

GÖLZ[®]

70 *Years*

Since 1946

Your partner for professional solutions
powered by 70 years of experience

Innovative and Expansive for 70 Years

Since our founding in 1946, GÖLZ focuses on quality, service and innovation. Together with our customers, we constantly develop on new concepts and solutions for professional work with diamond tools and equipment. Our products are sold in over 40 countries through our own sales and service centres, or through trained distributors.

Diamond Tools and Machines under one Roof
GÖLZ – Your Partner for Professional Solutions in the
Drilling and Sawing Industry

Core Drills

Professional solution for easy and convenient operation in road and building construction

Table Saws

High precision cutting of tiles, bricks and blocks

Floor Saws

Compact machines for in- and outdoor application

Wire Saws

Easy to handle for deep cutting and demolition of industrial plants

Slurry Fox

Economical solution of slurry recycling

Surface Preparation

Small and compact machines for small grinding jobs

Hand-Held Power Tools

Powerful machines for a wide range of tasks

Diamond Blades for electric angle grinders

Ø 115 - Ø 230 mm

DS21/22

Diamond Cup Grinder
Concrete general purpose

LM50T

Concrete, Stone – sintered
It is suitable for mortar and universal
like concrete and bricks

LGB30

Premium Diamond Blade – laser-welded
For professional cutting of extremely
hard granites, 10 mm turbo-segment

Diamond Blades for electric angle grinders

Ø 115 - Ø 230 mm

GX-U12

X-Series - sintered - concrete, exposed
aggregate concrete, bricks, general
purpose. Precise diamond arrangement

MX1

X-Series - laser welded - granite,
clinkers concrete, reinforced concrete,
exposed aggregate concrete and bricks

LCP1

Concrete Premium – laser-welded
High-Speed Saw Blade for concrete, exposed aggregate concrete,
hard bricks, clinker and material with hard components

Diamond Blades for Hand-Held Power Cutters

Ø 300 - Ø 400 mm

STARDUST

Universal! High-Speed Cutting Blade
for concrete, steel, stone, cast iron,
PVC and wood

LCP1

Concrete Premium – laser-welded
High-Speed Saw Blade for concrete, ,
hard bricks, clinker and hard material

RX1

Allround – laser-welded
concrete, reinforced concrete, clinkers,
granite, general purpose

Diamond Blades for Tile-, Table- and Block Saws

Ø 180 - Ø 1000 mm

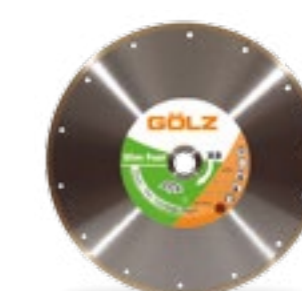

BS30

Limestone standard
Sandstone, poroton, pumice, bricks,
abrasive concrete

WHISPER RX1

Concrete, general purpose –
laser-welded; Diamond blade with
Sandwich Silent Core

SLIMFAST

Premium Plus Quality - sintered
High-Speed Cutting Blade for
Ceramics, fine matter, tiles, marble

Diamond Blades for Floor Saws

Ø 350 - Ø 1200 mm

AS85

Asphalt Premium - laser-welded
For Floor Saws up to 15 kW

LT30

Universal – laser welded
Concrete, reinforced concrete,
bricks, middle hard clinkers

GX200

Galaxis concrete saws for floor saws
Ideal performance due to special
diamond technology!

Diamond Grinding Tools & Diamond Wire

GÖLZ Diamond grinding tools are equipped with
Easy-Slide-System which allows easy and quick
change of diamond tools without any working tools.

Standard and premium diamond wires
for professional application in concrete,
reinforced concrete, natural stone and steel.

Dry Hollow Drills

Dry Drilling System without hammer for joint boxes

Drill swivel for sucking off the dust by standard industrial vac

Ring segments
10-50 mm

Roof segments
25-500 mm

Galaxy segments
systematic diamond arrangement

Diamond Drill Bits 1¼" UNC

Diamond Core Drill 3-hole Flange

Diamond Drill Bits R½"

Drill Bits for concrete, reinforced concrete, brickwork, asphalt, granite and ductile cast iron pipes
Excellent performance with good lifetime

Deep drilling system with or without core lifter

Drill range up to 200 mm

Extension tube 500, 750, 1000 mm

Core Drilling Machines

Core drilling machines for different applications in building construction.

Adaptable with numerous electric, gasoline, pneumatic and hydraulic motors.

KB110

The compact, lightweight and easy solution for all installation and fastening holes from Ø 10 - 162 mm

DS250S

Reliable core drilling machine for all installation holes up to Ø 250 mm

KB125

Lightweight and solid core drilling machine with roller carriage. For all installation holes up to Ø 250 mm

KB250

Lightweight and professional core drilling machine for holes up to Ø 300 mm

KB130

The established and proven Core Drill Set for the construction site up to Ø 250 mm

KB400

Heavy User core drilling machine with combined slider/roller carriage. For holes up to Ø 400 mm

KB500

Heavy User core drilling machine with combined slider/roller carriage. For holes up to Ø 600 mm

Pneumatic and gas powered Core Drilling Machines

Core drilling machines for road works, sewage pipes and building construction.

