# ADA WINDOWS LTD

“Hello”

Ada Windows Ltd is a FENSA registered company with its production factory in North London. We design, manufacture, install and carry out repair works on PVCu and aluminium products. With industry experience since 2001, the company expanded its product supplies to cover commercial sector requirements, including shopfronts and pergola systems while enriching its residential window and door products portfolio. As fabricators, the company currently supplies retail clients alongside local and regional trade clients including window fitters, architects and property developers. Ada is constantly working to introduce the latest technologies into the market while ensuring clients are provided with satisfactory service levels. You can rely on us.

**Interested in becoming a trade partner? Get in touch to discuss your requirements.**

# Secure... Beautiful... Efficient

We specialise in making homes like yours more secure and more beautiful. This is achieved by using expert installers to fit the most advanced products in the industry at exceptional standard. Unlike traditional PVC-U windows and doors, our range has been designed to provide greater security. With high energy rating, our products provide greater warmth too, especially during the winter cold so you can turn your home into a lean green energy-saving machine.

# PVCu Windows

*“Modern, energy efficient window systems that keep your home warm and helps reduce your energy bills”*

- ✓ 10-year Insurance Backed Guarantee (IBG)
- ✓ British Fenestration Rating Council (BFRC) achieved materials

# High Security Composite Doors

## Benchmark Range

# Energy ratings

### Save money and the planet with a Benchmark door

Energy efficiency is important to all of us. We all want to be more energy efficient, to reduce our fuel bills and to protect the future of our planet. A Benchmark composite door is the perfect way to improve the energy efficiency of your home.

As standard, our doors without glazing panels enjoy an A+ rating while glazed doors carry a still comparatively impressive B rating. You will also see a U-value rating on all our doors which is a technical measurement of heat loss through a structural element. The lower the U-value the better the energy efficiency.

A+

Unglazed

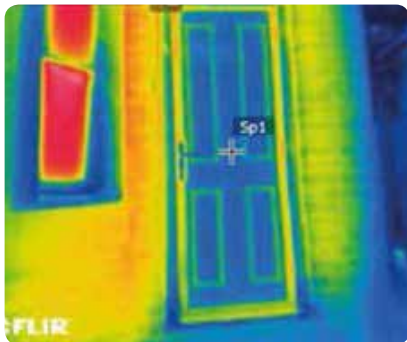

B

Glazed

**Look out for this icon - Low E, energy efficient glazing available as standard**

Wherever you see this icon in our glazing options, we will supply our Low E, Argon filled units without any extra cost. Glazing in a GRP composite door will always reduce its thermal efficiency but by installing our Low E option, we can help negate that effect, which is better for the environment and better for your pocket.

Showing thermal efficiency of a Benchmark door - blue being the most energy efficient and showing very little heat loss

Saving money and saving the planet

# The Moorgreen

SG15

The **Moorgreen** is the classic dual glazed option making a smart statement for your home. Choose from our wide range of decorative glazing options to add an additional personal touch.

## Crestings &amp; Finials

One of the most visually striking aspects of the roof are the finials and crestings

The interlocking PVC-U sections of the crestings incorporate an interlock that ensures once connected they remain in a perfect line. There are decorative finial designs to suit every home and these are available in suited colours.

# Warmcore Aluminium Doors

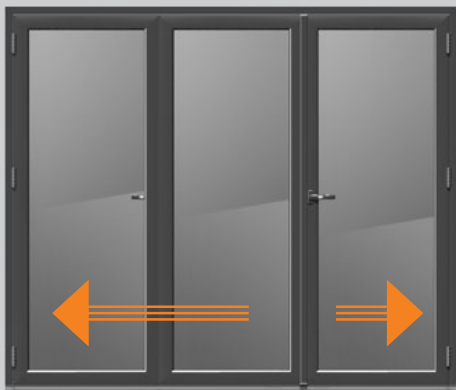

**DOOR CONFIGURATIONS**

WarmCore doors are described as a set of 3 numbers - the 1st is the total number of door sashes, the 2nd refers to the number of door sashes that open left and the 3rd the number that open right (when viewed from the outside).

# Warmcore Aluminium Windows

## warmcore<sup>®</sup> ALUMINIUM WINDOWS

Built around a belief that beauty doesn't have to compromise performance, WarmCore aluminium windows were created out of a desire to combine the desirability and durability of aluminium with unparalleled insulation. The unique, full width thermal core is key to why WarmCore windows are 25% more thermally efficient than traditional aluminium systems.

### **BUILT WITH A REVOLUTIONARY THERMAL CORE AT ITS HEART**

Strong and secure, WarmCore windows come with multi-point locking, internal beading and are backed by a 10 year product guarantee - helping keep you and your home safe. Available as casement or tilt and turn windows, and with a flush sash option that brings the outer frame perfectly level with the opening part of the window - WarmCore windows are the perfect warm, secure and beautiful addition for your home.

**MODERN, UNCLUTTERED AESTHETICS**

**COLOUR OPTIONS**

Available, as standard in a choice of 2 powder coated colours with other colours available to order, WarmCore also allows you to pick a different colour for each side of your window. Want a colour outside with white inside to leave you free to change your interior in the future? – with WarmCore that’s no problem.

**STYLE OPTIONS**

A choice of 2 external sash and outer frame designs enable you to personalise WarmCore windows to suit the style of your home. Pencil round styling helps to give a softer aesthetic, while Square styling creates a precise contemporary look.

*Please note, the colours and finishes shown in this brochure are as close as the printing process allows. Product specification may be subject to change without notification as part of product improvement.*

# Pergola Systems

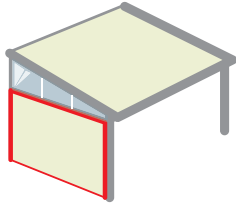

Get in touch to discuss your requirements.
