildings or environment, plus we provide a wide range of internal colours and finishes.

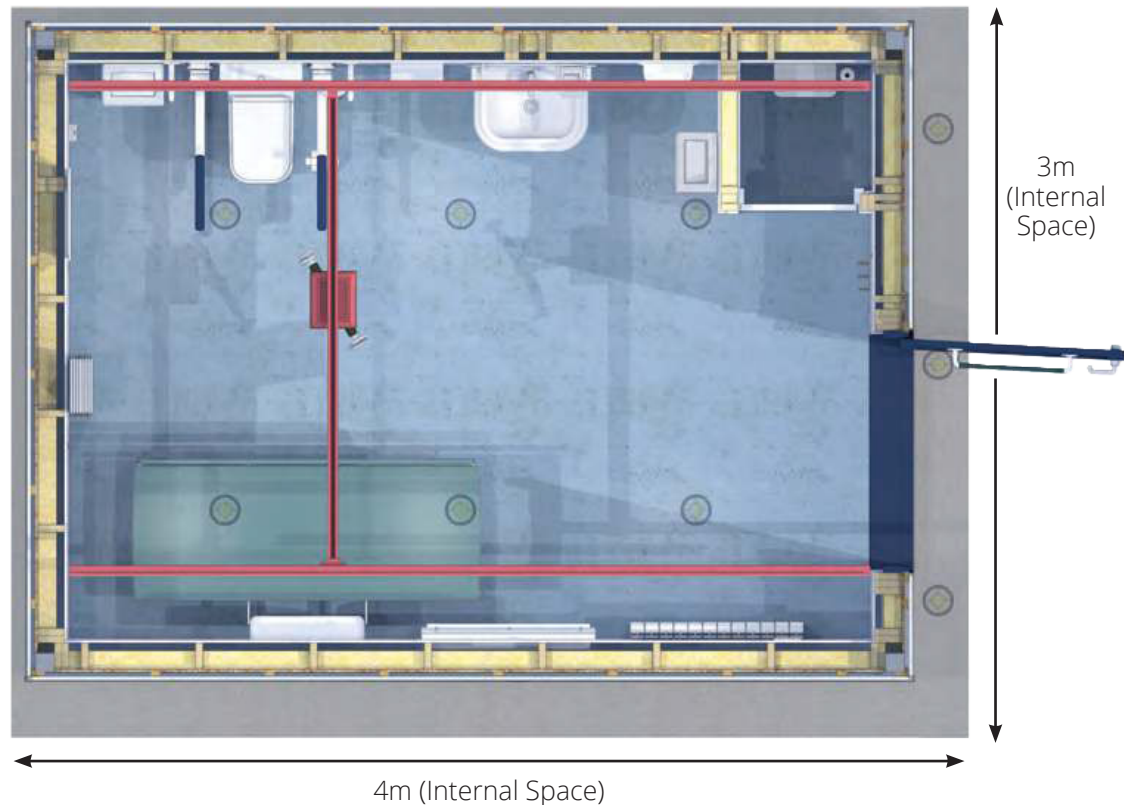

The Eastbourne facility is delivered and lifted into position on-site as a complete unit. This minimises disruption to any existing buildings, whilst accelerating build times and improving quality control.

The Eastbourne