Powered by STIHL 2-stroke motors are the most flexible solution in the construction industry.

KB150 AIR

Multipurpose core drilling machine for the sewer, road and building industry

KB150 GAS

Multipurpose core drilling machine for the sewer, road and building industry

KB200 GAS

Specially designed for taking core samples from roads or installing barrier posts and different kind of bollards

KB350 GAS

The original and most modern solution in pipe and sewage drilling for house connections and surface water with GÖLZ KB 350 and Stihl-2-stroke-engine

Hand Held Core Drilling Machines

Hand Drills for dry drilling in soft bricks and wet drilling in concrete, reinforced concrete and stone.

For several applications as fixings, installations and openings for gas, water, heating and air supplies.

TB10S

Single Speed Dry Drilling Hand Held Core Drill. Dry drilling with and without dust collection for switches and junction boxes

FB20P

3-Speed Hand Held Core Drill. For hand held or drill stand operation

FB23P / FB25P

2-Speed Heavy Duty Hand Held Core Drill. Compact Core Drill for anchor and installation holes

FB33P / FB33S

3-Speed Heavy Duty Hand Held Core Drill. Powerful core drill with full metal housing for hand held or drill stand operation

Tile Saws and Granite Saws

Powerful and robust table saws for the building construction and stone market.

TS200

Tile Saw,
Cutting length 720 mm
Blade Ø 200 mm

TS250

Tile Saw,
Cutting length 720 mm
Blade Ø 250 mm

GS350

Granite Saw
Cutting length 1.200 mm
Blade Ø 350 mm

GS350A

Granite Saw
Cutting length 2.000 mm
Blade Ø 350 mm

Masonry Saws

MS350C / L

MS350C - Cutting length 560 mm
MS350L - Cutting length 700 mm
Blade Ø 350 mm

MS400

Cutting length 700 mm
Blade Ø 400 mm

MS400A

Cutting length 800 mm
Blade Ø 400 mm

MS700A

Cutting length 650 mm / 800 mm
Blade-Ø 700 mm

Block Saws

BS400E / P

Cutting length 800 mm
Blade Ø 400 mm

BS600

Cutting length 400 mm / 600 mm
Blade Ø 600 mm

BS650

Cutting length 500 mm
Blade Ø 650 mm

BS1000

Cutting length 600 mm
Blade Ø 1.000 mm

Floor Saws / Push Saws

Powerful and heavy duty floor saws for cutting in concrete and asphalt.

Versions available with various gasoline, diesel and electric engines for different applications.

FS125

6,5 PS Honda gas engine
Blade Ø 350 mm
Cutting depth 120 mm

FS175

13 HP Honda gas engine
Blade Ø 450 mm
Cutting depth 165 mm

FS170

Gasoline, Diesel or Electric motor
Blade Ø 450 mm
Cutting depth 165 mm

FS17

13 HP Honda gas engine
Blade Ø 450 mm
Cutting depth 170 mm

Floor Saws / Self Propelled

FS190

13 HP Honda gas engine
Blade Ø 500mm
Cutting depth 190 mm

FS250B / D

25 HP Honda Gas Engine / 20 HP Hatz Diesel Engine
Blade Ø 800 mm
Cutting depth 310 mm

FS240SE

7,5 kW-400 V 3-phase electric motor
Blade Ø 800 mm
Cutting depth 330 mm

FS40E

15 kW-400 V 3-phase electric motor
Blade Ø 1000 mm
Cutting depth 400 mm

Wire Saws

Compact and powerful wire saws on drill-rig.

Slurry Fox

Portable slurry solutions for concrete slurry resulting in the separation of solids and water. Complete solutions for the concrete cutting, floor grinding, precast and ready-mix industries.

KS400

Portable compact wire saw for small cutting jobs from 400x400 mm to 800x800 mm

KS600

Compact and high performance wire sawing in construction structures

HA15S

Drive unit HA15S with remote control suitable for hydraulic wire saws, wall saws and drilling

SFP3L

The compact and mobile solution for your day to day operation

SFP8L

Mobile and also stationary Slurry filter press for continuous operation on the jobsite or on the yard.

