

O-JUSTABLE BRACKET

Steel City[®]

Steel City® O-Justable Bracket

The new Steel City® O-Justable Bracket from T&B offers the versatility you need to mount steel boxes in a wide variety of applications and job site conditions. One bracket can be used with any stud spacing from 12" to 25", and it can be mounted at any required height.

The O-Justable Bracket accommodates 4-square, 4 11/16", and the new Steel City® 5-Square Steel City® boxes. Multiple boxes can be installed on a single bracket, and the open design enables the boxes to be mounted in any location between studs. The ability to adjust the bracket width on the job site makes it ideal for prefabricated rough-in assemblies.

- Adjustable from 12" to 25" stud spacing.
- Bracket provides the capability to adjust on-site for a flexible work-site install.
- Accepts 4", 4 11/16", and 5" steel boxes.

Less than 14" stud spacing
(use only 1/2 of the bracket)
