Edition

Our
Doors.

We're XL

Our doors define homes.

We're XL Joinery, and we've been in the door business for over 25 years.

A quarter century working with wood, helping transform rooms and spaces for the better. Our doors help define our homes, and whether your interior suits timeless solid oak, or a bright, contemporary splash of colour, there's something for you in our carefully selected range.

Over that quarter century we've learnt a thing or two. Skills and experience gathered from the craftsmen, carpenters, builders and joiners who see our product through from rough and sawn to finished and hung. Our people are experts in their craft, combining time-honoured tools and modern technology to guarantee excellence. They've taught us to focus on quality, on materials and on provenance. Because when we know where our wood comes from, and exactly how to use it, we create better doors, and better design too.

Community is important to us. Not just the XL Joinery family, though we're proud to employ some of the best in the business. But a community connected worldwide by woodwork. Our timber makes quite a journey to get here, so it's vital that we know exactly

where it's from. We use FSC and PEFC certification, with cutting edge systems to ensure everything is tracked and traceable. And we're engaged with sustainability at home too. One of our biggest achievements has been to go fully Carbon Neutral, an initiative driven by our passionate team members.

Our Yorkshire headquarters has one of the largest stockholdings in the UK, and our team handle everything from quality control, after-sales service and delivery in-house. We work with a handpicked network of builders merchants and retailers, providing nearly half a million doors a year for everything from personal renovation projects to groundbreaking new developments.

Alongside old favourites and classic doors, we've updated our collection to feature innovative and striking new styles, each inspired by some of the most talented designers and joiners in the business. And if you can't find what you're looking for at first glance, just remember you're dealing with people who know their craft. With a wide range of bespoke options and services, the chances are we can help.

We're XL

Proud of our craft.

If there's one thing that marks out an XL Joinery door, it's that we work with the best.

The best people, and the best materials. Decades of experience, using tools and methods passed down from one skilled professional to another. Nothing new just for the sake of it, but the brightest innovation where it matters most.

That's what craft means to us. Attention to detail. Traditional ways of working, with thoroughly modern quality assurance, tracking and traceability. And a hands-on appreciation of the beautiful timber that will transform your living space.

The in-house finishing and bespoke services we offer are a perfect example. Our people expect perfection, from the studio floor to after-sales support. Doors that are finished by hand, with a personal touch and an eye for detail. Or working to your exact specification for made-to-measure.

You'll find that craft in everything we do, across our entire range. Every single door, every single day, backed up by the regulatory compliance and professional certification to prove it. Going over and above to ensure the reputation our people have built over the years is well deserved.

We are honoured to be...

- ISO 9001 Accredited
- ISO 14001 Accredited
- Guild of Architectural Ironmongers
- CE Compliant Products
- Building Regulations Compliant
- Guild of Master Craftsmen Member
- Builders Merchants Federation

Our Promise

Everything we do starts with a promise. It's a pretty simple one. Something you'd expect any trustworthy tradesperson to abide by.

When we say it, we mean it.

Our oak doors are the real deal. Things like proper oak veneers. The stuff that matters to installers, and the little details that define an XL Joinery door. Beautiful construction, using proper tools and methods honed over time. Doors that are engineered to last.

We're XL

Service powered by people.

It's no good supplying beautiful, well made doors if we can't ensure gold standard delivery, or guarantee the kind of renowned after-sales support that has professional installers coming back time after time. *That's why we rely on our people every step of the way.*

It starts with design and development, spotting fresh styles and introducing innovative new concepts. That might be the contemporary statement of a Colours by XL door, a service powered by our talented finishing team. Or it might be an on-trend room divider, creating functional spaces for families to share.

All that hard work is complemented by our technical experts, ensuring our doors are safe, sound and fit for purpose. It might not be glamorous, but achieving the correct certification and compliance is just as important to the finished product.

**“Our West
Yorkshire
headquarters
and
distribution
centre is state
of the art.”**

Our West Yorkshire headquarters and distribution centre is state of the art too. We hold 200,000 doors in stock, and it takes some pretty complex logistics to ensure such a large, nationwide distribution network runs smoothly. We're pretty proud of our operation. It just works.