SFP647

For industrial use on the construction site or in concrete and stone factories

Grinding Machines / Dust Vacs

SM280

Highly efficient range of grinding machines in 230 V

SM400S

Grinding and polishing equipment for professional surface preparation and finishing in 400V

VC2800

Industrial vacuum cleaner 230V with two-filter technology for singledisc grinding machines

VC40

Professional vacuum cleaner 400V for medium-sized grinders with automatic filter cleaning

Hand-Held Power Tools

SF150 WALL CHASER

Powerful Wall Chaser - Designed for your safety and comfort

ES 350 ELECTRIC CUT OFF SAW

Electrical Cut Off Saw for wet an dry operation. The allround saw for most of your sawing requirements up to a cutting depth of 130 mm (5 inch)

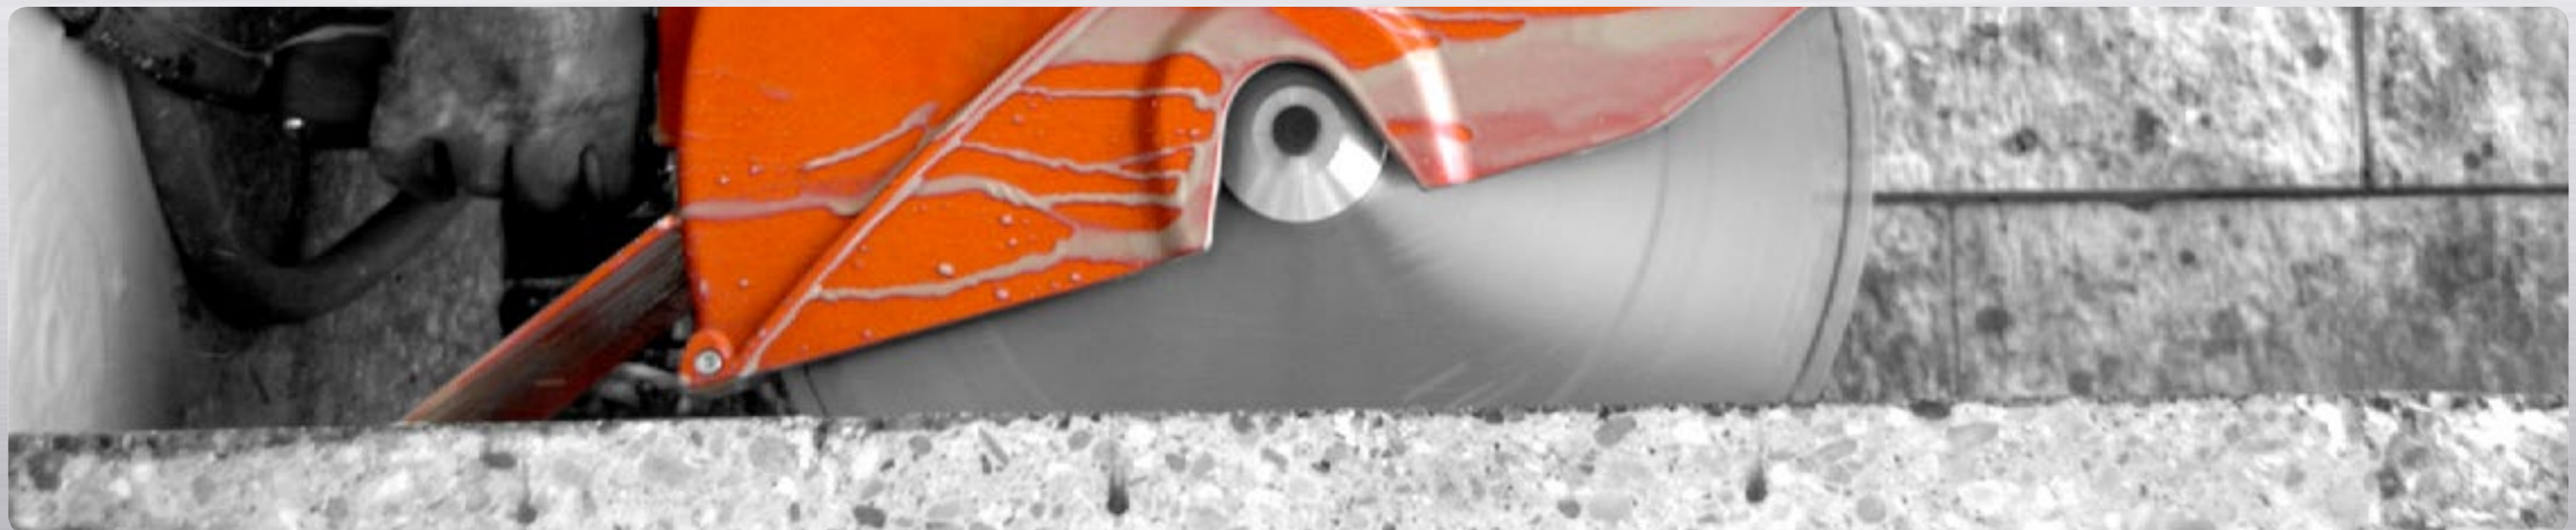

HE 160 HANDSAW

Powerful Handsaw for various cutting applications in the general construction business up to a max cutting depth of 158 mm (6 inch)

SM125 CONCRETE GRINDER

Robust and powerful - perfect for your grinding an polishing requirements for small jobs. Easy polishing - grinding - cleaning
