

# Global Sourcing

Brooks Global Sourcing have been involved in the importing of steel components and sub assemblies for the last decade.

**Does your business need help with the sourcing of products from abroad?**

**Do you need to keep your purchase costs down while still maintaining a quality assured guaranteed product?**

Brooks Global Sourcing can help! We will take the risk out of foreign sourcing. As a British manufacturing company, with **ISO 9001** accreditation, we can provide a top quality assured, fully inspected, and competitively priced range of products supplied from our warehouses that are logistically tailored to your requirements. We can then supply the goods within 48 hours from stock further assisting you by reducing your cash flow.

We can assure to supply you with your steel components, sub assemblies and even completed products exactly what you need, when you need it at the best price.

We have experienced engineers who are able to help and advise YOU on existing or future projects. For your guidance please find below details of manufacturing processes, projects and materials with which we are currently involved.