When it comes to sales and support, our team are right there too. Not squirrelled away in a call centre, but over the way from the workshops. If they don't know the answer, they can ask someone who does. Care and attention that's personal.

Sustainable at heart.

We couldn't exist without carefully managed forests, the source of the beautiful timber every XL Joinery door relies on.

It's a vital raw material, and a vital responsibility. Illegal logging and timber production is a danger throughout the supply chain, from the communities and wildlife it displaces, right through to the unreliable quality and risk of failure for the end result.

That's not our way. Our people are proud of their work, and we'd be letting them down if we didn't do everything possible to source ethical timber, and to contribute to a sustainable future for our natural resources. That's why we've had our own FSC Chain of Custody since 1995, and PEFC since 2014. We work closely with our manufacturing partners to ensure they share our ethical vision, following responsible forestry practices, and operating as transparently as possible.

Though it's our people that drive our focus on sustainability, it's our systems that enable real progress. Our environmental management systems comply to ISO 14001 standards.

The mark of
responsible forestry

Certified Carbon Neutral

This year marks a proud achievement for us at XL Joinery. After some great work from our Carbon Neutral Team, partnering with world leading organisations the Carbon Footprint Company and The Carbon Trust Ltd, we have been awarded the prestigious certification of Carbon Neutrality.

Put simply, we are committed to offsetting all our greenhouse gas emissions through ambitious offset projects. We've been planting plenty of trees, but we've also been learning about deforestation projects in the Amazon, where our contribution can help restore the forest and provide jobs and support for local villages.

What's more, we've been working to reduce our output at home, transitioning to electric vehicles on the warehouse floor, and introducing a raft of energy-saving measures throughout our headquarters too.

Most importantly, we're committed to reducing our carbon usage now and in the future, not just to offset it. It's an ongoing project for all of us, and one we're proudly committed to.

Our Services

Doing things differently.

For skilled joiners in years past, every job was bespoke.

Every project required something a little different. A new solution, or a challenge to be overcome with craft and ingenuity. In this era of mass production, it's important to remember that different doesn't mean difficult. Our people love different. So if you need a width or length you can't see in our collection then let us know.

Step 1.

Talk to us. Let us know what you're planning.

Step 2.

We'll produce a CAD drawing for you to sign off.

Step 3.

We'll manufacture your bespoke doors.

Step 4.

We'll deliver, usually 12-14 weeks after sign off.

Due to manufacturing complexities some highlighted designs may not be available as a fire door option.

XL Bespoke

Available on...

- All internal grey doors
- All internal oak doors (pre-finished and unfinished)*
- All internal walnut doors
- All internal white doors (pre-finished and white primed)

What's New

Face the change.

We've introduced a range of new designs and specifications for 2019.

From innovative technologies for external doors, to a fresh upgrade for one of our most popular styles.

Tricoya External

A combination of traditional and modern materials, using groundbreaking technology to create a solid engineered external door. See page 104.

Oak FD30 Fire Door Linings

A fire door lining which looks the part. Matching Oak and intumescent seals for safety. See page 101.

Oak Suffolk Original & Mezen Handle.
See Pages 48 & 99.

Rustic Oak Ledged & Oder Handle.
See Pages 61 & 99.

The Suffolk Range

Superior heat retention, sound insulation and a solid core with A Grade oak in all the right places. Much imitated, but never bettered.

The Suffolk Essential

An unfinished version featuring a solid core and 11mm hardwood lippings, designed with economy and scale in mind.

The Suffolk Original

Choose true quality with a solid core XL Joinery Original, featuring 20mm real oak lippings and deep inserts. Available with Colours by XL.

The Suffolk Statement

A celebration of craft, heritage and luxury featuring a solid oak statement door made from carefully selected timbers. Design to last a lifetime.

See pages 48 and 49.

The Cottage Range

Hand selected timbers to enhance the natural appearance of the Rustic Oak Ledged, with artful tongue and groove and no need for lippings. Engineered version available in white primed too.

See pages 61 and 73.

Giving Back: Lighthouse Club.

