IDEA and its CONCEPT.

NOT ONLY a number of Companies
but a strong and well defined Group.

Pozzi Industries is the synergy of competences in chemical, equipment, research, surfaces and decoration. We can provide high quality solution for a single customer necessity, or organize a synergic multicompany answer to complex requests.

PRODUCTION

RELEASE AGENT, COATING AND PU

POZZILaB
integral skin - furniture

A special mix of solvents especially produced go grant the optimal release of final piece.

A special coating is spreading on the mold.

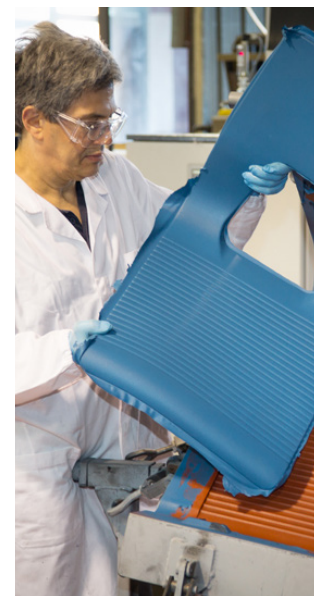

Metal insert are fitting on the mould before to close it.

Polyurethane is spread into the mould with SAIP equipment.

The correct choice of Polyurethane System will generate the better result and the optimal characteristics.
