ENGINE DIVISION

Engine Division Expertise

About us

CTS Offshore and Marine has a specialised Engine Overhauling and Repair Division for Offshore, Marine, Oil & Gas sector. Routine Diesel Engine Overhauls Repair and Maintenance is one of our core services. Our team consist of skilled engineers and mechanics with shipyard, OEM, and sea going experience of working on a wide range of diesel engines.

With deep engineering and technical skills, we are able to quickly assess the requirements and get down to completing the job. As an engine specialist, CTS Offshore and Marine service and repair a wide range of diesel engines. Routine maintenance and major repairs on all major makes of main and auxiliary engines are our specialty.

Engine Division Services

What we offer

ON SITE REPAIR AND MAINTENANCE

CTS Offshore and Marine is present in 7 locations around the world, from where we service our clients worldwide. Our depth of resources allows us to mobilize diesel engine teams anywhere in the world to respond to any type of requirement fairly quickly. Performing routine overhauls, troubleshooting performance issues or undertaking the diagnosis and restoration of a catastrophic engine casualty is what we do every day. We also handle new installations and retrofits.

TROUBLE SHOOTING

Our job often starts with trouble-shooting the root cause of major failures. In this case, there are few companies in the world, if any, that can diagnose, plan and execute restoration from a catastrophic failure all with its own resources like CTS. The depth of our capabilities in diesel engine service make us truly unique in the market today.

Engine Division Benefits

Why choose our engine division?

Reduced cost of running the engine :

- Better fuel economy
- Reduced lube oil consumption
- Drastic cut down on breakdowns, thereby reducing cost of very expensive stoppages
- Reduced spare parts cost, due to better engine maintenance
- Training to ship's crew on various steps, and impart much needed practical training to crew
- Peace of Mind
