Promethean

Then you need to know about the new ActivPanel from Promethean!

Powerful lesson delivery software - Award-winning ActivInspire and cloud-based ClassFlow are supplied as standard.

Learning in the moment – The instant whiteboard application gives teachers the tools to launch a collaborative session as the opportunity arises.

A natural pen-on-paper writing experience – Innovative InGlassTM technology provides a smooth writing experience... just like putting pen to paper.

Purpose built for the classroom – Providing everything you need for effective learning, including connectivity which supports device mirroring and Bluetooth devices such as musical keyboards and coding robots.

Teaching tools for connected learning – Powered by an upgradeable Android-based device, the ActivPanel creates a tablet-like experience at the front of the classroom.