We're proud to support the construction industry. We've been working with builders, carpenters and construction professionals since day one, so we want to give a little something back.

The Lighthouse Club is a construction industry charity, so there couldn't be a better partner. They provide vital help for the industry's workforce and their families, providing everything from emergency financial aid, to a confidential helpline.

When construction industry workers find themselves in difficulty, the Lighthouse Club is there to help. And they've been doing it since 1956.

That's why we're making a donation to the Lighthouse Club every time we sell a Suffolk Essential.

Collection
Grey

Slate skies and urban chic.

Our Grey Collection looks to urban and industrial design for inspiration, achieving a sympathetic style for modern, minimalist designs, or a shock of the contemporary for more traditional interiors. Choose light grey for a nuanced touch, or dark grey for drama and presence.

Palermo Light Grey with Clear Glass & Mezen Handle. See Pages 30 & 99.

Top Picks

Palermo

A seven panel design, featuring matching light grey inlays and a striking combination of horizontal and vertical grain. Add a welcome touch of architectural robustness to your space, with panels that can widen perception.

Verona

The graceful curves of the Verona provide an element of symmetry to the room. The design echoes early twentieth century and art deco styles, but would look equally at home amongst modernist, contemporary furnishings.

Salerno

The sweep of the Salerno will provide dynamic movement to any interior. The flow of the door's curved grooves sweeps the eye towards the handle, showing off your choice of contemporary or traditional accessory.

Our Walnut Collection references timeless 20th century styles, evoking the quality and permanence of legacy furniture. The wood's depth of colour shines through, bringing a comforting warmth and security to any room.

Walnut Ravenna & Kama Handle.
See Pages 36 & 99.

Top Picks

Forli

The central panel of the Forli features a mass of horizontal grain walnut, creating real impact and showcasing this attractive and striking wood. Subtle aluminium inlays set off vertical side panels.

Varese

The Varese represents a unique combination of the traditional and the modern. A large format central panel suggests statement pieces of the past, but its aluminium inlays and elegant finish bring it right up to date.

Portici

Five panels of warm walnut, offset by vertical panels which frame and add a sense of height. Like other doors in the collection, the Portici features real aluminium inlays which help the panels shine through.

Collection
Oak

Timeless strength and character.

Our Oak Collection draws on a legacy of craft that stretches back generations. The warmth and durability of an iconic material, brought right up to date with a mix of adaptable contemporary and traditional styles. A perfect partner for any interior.

Oak Suffolk Essential & Mezen Handle.
See Pages 49 & 99.

Top Picks

DX

An early twentieth century style with bags of thirties character. This solid-looking design would be equally at home in a refurbished Victorian-era terrace, or a smart penthouse, mixing style influences across the decades.

Palermo 1 Light with Clear Glass

The Palermo is one of our most popular styles, and this glazed version can help bring light and warmth to any room. Maximise the natural sunlight in your house, and create a touch of open plan living without sacrificing privacy.

Louis with Raised Mouldings

An elegant two-panel door in traditional European style, perfect for lavish and maximalist interiors. The raised mouldings bring a tactile element that suits luxe design, evoking the qualities of times past.

Style with presence.

The Rustic Oak Ledged is a traditional cottage style door, perfect for renovations, heritage interiors, and for anyone seeking the cosy warmth of this dependable and timeless classic.

This statement solid oak piece combines the best modern construction methods with a material that stands the test of time, providing a real sense of presence for any interior. And for those looking for flexibility, the engineered core White Primed Cottage represents the easiest way to achieve the kind of finish you need, ready for painting or Colours by XL.

Collection
White

Crisp beauty and clean lines.

Our White Collection combines the appeal of contemporary minimalism with the considered cleanliness of traditional styles. A singular backdrop for everything from bright and busy interiors to stripped back urban apartments.

White Primed Cottage with Clear Glass & Oder Handle. See Pages 73 & 99.

Top Picks

Shaker

Part of a design tradition renowned for rustic charm and simple utility, the Shaker is a classic addition to any interior. It could anchor a contemporary scheme, or complement the heritage notes of a refurbished property.

