

## Care Homes in the Craven area

Information has been supplied by the Care Quality Commission (CQC), the national body responsible for the inspection and regulation of all care homes in England.

Our list includes:

- homes which provide **general** care – formerly known as residential homes
- homes which provide general care and **nursing** care, formerly known as nursing homes – indicated by an 'N' after the name of the home

As you will see, some care homes retain the title 'residential' or 'nursing' home.

**Respite care:** Most homes do offer respite care but this will depend on availability.

We have not included information regarding costs for each home as they often depend on individual requirements and are subject to change.

If the local authority is likely to be funding a care home, your choice may be limited – it may not be able to cover the cost of more expensive homes, for example. Always contact social care services to clarify your position.

If you need help with your enquiries or further details about paying for care, please contact Carers' Resource.

Care homes are registered by the CQC to provide services to specific clientele and this information is included with each entry– older people; dementia; physical disability, for example.

We can also supply information about care homes in other areas.

Individual reports of the CQC's care home inspections are available online at [www.cqc.org.uk](http://www.cqc.org.uk) or call Carers' Resource.

**Please note:** inclusion on our list **does not** imply recommendation by Carers' Resource.
