

(1) **G Carter & Son (Thornton) 2007 Ltd**

QUALITY POLICY

G. Carter & Son have defined and documented their policy and objectives for, and to, commitment to Quality. This policy is appropriate to our context and supports our strategic direction, which is to achieve, maintain and enhance its reputation of being a renowned and respected provider of subcontract machining services to clients.

It is the policy of The Organisation to perform the above to the requisite standard consistently and economically to the satisfaction of its customers.

The Company has ensured that employees at all levels are aware of and understand this policy and are encouraged to implement and maintain it as a matter of routine. This has been achieved through use of the Documented Quality System and display of the policy within the company's premises.

This document has been produced with our full authority, the systems and procedures detailed herein being mandatory for all personnel within the Company, whilst providing a framework for continual improvement and compliance to any legal, regulatory or statutory requirements,

It is expected that conformance to ISO 9001:2015 against which these documents have been prepared will enhance the satisfaction of our customers in terms of determination of their requirements in terms of product quality assurance, service and Interaction, and that they will be pleased to note the formal rationalisation of ISO 9001:2015 activities within the Organisation.

Whilst always mindful of the changing needs and requirements both of our Company and its Customers, this policy will be reviewed by top management for continuing suitability at Management Review.

Signed

D Beighton.....