Portici

The five panel Portici shows off this style at its best, with clean and crisp grooves highlighting the beauty of a simple white finish. Real aluminium inlays create a sense of depth, neatly dividing the door's elegant proportions.

Worcester Clear Glass

The Worcester lends itself to glazing, opening up your room and bringing in the sunlight that helps show furnishings at their best. The pure white helps lighten any interior, with vertical panels that lengthen and lift.

Collection
Pine

Adaptability and vivid variation.

Our Pine Collection displays the most attractive face of the timber, exhibiting the character and variation that differentiates each and every panel.

Pine Louis & Meuse Handle.
See Pages 81 & 98.

Top Picks

Vine DX

A style designed to complement faithful restorations, or to bring an element of heritage to more contemporary designs. The detailing on the panels draws the eye towards the characterful grain of the pine.

Edwardian with Clear Glass

A glazed door can help lighten a room, opening up the space beyond and bringing in natural light. This striking and substantial Edwardian version uses bevelled glass to add personality to the large, clear panes.

Rio 4 Panel

A four panel design with a difference, the Rio introduces a subtle curve across the top two panels. The large panels show off the knots and intricacies of the natural pine, with grooves that add depth and detail.

Pair Makers

Pair Makers.

A simple solution for adaptable interiors.

Any pair of doors from our collections can be combined to create a striking French door using a Pair Maker, or upgrade any two doors to a fully rebated door pair using the XL Joinery bespoke service.

Oak Pair Maker

Pine Pair Maker

White Pair Maker

Pair Maker is attached to the slave door and acts as a rebate to the other door.

Product Description	Code	Size
Pre-Finished Oak Pair Maker	PFOAKPM	1997 x 54 x 36mm
Contemporary Oak Pair Maker	COAKPM	1997 x 54 x 36mm
Contemporary Oak Pair Maker (Metric)	OAKPMMET	2056 x 59 x 41mm
Oak Pair Maker	OAKPM	1997 x 54 x 36mm
White Primed Pair Maker	WHITEPM	1997 x 54 x 36mm
Pine Pair Maker	PINPM	1997 x 54 x 36mm

Pair Makers not suitable for the Monza Glazed door.

The Pair Maker can be fitted to either a left or right hand door. For installation apertures add 10mm to the overall width of the two doors (not including clearance).

Pocket Doors

Pocket Doors.

No need to compromise on quality.

Our pocket doors mean you don't have to compromise on style and quality where space is tight, such as en-suites, bathrooms or kitchens.

A double door room divider is also an option, using pocket doors side by side to portion up larger living spaces.

Pocket doors are engineered to sit within partition walls, with a pre-assembled aluminium track and header mechanism included as part of each door kit.

We've designed the system to work with most doors, with the exception of those with raised beads or mouldings and fire doors, so you can take your pick from our carefully chosen collections.

Product comes with:

- Pocket Door System (Including Round Flush Pull Handle)

Hardware available:

- Soft Close and Locking Hardware
- Simultaneous Action Kit (For use with Double Doors only)
- Sliding Door Flush Pull - Satin (Rectangle)

Product Description	Code	Size
Pocket Door Kit (30")	POCKET-30	1981 x 762mm (30")

Easi-Slide

Easi-Slide.

Add functionality and transform your home.

Our Easi-Slide system is a striking way to divide a larger layout, allowing for a number of unique configurations that will add functionality and transform your home. Each is available in a choice of Oak or White Primed, using the standard door sizes in our range.

The Easi-Slide comes with:

- Frame
- All sliding door hardware (excluding handle)
- Pair Maker

Product Description	Code	Size
Oak Sliding Door Frame - 2pcs (includes hardware kit)	OSLIDEF	3500mm
White Sliding Door Frame - 2pcs (includes hardware kit)	WSLIDEF	3500mm

Available on Easi-Slide

The mark of responsible forestry

Only available on 35mm thick doors.

Easi-Slide components are FSC® Certified.

The White Easi-Slide is double coated and ready for final finishing.

Please include the Pair Maker thickness in your frame width calculations (12mm).

Frames will need to be cut down on the height as well as the width as allowances have been made for different types of floor coverings.

If using obscure glazed doors, ensure that the glass is facing the correct way prior to fitting.

