

# Sheds, Polytunnels, Greenhouses - Preferred Positioning on Playford Lane Allotment Site

Whilst we have received confirmation that we do not require planning permission for erecting these structures on our plots, there are principles which we have agreed to adhere to:

## SHEDS:

**Must not exceed 8ft x 6ft x 7ft high - 1 shed to each plot**

Should be kept in a Neutral colour, and to aid water conservation a Pent roof design is preferred. Windows must be polycarbonate safety, glass is not permitted. No permanent foundation can be laid but integral wooden floors, wooden supporting sleepers, or removable paving slabs can be used.

## GREENHOUSES

**Must not exceed 8ft x 6ft x 7ft high - 1 Greenhouse to each plot**

Glass is not permitted therefore the structure should be glazed with Polycarbonate safety glass or similar. Permanent foundations are not permitted but removable paving slabs can be used. Only one greenhouse can be erected on each plot. Should you erect a greenhouse you **cannot** accompany it with a Polytunnel. The choice of **either** Greenhouse **or** Polytunnel is entirely yours.

## POLYTUNNELS

**Must not exceed 10ft x 8ft x 9ft high - 1 Polytunnel to each plot**

Permanent foundations are not permitted but removable paving slabs can be used. Only one polytunnel can be erected on each plot. Should you erect a Polytunnel you **cannot** accompany it with a Greenhouse. The choice of **either** Greenhouse **or** Polytunnel is entirely yours
