

Filming and photography permission form

We are filming for Genie. Genie is a computer program or online tool to help people in our communities to stay well. Genie is a not-for-profit project that is paid for in part by health organisations and was created with the University of Southampton.

We would like to ask your permission to use pictures or video footage of you to promote voluntary groups, events and activities in the local community. These videos will be online at <https://vimeo.com/groups/genievideos> and will be used to help people see what is happening in their community.

Genie intends to work with people to help develop their involvement and networks in the local community. We are asking students and volunteers to make these films for free to support Genie.

If you are happy for your picture or any footage to be used for this purpose and for promoting health research then please sign this form. Thank you.