How to Order

Step 1: Measure your opening

Step 2: Choose your door style

Step 3: Decide on the configuration

Option 1

2 fixed sidelights
and 2 opening doors

Possible door width options:

838 + 838 + 838 + 838mm

838 + 762 + 762 + 838mm

610 + 762 + 762 + 610mm

Option 2

2 fixed sidelights
and 1 opening door

Possible door width options:

610 + 762 + 610mm

Freefold

Freefold.

Our Freefold system allows for true flexibility.

Providing the option to either fold or open all doors in a divider. The result is a large, open plan space which can quickly be divided by whichever style or design suits your home. Available in Oak or White Primed.

Products are not handed (left or right) therefore options are also available in their mirrored versions.

Freefolds include: Oak veneered frame or double coated White frame (heads, jambs and stops), floor mounted guide, all hardware (except handles).

Recommended doors for the Freefold

(Doors need to be ordered separately - suitable for 24" doors only)

External Collection.

Enduring presence and
stylish expression.

Our External Collection features styles to suit any property, creating a striking entrance to your home. From contemporary, linear styles to conservative options with a reassuringly weighty presence, our doors are crafted to last, using traditional methods that stand the test of time.

External Tricoya Modena Finished in Moss Green with Vectis Handle. (This is only supplied with a door set) See Page 108.

Tricoya

Durable by design.

All our doors depend on the quality and performance of the materials used to craft them.

There's a reason why woodworkers staples like oak and pine remain so popular. But a respect for tradition doesn't ignore the best of modern engineering. That's why we're proud to introduce MEDITE TRICOYA EXTREME, a remarkable new option for our external collection.

MEDITE TRICOYA EXTREME is a new class of engineered wood, created with first class durability and the kind of stability that external doors need to stand the test of time. As an engineered material, MEDITE TRICOYA EXTREME is easy to work with, achieving a flexibility that makes it suitable for any design.

But with exterior doors, performance matters above all. And MEDITE TRICOYA EXTREME makes the grade in every way. No swelling when wet, excellent decay resistance, and no cracking or delamination after freezing and thawing cycles. Everything an exterior door requires.

External Tricoya Chancery Finished in Mouse Grey with Vectis Handle.
(This is only supplied with a door set)
See Page 109.

The Technology

The technology behind MEDITE TRICOYA EXTREME wood is based on acetylation, a process that has been developed by specialists over decades of research and testing. Acetylation changes elements within the wood, reducing the ability to absorb water and adding stability and durability.

The acetyl, which provides these qualities, is naturally present within the wood. The technique used to create MEDITE TRICOYA EXTREME simply increases the proportion of this vital element. A high-tech solution, but one with outstanding performance benefits.

Tricoya

The Doors.

We've harnessed the qualities of MEDITE TRICOYA EXTREME across a range of external styles, from the ever popular Chancery, to contemporary Modena and the heritage Westminster style. Windowed models come double glazed to keep the chill out, and each comes white primed and ready for finishing on site, or in one of 12 deep and beautiful colours. We'll even include a touch up pot for finished doors.

We take care of the labour. No time wasted sanding, priming and finishing on site.

The Guarantees.

30 Years for Rot and Fungal Decay

10 Years for Manufacturing Defect

10 Years for Double Glazing Failure

10 Years for Factory Paint Finish

External Tricoya Modena Finished in Pastel Turquoise with Vectis Handle (this is only supplied with a door set). See Page 108.

The Colours

Our Tricoya external doors are available in a range of hand selected colours, from vibrant, iconic yellow to cool, earthy sage, or clean and classic white. And for peace of mind, each pre-finished colour comes with a 10 year guarantee.*

Accessories

External Door Accessories.

Our external door accessories are designed to match our external door range with a wide variety of frame options to complete the look.

XL External Door Stain

Applying the correct stain is crucial for the look and long term performance of any external door.

That's why we have developed a professional external door finishing kit.

The kit includes:

- 1 500ml tin of Oak Base Coat
- 1 litre tin of Oak Top Coat
- 1 250ml pot of End Grain Sealer

Product Code: OSKIT
